

A Card.

You are respectfully warned not to take the statements of any B & L Association that promises better terms than the Southern—for such statements can't be substantiated. Beware of those associations that promise so much and have nothing to show for the same. We have facts right here in Raleigh, which prove all that we claim. No B & L Association whose charge is 60c per share can mature its stock under seven years. The Southern is the oldest association in the south and the largest in America, and from its experience in its five and a half years of business confidently expects to mature in seven years.

The Southern's expenses are less per share than in any other association, and no other association has better facilities for maturing stock—nor can any other association mature its stock under seven years time at 60c per share. We sell paid-up stock at \$50 per share of \$100 and pay you 10 per cent interest on same from time you take stock until its maturity after you have been in 7 years. You can withdraw this paid-up stock (same as getting it out of bank) in six months if you want to and get 6 per cent interest.

We challenge any association to show in print or by "gift of gab" a better or as safe an investment. Recollect the Southern has \$3,508,600 in stocks, bonds and mortgages deposited as security for its stockholders that can't be used for any other purpose. I confidently believe and know that any investment in the Southern is as secure and safe as in any bank in Raleigh or elsewhere.

Sales of paid up stock, \$679,343.

Apportionment of profits on same \$164,681 20 to January 1, 1894.

Sale of installment stock, \$1,877,964.

Apportionment of profits for same \$590,472 to January 1, 1894.

Assets January 1, 1894, \$4,201,330 53.

Loans in North Carolina to January 1, 1894, \$88,500.

Loans in Raleigh to date, \$7,000.

If you want a safe, sure and secure investment no other excels the Southern of Knoxville.

Cost of 10 shares in 7 years, \$508—

at end of 7 years you get \$1,000. Your net profit, \$492.

Call on C C McDonald, secretary and treasurer Raleigh Branch, for information.

P S—I forgot to mention one very important matter to you. Suppose you have 10 shares of stock in any of the following companies and have paid in 12 monthly payments of \$6 each on same and want to withdraw at end of year. Illustration:

Am't paid in 12 monthly payments at \$6, \$72 00

What do you get back?

Am't p'd into loan fund, \$60 00

Interest for average time, 1 30 61 80

You only lose first year, \$10 20

How is it in the Southern?

Am't paid in 12 monthly payments at \$6, \$72 00

What do you get back?

Am't paid in loan fund, \$60 00

Am't paid in to Ex. fund, 12 00

Interest for average time, 1 44 73 44

More than you paid in \$1.44

And only eleven and sixty-four one hundredth dollars more than you get in these other associations.

Suppose we figure on 2 years on these other associations:

Am't paid in 24 monthly payments at \$6, \$144.00

What do you get back?

Am't pd. in to loan fund \$120.00

Int for average time 7 20 127 20

You lose in 2 years \$16.80

How is it in the Southern?

Am't paid in 24 monthly payments at \$6, \$144.00

What do you get back?

Am't pd. into loan fund \$120.00

Am't paid in to Ex. fund 34.00

Int't at 10 per cent for average time 14.40 153.40

You get back more than paid in \$14.40

Which is just thirty-one dollars and twenty cents more than you get in these other associations in two years. Is this not worth saving? What do you go into Building and Loan Associations for? Is it not for profit?

What is the difference in the Southern of Knoxville and these other associations? Simply this:

We pay back in case of withdrawal ALL that is paid in the LOAN and EXPENSE fund with interest and they ONLY pay back what is paid into LOAN FUND. Example: Each share is 60c.

per month—50c goes into loan fund and 10c into expense fund. We pay back the 60c and they only pay back 50 cents on 10 shares. My friend, you save \$1 per month in case of withdrawing by being in the old reliable Southern of Knoxville. For fair and square dealing take stock in the Southern. Call and see me and if I can't substantiate all that I have said in this card I will forfeit 10 shares to any one who can convince me that I am in error. I know what I am "giving you." In the Southern no loan—no pay. You don't even have to take stock before you get the loan. You can pay for your stock out of money loaned in case of a loan. Don't be roped in with promises of a loan and get left. You can't get your money back. I have misplaced my list of associations that only pay back what has been paid into loan fund, but have committed them to memory and will give them to you for what they are worth

