Notes.

The "Southern" of Knoxville is the oldest and by far the largest general association in the south, and is also the largest association in America.

It has 500 branches in 18 states. It is, in effect, a league of 500 local associations. All these associations must fall before the association can fall therefore, failure is impossible.

The "Southern" has turned over from the expense fund to the loan fund \$172,000 in five years. No other association has even approximated such a record.

The actual running expense per share is less than in any other association, and on cash handled much less than the majority of the large financial institutions of the country.

The return of an unapportioned reserve, providing against losses and insuring the perfect equality of all stockholders, will be appreciated for the interests of the many cannot be sacrificed for the benefit of a few.

The by-laws forbid the sale, or the use as collateral security, of any of the securities belonging to the association, and require all securities to be kept on deposit in the name of the association with the State Treasurer or approved trust companies.

CITY IN BRIEF.

Items Picked Up and Boiled Down.

Frost is predicted tomorrow morning.

Solicitor Pou arrived this afternoon.

Vegetables are in very poor supply in market.

The continued cold weather greatly depresses the truck growers.

Several carpenters and painters have come here from Durham to live.

Irish potatoes, which were cut down by the freeze, are again coming up.

Rolesville granite is being used in the construction of the Pullen building.

A new lodge of Knights of Pythias has just been organized at Wilmington.

The shrubbery is found to have been worse hurt by the freeze than was expected.

Rev F J Murdoch, of Salisbury, is to preach the baccalaureate sermon at the State University.

The shipment of peas from the Newbern section has begun. There will be only a fifth of the crop expected.

Among the callers at the executive office today were Mr Edmond Jones, of Lenoir, and Mr Charles A Moore, of Asheville.

Evangelist Moody today closed his work in Richmond. He was there two weeks and the audiences averaged over 6,000.

In a superb publication illustrating the finest scenery in the United States 150 views of scenery in all parts of this state will appear.

A special examination of five applicants for license as teachers of the public schools is now being conducted by the county superintendent of public instruction.

Junius Daniel camp, C. V., is making plans to give a barbecue here May 21. It is part of the plan to invite all the veterans and State Guard companies in this section.

The rifle range in the armory of the Governor's Guard has been completed and is said to be a good one. It is used for firing with reduced charges and is the only one in the State.

Very little money has been collected in North Carolina for the Jefferson Davis monument at Richmond. It is intimated that this state will be behind all others in this matter.

The examination of the fourteen applicants for license as pharmacists ended today. Six of the applicants are colored graduates of Shaw university.

The new building at the insane asylum cannot be occupied this year, which is certainly unfortunate. It will require \$4,000 to equip and furnish it and this money is not provided.

There was no frost in this section this morning. The sky was clouded until daylight and there was considerable wind. In the western part of the state there was frost yesterday morning.

In today's Charlotte Observer its Washington correspondent says: "Prof J A Holmes' visit is presumed to relate to the proposed transfer of the geological survey to the agricultural department."

The railway commission today heard a complaint made by Mr Howard, of Tarboro, against the Atlantic Coast Line for refusal to receive freight tendered for shipment, the railway alleging that it was not shipped by the proper lines.

Last evening at the home of the bride's father, Mr R C Redford, Mr Fletcher H Phillips and Miss Eula H Redford were married, Rev J N Cole performing the ceremony. The present were many and handsome. The wedding was attended by many friends of the contracting parties.

Collector Simmons has reports from deputy collector Moffitt of the capture of two illicit distilleries near Julian, Randolph county; one of 100 gallons owned by the Staley brothers, notorious moonshiners, and the other of 65 gallons by Elwood Henderson. No arrests were made.

The german given by the members of the late L'Allegro club at the Park hotel last evening was a handsome affair. The dancing was on the fifth floor. A collation was served in the dining room on the first floor, and there were some little "talks" by gentlemen present, the speakers being Messrs George W Thompson, Jr, Guion Dewey, J O Litchford and John Stronach.

A Just Complaint.

There is just complaint by many citizens living southeast of the city and near Walnut creek of the bad drainage along that stream. Two sewers empty into it. At times when the pumps at the waterworks are running the stream is full; then there is quite a space of time when there is almost no water, and the ill-smelling mud is acted upon by the sun, producing any amount of malaria. The stream from the railway bridge to what used to be known as Estman's pond has very little fall. The result is a regular epidemic of chills and fever. This was not long ago found to prevail in no less than sixteen families. Mr George Shellem has been a great sufferer on this account. If the old dam at Estman's were torn away and the stone ledge upon which it rests were blown up with dynamite the creek would be given a good fall and much of the trouble would be avoided. THE VISITOR calls the attention of the county commissioners to this matter. At their February meeting they were asked to take steps to abate the nuisance. The health of all the people for several miles along the creek is menaced. Some good land is also overflowed.

The Weather.

Local forecast for Raleigh and vicinity: Friday morning frost, fair. Synopsis of the weather. The storm in the east lingers off the Middle Atlantic coast, where the pressure is still 29.90 and the weather is cloudy, with northealy winds.

The center of the high area and clearing condition is over the lake region and will move eastward. Frost is almost sure to occur in North Carolina Friday morning. In the west a new storm of considerable intensity has moved southeast to northern Texas, with a pressure of 29.10 inches. It is causing southeast winds and warmer weather west of the Mississippi. This storm will probably move northwestward over the Ohio valley and cause warmer weather in North Carolina on Saturday or Sunday.

Literary Notes.

Those of the sixty million people in this country who are interested in theatrical matters will welcome a delightful article on Mary Anderson deNavarro, by Hon. Ben H Bidgely, which is to appear in the May number of The Southern Magazine. There appears in this article the first true narration of the private life and ambitions of this great woman, and the true story of the courtship, retirement from the stage and marriage, and a charming picture of her present home life. The paper is to be illustrated with a great number of unpublished portraits of the actress, those taken as a school girl and at the time of her debut, together with the most recent portraits of herself and husband taken in London.
