DID YOU KNOW THAT...

Basic patterns that are used over and over should be "bonded" to preserve them. This applies to favorite blouses, skirts, pants, tops, suits, etc. The process makes patterns much easier to handle when pinning them to fabric. And they can still be put back into the envelope for later use. Below are the steps that couldn't take more than a few minutes!

1. Place a piece of white tissue paper (old or new) on your ironing board. (For large pattern pieces, overlap sheets of tissue).
2. Lay a piece of a clear plastic cleaner's bag on the tissue.
3. With your hands, smooth out

a wrinkled pattern piece on top.
4. Press the pattern with a dry, hot iron - once over lightly. Magically - this fuses the layers together. (Avoid touching the plastic with the iron or you might become unhappy, temporarily!)

5. Trim off the excess tissue to the cutting line. Great idea, for beginners, too!

Gathering thread will never break if you zig-zag over a string or coarse thread on the seamline on the wrong side of fabric. With this method gathers are finer and prettier, and so easy to pull up the string. They stay where you place them, too - without the seam allowance curling. Use this trick not only for the top of gathered skirts and for gathering dust ruffles - but also for little jobs...such as a bodice gathered to a yoke, and a long sleeve gathered to a band. This is a real labor-saver!

You'll never have to thread a machine needle again, if you use this trick! Cut the thread at the spindle. Tie on the new thread color with a tight knot. Grasp and

pull the thread that is through the needle - in the direction that the needle is threaded. The knot will slide through the complete threading...even through the needle! Saves time and eyesight!
