

# INTRODUCING CS&L III. IT CAN MAKE YOU MORE MONEY THAN ANY MONEY MARKET ACCOUNT.

*Those others just pay money market rates on your deposits.*

*CS&L III pays money market rates on both your deposits and your idle checking funds.*

You can earn more with Southern National Bank's CS&L III because it's set up to keep more of your money invested.

In addition to paying money market rates on your deposits, it will also pay money market rates on your idle checking funds.

Checking money you don't need right away can be "stored" in your money market account. We'll transfer it there, automatically, every day.

CS&L III also lets you write all the checks you need, instead of limiting you to 3 a month.

Finally, all your funds are insured by the FDIC, and you'll be free to put your hands on your money whenever you like without penalty.

There will just be more money to put your hands on.

## **SOUTHERN NATIONAL CS&L III**

*Member, FDIC. Accounts insured to \$100,000.*
