Vets Corner

The Veterans Administration today reminded former servicemen and women that awareness of VA burial benefits can often spare a family anxiety and financial hardship immediately following the veteran's death.

Interment in a national cemetery is available, for example, to veterans discharged under conditions other than dishonorable. The eligible veteran's spouse and minor children, and, under certain conditions, unmarried adult children, are eligible also. Some national cemeteries have no remaining space, however.

VA will furnish a headstone or marker to memorialize a veteran or mark the grave of a veteran buried in a national, state or private cemetery. VA will also provide markers to eligible dependents interred in a national or state veterans' cemetery.

According to Veterans Administration Regional Director Kenneth E. McDonald, recent legislation has broadened eligibility for memorial headstones or markers. Under the new authority, McDonald said, VA can provide these services to all veterans whose remains have not been recovered or identified. This includes those who were buried at sea—whether by the veteran's own choice or otherwise—those whose bodies were donated to science, and those who were cremated and the ashes scattered without burying any portion of the ashes.

The new law also requires a memorial section be set aside in a national cemetery if one does not already exist and where land is available.

VA also provides up to \$300 toward the burial expenses of eligible veterans and an additional \$150 as a plot or interment allowance if the veteran is not buried in a national cemetery or other government cemetery, McDonald added.

Effective October 1, 1981, the burial allowance, previously available to all wartime veterans, is now limited by public law to veterans eligible for VA pension or compensation and to those who die in VA medical facilities. The plot allowance, not affected by the new law, is available to all veterans who served during war periods.

If the veteran's death is service connected, VA will pay an amount not to exceed \$1,100 in lieu of the usual burial and plot allowance.

VA will also provide:

- *an American flag upon request for use in covering a casket;
- *a reimbursement for part of the cost of private headstone or marker bought and placed on the grave of a veteran. The current amount is \$63, the average cost of headstone purchased by VA; and,
- *presidential memorial certificates expressing our nation's grateful recognition of deceased veteran's service which bear the signature of the President.

In addition to VA burial benefits, veterans and their dependents may be eligible for a lump sum monetary death benefit provided by the Social Security Administration. Local SSA offices have details.

For more information on VA burial benefits, contact any VA office or national cemetery. Toll-free numbers to VA regional offices are listed in the telephone white pages under "U.S. Government."

NEWS OF PROGRESS

Muzzling Gas-Guzzling

With a new energy crisis brewing, smart private and commercial drivers are doing all they can to conserve precious fuel.

Good car-care will put you on the road to fuel savings.

Vehicle maintenance plays an important role in conserving gas. You can improve your car's efficiency by having it serviced regularly. Check the manifold heat control, have a general tune-up. Have the choke, fan and air conditioning belts checked and the air filter inspected. Improperly aligned tires, too, waste gas and make the tires wear out faster.

Multi-grade motor oils can also boost fuel economy by three percent to better than six percent for both autos and trucks, according to the Amalie Refining Company, which has been concerned with American drivers and their automotive needs for over 75 years. A 25-truck fleet, for instance, using multi-grade lubricants, could save more than \$25,000 each year in fuel costs!

Being resource-full requires putting the brakes on energy waste!
