It is not contemplated to close the shops at Portsmouth, but simply to reduce the force to a minimum until such NORMAL BALBALGAN Shirts and Dravers. time as we shall feel justisfied in increasing to what it was before the reduction. It is with unfeigned regret that I felt compelled to take the course we have pursued for the last several mouths in reducing forces to the lowest possible number. As to taking the work from Portsmouth to Raleigh. there is nothing in it so far as the two places are concerned. You will readily see that of the two shops it is more to our advantage to have such work as is absolutely necessary for us to do done in the interior as near the middle of our line as we have our shops."
