Notes.

The "Southern" of Knoxville is the oldest and by far the largest general association in the south, and is also the largest association in America.

It has 600 branches in 18 states. It is, in effect, a league of 500 local associations. All these associations must fall before the association can fail. Therefore, failure is impossible.

The "Southern" has turned over from the expense fund to the loan fund \$172,000 in five years. No other association has even approximated such a record.

The actual running expense per share is less than in any other association, and on cash handled much less than the majority of the large financial institutions of the country.

The feature of an unapportioned reserve, providing against losses and insuring the perfect equality of all stockholders, will be appreciated, for the interests of the many cannot be sacrificed for the benefit of a few.

The by-laws forbid the sale, or the use as collateral security, of any of the securities belonging to the association, and require all securities to be kept on deposit in the name of the association with the State Treasurer or approved trust companies.

CITY IN BRIEF.

Items Picked Up and Boiled Down.

Many persons were at Pallen park yesterday.

A cool wave made its appearance at 11 o'clock last night.

It is intimated that Forepaugh's circus will be here later.

Oranges have about doubled in price since the cold snap.

It is alleged that there is no law against prize fighting in this state.

Some new buildings have been put up at Hill Top dairy, north of the city.

Tomorrow the supreme court will take up the appeals from the tenth district.

Twenty nine years ago Gen. Lee surrendered at Appomattox court house.

Gov Carr offers \$300 reward for Frank Benton who in Wilson county murdered Wiley Dixon.

Today the ploughing of Nash square began. It will be sown in peas, and later in grass.

Nearly all the lands in this section are now prepared for the crops. They are in better order than ever before.

The trustees of the Baptist state university and of Wake Forest college meet here tomorrow.

From the roof of the capitol new buildings can be seen in all parts of the city. Raleigh is most assuredly growing rapidly.

It is stated that there is not an unemployed carpenter, bricklayer or painter in Raleigh. That is a good sign of prosperity.

Cards have been received announcing the marriage on the 9th inst. of Mr Hugh Chatham, of Elkin, to Miss Martha Thurmond, of Ripley, Miss.

Reports come in of the capture of two illicit distilleries in Person county and one in Harnett, by deputies Troy and Woods.

It is expected that the middle of next week the new steam heating apparatus at the agricultural building will be complete.

Col WR Richardson, who was for many years city editor of the VISITOR, now holds the same position on the Evening Press.

On the 25th instant, at Demopolis, Alabama, Miss Willey C. Cough Webb, of that place will be married to Mr James P. Ferrall of Raleigh.

Gov Carr places the question as to the length of judges terms not only before the supreme court judges but those of the superior court as well.

Many delegates returning from the Y M C A convention were at the depot this afternoon. Each wore a triangular badge of scarlet felt on the lapel.

A Raleigh company known as the "Southern Improvement and Immigration Company" has quite a large vineyard near Aberdeen, Moore county.

At the Baptist tabernacle last evening five persons joined, two by baptism and three by letter. At the "after meeting" there were two professions of religion.

This year the lazy men are in luck. Those who cut back their vines lost all or nearly all their grapes, while the lazy ones who had not touched the vines will get a fine crop.

U S Senator Walsh, of Georgia, passed through Charlotte Saturday night and on being touched on the question of not being a very strong Cleveland man, said he was a conservative, and was not going to fight any one.

Saturday afternoon the roof of the large warehouse of the Baltimore United Oil Company was found to be on fire. Four or five men worked rapidly and put out the fire in a few minutes. It was caused by sparks from a passing engine.

A question which is to be passed upon quite soon is as to whether there shall not be an early meeting of the democratic state executive committee; this to be for the purpose of conference and also to decide upon the date of a convention. There are some who want an early convention; there are others who want a late one.

There were interesting and well attended services at the soldiers' home yesterday afternoon, conducted under the auspices of the Baptist tabernacle. The music was by Messrs Check and Egerton on the cornet and Miss Olivia Barkley on the piano. Mr N B Broughton talked to the veterans.

