## Burlington Plant Hits 10 Million Safe Hours

"We've scored a big 10," said Raefton Plant Manager Bill Archer.

Archer referred to a 10 million hour safe work record reached by the plant's 1200 employees at 12:15 p.m. Monday.

"It's simply a case of our employees being totally dedicated to safe operations," Archer said, praising the plant safety steering committee and wage and supervisory employees in each department for their leadership.

He said the record performance covers a three-year span, this means the plant has operated since that time without a single lost-time accident.

Employees celebrated a 9 million achievement in July, and pledged to move on toward the 10 million mark.

"Now that we've achieved this goal, we see no reason not to continue working toward 11 and 12 million," Archer said.

The Raefton plant, and its sister operation in Raefton, Burlington Menswear Dyeing, are units of the Burlington Menswear division of Burlington Industries.

**STEREO WINNER** — The winner of the B.C. Moore & Sons department store drawing held Saturday is Roy Locklear, shown here with his son, Keith, 9. His prize was the eight-track AM-FM stereo with two speakers, all shown at left. The Locklears live on Rt. 1, Red Springs.

## Heritage Federal Ends Year In Black

Heritage Federal Savings and Loan Association, the states 8th largest, ended fiscal year 1982 in the black.

Fred A. Parker, President of Heritage reported that the association at year-end November 30, showed a profit of \$1,540,930.

During 1982, Heritage was able to sell a portion of its low yielding mortgage loans and re-invest those funds in high yielding short term instruments.

By late summer, interest rates began to decline and lowered Heritages cost-of-funds and improved earnings.

Also, consolidation of operations of the merged associations reduced operating expenses and added substantially to earnings.

Heritage, based in Monroe, was one of the states pioneers in mergers. Parker said that "Heritage merged with First Southern Savings and Loan of Lincoln in 1980.

Then in 1981 and 1982, merged with associations in Smithfield, Raefton, High Point, and Madison. The association currently has 17 offices in 10 counties and assets in excess of \$288 million.

On October 15, 1982, President

Reagan signed into law the most comprehensive legislation affecting savings and loan associations since the 1930s.

Under the new legislation, Heritage will have the opportunity to broaden its services to customer's loans; loans to small business and farmers; and commercial checking accounts.

"A vital part of Heritages investments in the year ahead will be in home financing. These new lending powers will benefit home buyers by giving Heritage the additional flexibility to earn income from a variety of alternative sources so that mortgage rates alone will not bear the entire burden when money costs are high," Parker said.

Parker, who is currently serving as Vice Chairman of the Federal Home Loan Bank of Atlanta, remains hopeful that 1983 will be the year that economic recovery took effect.

He adds a note of caution however, "that Congress and the Administration must deal successfully with record high unemployment and huge federal budget deficits if interest rates are to continue to decline and economic health return."
