 1 1/2 cups milk
 1 1/2 cups (6 oz.) grated cheddar cheese

Looking for an easy way to measure shortening? If you want a half cup, fill a full measuring cup half with water. Then add dabs of shortening. When the water reaches the one-cup mark, you have added half a cup of shortening. Pour off the water and use the shortening.

When making hot cocoa, simmer the cocoa powder in water about five minutes before adding milk and sugar. This breaks down the starch and gives a more velvety cup of hot chocolate.
