By Thomas R. Burgess

**ASCS WILL REGISTER BEEF PRODUCERS JUNE 6 - 17** - The Hoke County Agricultural Stabilization and Conservation Service (ASCS) Office will register beef producers June 6 - 17 to vote on the beef research and information order. Beef producers who fail to register cannot vote in the July referendum.

If over half of registered producers vote in the referendum and two - thirds of those voting approve the order, the Secretary of Agriculture will appoint a beef board, composed of not more than 68 beef producers, from names submitted by producer organizations. The board would collect assessments on sales of cattle and use the funds for beef research and information programs.

Registration may be in person or by mail. Those who wish to register by mail may request the ASCS county office to mail registration cards.

All persons who produced beef during calendar 1976 are eligible to register. This includes feedlot operators as well as dairymen.

Each production entity -- such as family, partnership, or corporation -- is entitled to one vote. A 4-H or FFA member may register, provided he or she produced beef independent of the family operation.

From June 6 through 17, the ASCS office will daily post a list of producers registered to vote in a conspicuous place. A final list will be posted June 22. Anyone may challenge the eligibility of any producer listed. Thomas R. Burgess, ASCS Hoke County Executive Director, will resolve challenges.

**ACREAGE REPORTS REQUIRED FOR ALL FARMS** - The Agriculture Committees of the Senate and House have reported out farm bills which provide that if a set - aside is implemented for the 1978 crops, the acreage required to be set - aside as a condition of eligibility for program benefits may be based on a percentage of the acreage planted for harvest in 1977. Although this would not be the only alternative available, in order to provide the Secretary with a full range of options in the event a 1978 set - aside is deemed necessary, 1977 acreages of wheat, corn, grain sorghum, and barley planted will be obtained. Under either current or proposed legislation, the 1977 reported acreage will not be used for purposes of establishing allotments.

Tobacco must be reported by June 14. Wheat and barley acreage must be reported prior to harvest. Cotton must be reported by July 15 and acreages of corn and grain sorghum by Sept. 1.

If there are any questions, please contact the Hoke County ASCS office.

**ELIGIBILITY FOR PARTICIPATING IN ALL PROGRAMS ADMINISTERED BY ASCS IS ESTABLISHED UNDER LAW WITHOUT REGARD TO RACE, COLOR, CREED, NATIONAL ORIGIN OR SEX.**
