## NOV. 2, 1982

Paid by the Committee to Elect Bratcher

### You can't judge a judge by his party membership!

Party membership does not properly qualify a candidate to be a judge. When you vote for a judge, you should be voting for justice based upon knowledge of the law and the facts, fairness to all parties in all cases, respect for the rights and sensibilities of persons involved in courtroom proceedings, and the dignity that befits one who administers justice. The law is above party politics, and justice should never be influenced by it.

When you vote for a judge, vote for the person. Vote for Paul B. Eaglin. He knows the law, is well experienced in proper courtroom procedures and conduct, and has respect for the rights and dignity of all persons coming under the court's jurisdiction. His name will be listed on the ballot as a Republican Party candidate. Look for it.
