The committee on finance reported satisfactory progress in securing contributions from citizens for the expenses and was continued. Messrs W S Primrose and A B Stronach were appointed an auditing committee, with Col Tate as treasurer of the committee. Capt Alf Williams, of the Governor's Guard, and his officers, were appointed a committee of reception for the military. Mr A M McPheeters reported that an office would be opened in the railroad depot, where persons upon arrival could be at once located in convenient boarding houses. Capt Ashe was requested to confer with the ladies of the Monumental association in regard to the proposed ritual in laying the corner stone. Mr F H Busbee was added to the committee of reception. The celebration is now thoroughly arranged. The committee meets again tomorrow at 4:30 p m.

The public schools, five in number, in this township closed their term today. On account of the sickness of several of the teachers there were no public exercises. It was at first proposed to have these on quite an extensive scale. The written examination of the pupils have been in progress three days.

Berwanger Bros say they are having quite a rush for the "Mother's Friend Waists," just the thing for children.

A Fraud Unearthed.

The agricultural experiment station has unearthed another fraud. The one last month was bran adulterated with cockle, cheat and other weed seed; now it is a seed fraud. "The Junaluska seed company, Junaluska, N C," has been selling worthless cabbage and other seed through agents. The seed are entirely without value and contain many weed seed. These are the rascals who sold last year, under the name of "Reems Creek seed company." There are no postoffices by these names, and never have been. Persons are warned against such frauds. Buy from reputable business houses, and let traveling seedsmen alone.

A Warning Circular.

Secretary of state Coke, who is also insurance commissioner, is doing a good work in exposing frauds. He has just issued a circular in which he says: "Information has come to me that several insurance companies are doing business in this state without license. The Farmers' and Mechanics' insurance company, of Alexandria, Va, is reported to me as doing business in this state. This company is not licensed in this state, and, if doing business here is doing so in violation of law. Any person soliciting insurance in this state for a company that is not licensed is liable to arrest, and, on conviction, shall pay a fine of \$300, or be imprisoned ninety days, or both, at the discretion of the court. Let every bona fide agent exhibit his license from this office. Let every licensed agent join with all other good people to drive these frauds from the state. Arrest the agents of these swindlers and you will save the thousands of dollars they are robbed of every year."

Two Prisoners Captured.

Late last night deputy sheriff J M Carlton, of House's Creek township, captured in Cedar Fork township, quite near the Durham county line, Robert Fletcher and John Forsyth, two of the ten negroes who broke out of jail Wednesday morning. Deputy sheriff Carlton marched the men here from the place of capture some 17 miles distant, and about 4:15 this morning they were put in jail. They do not have much to say. As they were put back in jail they remarked that just at the same time two days before they left the jail. This shows that it was broad daylight when the ten men so coolly walked out of the jail enclosure. In fact Fletcher and Forsyth said as much. Some of the men when they left crossed Fayetteville street and went southeast. Some went northwest, among the latter being the two recaptured. They say it was an all-night job breaking out of the jail. Charles Fancett, from New Light township, is given credit for planning the escape, but Orange Page was the hardest worker, as was but natural, as his life was at stake. There is no reason for believing the story told by some of the other prisoners, that they did not hear the noise made by those who were breaking out. It is said that the latter used their coats and the cell hammocks in wrapping the powerful steel levers made out of the bedstead which was broken up, and also in so stuffing the spaces between the bars of the cell that there would be as little of a jar or sudden break as possible. Nevertheless the noise was great and if the authorities had never allowed the singing and dancing in the jail the other noises could have been heard plainly.

It is said on the streets that if the authorities had sent mounted men out on the various roads just as soon as the escape was discovered most of the prisoners would have been captured yesterday.

Sheriff Page is making earnest and unremitting efforts to capture all the escaped prisoners.
