Correction

John C. (Pete) Hasty of Maxton is a candidate for one of the State House of Representative seats in the Robeson-Hoke-Scotland counties' District.

A News-Journal report published last week erroneously said the district is composed of Burleson, Hoke and Scotland. North Carolina has no Burleson County. The line should have read "Robeson, Hoke and Scotland counties."

"SAVE THE LIGHTHOUSE"

In searching for history; artifacts, families, tombstones, landmarks, etc. we spend much time and money.

One of the most impressive landmarks of America's sea shore and most certainly North Carolina's is the Cape Hatteras Lighthouse. A National landmark standing on part of our nation's only National Seashore; the present lighthouse replaces the one that was erected in 1798 which was lost in bombardment during the Civil War. Standing near the ruins of the first Cape Hatteras lighthouse as a constant sentinel to guide our seafaring travelers, it is the tallest brick lighthouse in the nation, standing 193 feet. Rebuilt in 1870 it is still in active service and open to visitors. 30,000 acres -- 70 miles of National Seashore invites year-round visitors to the Outer Banks of North Carolina.

Hoke County stands behind the efforts being made state wide to save the National monument. Through 112 years it has directed our Nation's ships as well as others through the rough shoals of the North Carolina coast line.

The main interest at the present is hopefully a learning experience for our youngsters especially.

School children from K-6 grades will be making posters to be displayed in the library and will be shown a film to insure a greater interest in what this program will mean to them historically.

To go along with "Save the Lighthouse", another slogan is being adopted; "Save the Can to Save the Lighthouse". This is the direction folks will be going, to save that soft drink can that will be sold for lighthouse funds. This is something each child can do and in

so-doing can know he/she is doing something worthwhile.

Mom, Dad, let Jim, Jack, Jo, or Josephine have your drink can for their collection. Or, maybe your neighbor has youngsters if you don't have any. "Save the can".

Meanwhile the library has a special display of books, pictures, brochures, and articles of the lighthouse on the shore at Cape Hatteras, N.C. These, you are welcome to use in the library the next week or so, then they may be checked out. We want all our Hoke County folks to become more educated to where, what, and how about our coast line and just why this special interest in "Save the lighthouse".

Let your interest be strong enough to write to "Save the Lighthouse", P.O. Box 1800, Raleigh, N.C., 27611, for more information.
