

Hunt, Headen Qualify

The Hoke High Bucks track team placed eighth out of 26 schools Friday in the Sectional Track Meet.

In finishing that high, the Bucks had two to qualify for the regionals which will be held Thursday at Wilson, another step toward the state championship.

Paul Hunt won the 3,200-meter run in 9:37.28, a new record for him and the school. His win

qualified him for the regionals. He never was in much trouble in the race. His closest competitor was Chris Gibson, who was 11.5 seconds behind him.

Jay Headen of Hoke placed third in the 100-meter and 200-meter dashes, and the third-place finish qualified him for the regionals. In the 200, he broke the old school record, covering the distance in 21.6. He was in fast company. The

first two finishers have run the 100 in 10.3 or 10.4. In the 200, the winner has run a 20.88 and ranked fourth nationally.

Willie Bridges placed fourth in the 800-meter run with a record-breaking 2:00.35. He failed to qualify by less than a second. Edward Watson and Darrell Cromartie placed fifth in the discus throw and shot put respectively.

Blazers Tied For First Place

Hoke's semipro baseball team is currently tied with Ft. Bragg for first place in the Tri-County League.

"The Blazers are really playing bigtime baseball right here in our own back yards," says manager

Jimmie Conoly, "and we're awful proud of our 8 wins and 3 losses record so far."

Last weekend the Blazers won two more games. Saturday, the Blazers downed the Red Springs Giants, 15-6. Kenny Carpenter went the route as pitcher, striking

out 13 and holding the Giants scoreless in six innings.

Mike Nievers and Carlton Locklear had the big bats for the Blazers, each going two for three and each batting in three runs. Nievers' home run was the blast of the day.

Mark Madden and Raschad Rahmann contributed to the effort by rounding the bases three times each.

Sunday afternoon the Blazers traveled to Lillington to meet the All-Stars and brought back another victory, 6-4. Trailing 2-1 after the first inning, the Blazers came back to take over the game and led the rest of the way. Pitcher Rahmann shut the All-Stars down with a six-hit performance, a sprinkling of six strikeouts and shutout throwing in the eighth and ninth innings, following the All-Stars' two-run threat in the seventh, Kenny Carpenter, first baseman, led the Blazers' hitting attack, going three for five for the day. Larry McDonald and Tim Clark each had doubles to add support.

"What we need more of is fans," says Conoly. "The fellows have really worked hard before and during the season to get our act together, and we're out to play because we love the game. We've gotten excellent support from the citizens and businesses, generally speaking, in this, our first year's effort. We'd just like the chance to show more people first hand what we're contributing to the community."

The Blazers' next home game is against Lumber Bridge at 3 p.m. Saturday at the high school field.

Who is Harris Blake? Why Should He Be Our Congressman?

BLAKE BELIEVES:

Inflation, Cost-of-Living: I have nothing but praise for the job that President Reagan has done in this area in less than two years. However, the job is far from done. Groceries are still too high. Gasoline is still too high. Rent and house payments are still too high. Until the federal government learns that it must live within its means, it will continue to be a major problem. That is why I favor a Constitutional Amendment requiring a balanced budget except in times of extreme emergencies.

Harris Blake golfing with former Congressman Earl Ruth and former Gov. James E. Holshouser, Jr.

Social Security: As your Congressman, I will do everything in my power to preserve and protect our nation's Social Security System. Those politicians who play upon the fears of our older citizens should be taken out behind the barn, and have their hide tanned.

Budget Cuts, Defense and Social: National defense must have our top priority. Without it, all other issues lose significance. We must see that our dollars are spent for the maximum effectiveness, but most of all, we must have a superior national defense. On social spending, I believe the federal government has assumed responsibility for many areas of social spending that rightly belong to state and local governments.

Unemployment: I am a small businessman, and employ between 40 and 50 people. In January, our company had to lay off several employees. We've never had to do that before, and it was a terribly

tough decision. I should add that we are in the building supply business, and this is not the best of times for builders. Every effort must be made to get interest rates down, and the economy on the move again. Free enterprise can solve the unemployment problem if given the chance by government.

The President's Tax Cut: I totally support the President's three-year tax cut program. If we don't cut taxes, the federal government will continue to grow without ever recognizing the problem of growing deficits.

Abortion: I believe that abortion is morally wrong. I do not choose to force my beliefs on others. However, as your Congressman, I will be opposed to governmental funding of abortions.

School Prayer: I believe that prayer is a natural thing for a human being to do, and voluntary prayer in public schools should be permitted. Based on my own experience, a once-weekly chapel program was beneficial to all students. I have never known anyone injured in any way by prayer. In fact, just the opposite.

Harris Blake with U.S. Senator Jesse Helms at a recent "Save the Cape Hatteras Lighthouse" meeting.

Agriculture: I totally support this District's tobacco farmers and tobacco industry. I grew up on farm, and most of my family is still involved in farming. Agriculture will have a staunch supporter when I am your Congressman.

HEFNER VS. YOU

In 1975, your current Congressman's first year in Washington, D.C., Mr. Hefner voted himself a pay hike to \$44,600 per year.

In 1977, Mr. Hefner was a little more tricky. He voted against a measure to defeat a 29% pay hike for himself. Mr. Hefner got what he wanted: A raise to \$57,500.

In 1979, Mr. Hefner voted for another pay increase. This time to \$60,662 per year.

But, 1981 was his big year:

Mr. Hefner voted himself a \$75 a day tax cut (up to \$19,650 annually that he doesn't have to pay taxes on); made the tax cut retroactive for himself, and then voted AGAINST President Reagan's tax cut for you, the citizen, the voter.

Can we afford Mr. Hefner anymore?