—on application. I will venture this statement, that nine people out of ten who take stock in those associations which only pay back what goes into loan fund don't know their contract. I have run across only one, and I have seen several of them, who did not think he would get back all of his monthly payments with interest. You never were more sadly mistaken in your life, my friend, and if you live long enough will soon be a wiser man. Where you pay in \$3 on 5 shares you get back \$2.50, and where you pay in \$6 you get back \$5. In the Southern when you pay in \$3 you get it all back and when you pay in \$6 you get it all back. I suppose that the Raleigh public is sufficiently educated on B & L to know that the admission fee is not returned in any case, but after paying admission once it is good in the Southern for all time to come.

The flag carried by the Sixth regiment during the war is here and will be presented to the Antiquarian society by Col S McD Tate. The flag is richly embroidered on dark blue silk. On one side is the inscription, "May 30, 1775. May 20, 1861. North Carolina. Deeds, not words," and a single white star. On the other side is the coat of arms of the State and the inscription, "Sixth Regiment Infantry, State Troops." This flag was planted higher than any other at Gettysburg; at the crest, amid the guns of Rickett's battery. Colonel Tate placed it there with his own hands. He had before the charge dismounted, and marching in front took the colors. Around these forty two men were shot down, yet Col Tate was not touched. At 9 o'clock that night he brought away the flag.

Startling Disclosures Made by Senators.

Washington, May 16—Senator Hunton, of Virginia, and senator Kyle, of South Dakota, (the latter through his clerk), this morning admitted the truth of the published statement that they have been approached and offered money for their votes against the tariff bill, although both gentlemen declined to name the man who made the offer.

The story was published in full in a New York paper this morning and, with the exception of matters of detail, is substantially correct.

Senator Hunton said: The offer was not made to me personally, but through my son, the sum to be paid being fixed at \$25,000 by the man who attempted to bribe. No, I cannot give the man who sought to get my vote.

Senator Kyle is out of the city, but Mr Hunton said he knew the same man had approached him and this was corroborated by Mr MacFarlane, Mr Kyle's clerk.

A pertinent query in connection with the case is, who is the man? The principals in the bribing episode decline absolutely to say anything about the man's identity. A prominent democratic senator, however, told a reporter that he knew the man well and named C W Buitts, ex-member of congress from South Carolina during the period of reconstruction. Senator Lodge asks the senate to investigate.

Fusion in Kansas.

Wapello, Kan., May 16.—It is not believed that a fusion can be effected between the democrats and populists of Kansas on a state ticket, but it is certain that a strong combination will be made on congressmen and members of the legislature.

The populist leaders are willing to concede the democrats two of the eight candidates for congress, and the United States senators, if the democrats will support the populist state ticket. These negotiations are now pending and the combination may be made.

The U S weather report up to May 15th says the week was warmer than usual in all districts east of the Rocky mountains. In the states east of the Mississippi the average temperature was from 3° to 6° per day above the normal, while in the northwest the excess ranged from 6° to 12° per day. The temperature fell to the freezing point from lake Superior westward to eastern Washington and southward to Colorado, and frosts occurred in the states of the upper Mississippi valley. The southern portions of the cotton region were favored during last week with more than the usual amount of rain. Rains in North Carolina were not sufficient to relieve the drought conditions. In the western states the wheat and corn crops were well advanced, with good stands.

A Boy's Terrible Fall.

Niagara Falls, May 16.—An accident occurred at the bank of the river here at noon. Two boys, Fred Ellis fourteen years, and another boy named Cole, were playing near what is known as Hubbard's Point, about opposite the mill districts on the American side. Young Ellis was on the edge of the bank, leaning over—looking for a new path that leads down to the water's edge. To support himself he placed his weight on the limb of a small tree that projected out over the dizzy height. While in this position the limb of the tree broke, precipitating the lad headlong down the slope for a distance of about sixty feet. He struck on a rock, crushing his skull into a jelly. The body rolled down the slope fully a hundred feet before it caught. Death was instantaneous. The remains were hauled to the top of the bank with ropes.
