

# Ambulance Raeford Aviation Approved Wins Championship By State

A second ambulance vehicle operated by Buie Ambulance Service passed state inspection requirements last week and received a one-year permit.

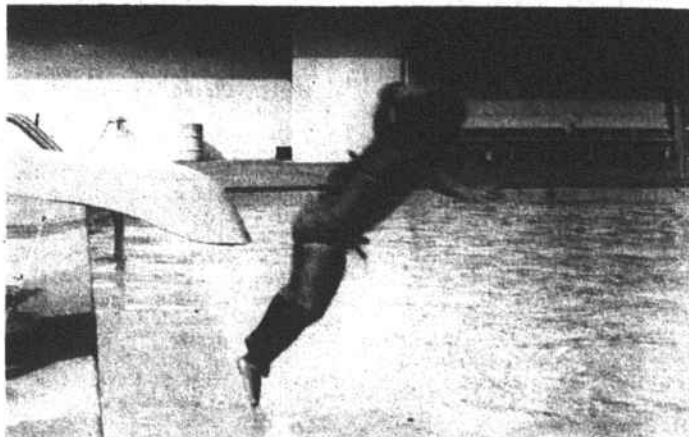

The firm, which contracted with the county July 1 to provide service, now has two ambulances certified. Clair Hudspeth, emergency medical services coordinator for the Department of Human Resources, said the delay in getting the second vehicle certified was due to new regulations which went into effect July 1 concerning space in the patient area. The vehicle had to be modified by a body shop.

Raeford Aviation won the Hoke County Parks and Recreation Commission's Little League Championship with an 11 - 4 win over the Lions.

Larry Quick paced the winners with three hits in four times at bat. Greg Hollingsworth pitched the victory for Raeford Aviation and hit

a home run to aid the offense. Reggie Pickler was 2 - 4 for the Lions.

## IF WE SEE ENERGY PROBLEMS 5 YEARS AHEAD, IT MEANS WE'RE ALREADY 5 YEARS TOO LATE.

Today, electric power provides 25% of the nation's energy. By the year 2000, it will be providing 50%.

With this growing demand, you can see why we

have to be years ahead in our planning. As for building, it takes at least five years from date of approval to build a coal-burning plant.

A nuclear plant can take ten years. Or even longer.

And there's not only time involved; there's money. At today's prices, we can't build either a coal or nuclear plant for less than \$460 million.

And, when we have to spend money building plants, eventually it means higher costs for your electricity. That's why it will pay both us and you to do everything we can to hold the demand for electricity as low as possible.

By avoiding the summer "Peak Load" hours of 10 AM to 10 PM. By keeping your air conditioner at the highest possible comfort setting. By insulating a home properly.

The full story on what you can do to save on your electric bills is free at any CP&L office. Pick up a copy soon. Because the longer we wait now, the harder it will be to do anything about it later.
