On The Front Burner

Hopefully these illustrations along with last weeks column will help you in baking your turkey and getting it carved.

Homemakers are responding nicely by sharing hints and recipes. Mrs. Louise Plummer called to say that cookie dough that is made into small balls can be decorated by taking an empty thread spool, removing paper on the end and use that to press the ball flat.

Different thread companies have different designs. I would suggest dipping the spool in flour or granulated sugar to keep it from sticking - thanks Louise

I cup vegetable oil I cup buttermilk

Combine. Salt to taste.

Home Made Sweetened Condensed Milk

You can make sweetened con-densed milk in your kitchen using powdered milk! It's so easy and inexpensive! The "store bought" kind is made by evaporating whole milk and sugar and it's thick and creamy. It's used in many tasty desserts. It makes about the same amount as the canned and can be used in any recipe calling for weetened condensed milk. It costs just a fraction of what it costs to buy in the store. Keeps several weeks in the refrigerator I cup instant nonfat milk

tablespoons melted butter or margarine Pinch of salt

1/3 cup boiling water

Put in blender and process until smooth.

Christmas stain removal hints

At Christmas dinner, the tablecloth sometimes seems doomed. But if stains are treated while still fresh, generally they can be removed. Here are some suggested methods for treating the most common holiday-type stains:

Fruit stains including cranberrles: Soak the area in warm water and enzyme pre-soak, then launder. If necessary and color and fabric permit, launder again using chlorine bleach.

Gravy or milk: Use an enzyme pre-soak with cool water or make a paste of detergent and water and work that into the stain. Then launder. Should the stain remain, use a dry cleaning solvent.

Wine or soft drinks: Soak with an oxygen bleach in the hottest water safe for the fabric, then launder. If necessary, launder again with chlorine bleach.

Coffee and tea: Soak in hot (Continued on Page 7, Sec. II)
