Chris Watkins Presents Program At UDC Meet

Chris Watkins, director of music at the Raeford Presbyterian Church, presented a program on "Music of the Civil War Period" at the January meeting of the Raeford Chapter of the United Daughters of the Confederacy. The songs of the period were based on patriotism for the southern cause, battles, minstrels, marches, love and separation. He concluded the program by using favorite hymns of Generals Lee and Jackson. "How Firm a Foundation" was a favorite of General Jackson, and "My Faith Looks Up To Thee", a favorite of General Lee. Mr. Watkins was introduced by Miss Sarah Lytch, program chairman.

Mrs. Lillian Wood, president, presided and read the UDC prayer for the devotional. The ritual and allegiance to the flags were also led by the president. The treasurer announced that a memorial for Mrs. Sappho McFadyen, a member of the chapter, had been sent to the American Cancer Society. The scholarship committee was asked to have plans ready by the February meeting.

During the social hour, a sweet course with hot tea was served by the hostesses Mrs. Lorena Phillips and Mrs. Marilyn Fowler.

Thursday dinner guests of Mr. and Mrs. M.V. Peele were Mrs. Viola McLaughlin, Mrs. R.C. Bowyer of Laurinburg and Mrs. Robert Gonzales of Monroe, La.

REPORT ON NITRITES AND CANCER
A committee of the National Research Council of the National Academy of Science has just com-

pleted a study on the controversial food additives, nitrate and nitrite, and the additives' relationship to cancer.

The study stated that neither nitrate nor nitrite directly causes cancer in animals. Evidence linking nitrate, nitrite or N-nitroso compounds to cancer in humans was, mostly, circumstantial.

The committee found the largest source of nitrosamines to be occupational exposure (for example, in leather tanning or rubber manufacturing industries) and not foods. It is also interesting to note that the committee found that vegetables were responsible for 87 percent of nitrate consumed. The committee is NOT saying people should stop eating vegetables. They are saying that, perhaps, levels of nitrate in the diet might be minimized by changing fertilizing or storage practices.

To be on the safe side, the committee recommends that the use of all nitrate salts to be discontinued in all meat and poultry products except:

• Fermented sausages (Pepperoni, salami, summer sausage, etc.).

• Dry-cured meats (country-style hams, beef jerky, etc.).

Use of nitrate and nitrite salts in these products are important in preventing botulism.

Methodist Women To Observe Call To Prayer

The United Methodist Women of Raeford United Methodist Church will hold one of their most important annual observances—the Call to Prayer and Self-Denial at 4 p.m. Sunday, January 17, at the church Fellowship Hall.

Major events of the observance include the Quiet Day and descriptions of the mission projects for which a special offering is given.

The Women's Division of the General Board of Global Ministries of the United Methodist sponsors the Call to Prayer and Self-Denial.

"Support the Struggle Against Racism" is the theme for giving this year.

In the United States, the offering may be used to assist, aid and nourish a variety of programs to support the struggle against racism. Such projects may include support of minority women in the ministry or assistance to an organization in its efforts to make the church inclusive of all people. Support might also be given to assist the work of a church in a "changing" community, to aid a health care resource and advocacy project for people whose health care problems stem from racial discrimination, or to provide educational support of young minority children so they can develop an early positive self-image.

The development of anti-racist educational resources, especially of history textbooks, is still another avenue through which the struggle against racism can happen.

Examples of projects from other countries which may receive support are aid to families of South African political prisoners, assistance to women of Zimbabwe whose lives have been disrupted by war, and a comprehensive program of training for Bolivian women seeking to overcome the centuries-old effects of racism. Aid might go to a project like one that now empowers the Mapuches of Chile to reverse the effects of racism. Support could go to improve the situation of Koreans in Japan.

The service for the Quiet Day **Open Our Eyes, Our Ears, and Our Hearts** was written by Mary Lou Santillan Baert. The service supports equality and justice for all invites Christians as a community of loving people to deepen their trust, respect and love for all people.

About 1.4 million women in more than 25,000 local units in all 50 states and Puerto Rico will join in the observance. Last year, the offering totaled \$847,647, an increase of \$19,438 over the previous year.