Disbanding the Militia

The scene of military operations in the dispensary war is now transferred to Charleston. J Cary Watts assistant adjutant general of the state, has arrived there armed with instructions from Governor Tillman to disarm and disband the Fourth brigade of South Carolina volunteer troops. The charges are that the brigade refused to obey the governor's orders and repair to Darlington to suppress the insurrection. The assistant adjutant general went there on a special train, and his instructions are to take all the arms and accoutrements back to Columbia with him. He called upon General Huguenin, commanding the brigade, and issued his orders. There was no conflict. The commanding general issued an order directing each commander in the brigade to surrender to the assistant adjutant general all the property of the state in their possession, and this order, it is expected, will be obeyed by all the commanders. Those who think, however, that the Fourth brigade will be left unmolested will find themselves very much mistaken. A good many of them have rifles and cannon which they bought and paid for themselves. There seems to be no fear that the companies of the Fourth brigade will disband. From 1871 to 1876 they existed as rifle clubs. The latter will probably be reorganized.

The Weather.

For North Carolina: Local showers warmer. Local forecast for Raleigh and vicinity: On Tuesday: Rain, warmer. Local data 24 hours ending 8 a m today: Maximum temperature 73; Minimum temperature 44; rainfall 0.00

Synopsis: The pressure of high is over the middle and New England states and low over the Mississippi valley. The weather is generally cloudy, with light rain at many places. The high pressure over New England has caused northerly winds and cooler weather in the northern and middle Atlantic states. The storm central over Missouri is causing rain and warmer weather in the central part of the country. Another "high" accompanied by clearing, cooler weather is following in the northwest.

Confirmation Services

Yesterday morning there was so large a congregation at Christ church that seats had to be placed in the aisles. Bishop Cheshire preached, his text being "I know that my Redeemer liveth." He confirmed a class of 20 persons. The music was exceptionally fine. In the afternoon at 5 Bishop Cheshire held services at the chapel of St. Mary's school, and confirmed five young ladies. He preached no sermon but made an excellent address to the candidates for confirmation.

Superior Court.

There will be a meeting of the calendar committee tomorrow, (Tuesday) morning at 11 o'clock, for the purpose of setting a calendar for the April term, 1894, of the superior court. Members of the bar are requested to attend promptly. S F MORDECAI, T & ARGO, Committee.

The cotton compress started up again today.

Eggs are now cheaper than in many years, ten cents a dozen being the present price.

Two persons became members of Edenton street church last evening by a profession of faith.

Messrs K W Weathers and James Anderson, of Portsmouth, spent yesterday here.

Mr Hilliard Bell was stricken with paralysis this afternoon while at work. One side is affected.

In the Presbyterian church yesterday prayers were offered in gratitude for the recovery of Hon E G Reade from his long illness.

The revival at the Fayetteville street Baptist church may close this evening. Last evening six persons became members of this church; all on profession of faith.

Figs will be ripe May 1 at Newbern, and the shipment of strawberries has begun. There will be hardly one third of a crop, thanks to the cold snap.

The use of what is known as water gas has been stopped here, after a short trial, and gas is now made from coal, as formerly. The so called water gas made a great deal of smoke and was complained of.

The first weekly weather crop bulletin of 1894 was issued today by the state. It says vegetation at one time so forward, is now behind the season, and that warm showers are greatly needed. The weather is not favorable for the crops.

The correspondent at Washington of the Charlotte Observer says: Senator Voorhees, denies we understand, that Senator Vance wrote to him that the finance committee could go ahead with the Simmons matter and need not wait for his attendance. Senator Jones tells me that the committee has received no such communication from Senator Vance.

Early yesterday morning (at 2:15 o'clock, to be exact) there was a fire very near the soldiers' home, a frame house owned by Mr George Ball, and occupied by negroes, was destroyed. It was immediately west of the home, and the latter was in considerable danger.
