Miss Agnes Wears Shoes. Now, Miss Agnes, we will sell you the very best make of fine shoes at same price you must pay for inferior shoes. We sell Krippendorf & Dittman's fine shoes; Bering Bros. fine shoes at wholesale prices. You know these to be the best make of shoes. These are from the Durham Supply Co's stock, now at Swindell's Department Store, Raleigh, N. C.

Who Burned the Bridge? Who did that? You did that. We cut the shoe price down. Why did we do that? Because we could not help it; we got in the Durham stock about fifteen thousand dollars in fine shoes and could not sell them fast enough so cut the price. Men's \$6 shoes, \$5 shoes, \$4 shoes—all \$3.85. All shoes reduced to \$3.85, at Swindell's Department Store.

She Still Lives We knew a lady once upon a time who knew a good thing when she saw it. This same lady had a husband and she taught him to know a good thing when he saw it. Now we have made it all uniform. All shoes at six, five and four dollars a pair will be sold at one price—\$3.85 a pair—from now on as long as they last. We mean men's shoes. Banister's \$6 shoes and \$5 shoes, L. M. Reynolds' \$5 shoes and Saller Lewin's \$6 and \$5 shoes—all will now be sold at \$3.85. If you want shoes and don't grasp this opportunity there is something wrong. These are fine shoes we got in the Durham Supply Co's stock, now selling at Swindell's Department Store at \$3.85 per pair.

Jarvis' Views on Senators

The Washington correspondent of the Charlotte Observer says: Senator Jarvis, it is said by a friend, favors the plan of a primary election or nomination of United States senator to be held in November at the time of the state and federal elections, the people voting their choice. It is argued that this is less apt to distract the party than if the choice were expressed at the time of the nomination of members by the legislature. Some persons here think the subject will be considered by the state committee tomorrow, while others think the committee would have no jurisdiction.

This school, this season, is open to women, a new departure, but one which Prof. Cobb thinks will add to the interest. The Charlotte Observer says he expects about a dozen pupils, mostly from the university, as the study counts as university work.

Among today's arrivals at the Yarboro were: W. P. Roberts, Gates county; J. M. Leach, N. C.; John L. King, J. Simpson Schenck, Greensboro; D. C. Parks, Hillsboro; T. W. Mason, N. C.; E. W. A charge of embezzlement is also made and the investigation of this led to the discovery of wife, No. 1, who has been communicated with by letter and telegraph, and who will be there tomorrow. The amount of embezzlement is not definitely known, but the Charlotte Observer says exceeds \$2,000.

On account of the warm weather the hour of meeting of Prof. Smith's writing class has been changed from 10:30 to 9:30 a. m., at Yarboro house.

Died at Richmond.

This afternoon the body of Mr. Rufus Uzzle was brought here from Richmond. He died there last evening at 9 o'clock. His health had for some time been poor and his death was not unexpected.

Mayor's Court.

Four cases came up before mayor Badger this morning. One man drunk and disorderly got thirty days in jail; two others for the same offense were fined \$10 and \$5 respectively, and an unfortunate drunk and down got off with twelve hours in the station house.

The Street Railway.

Mr. J. H. Cutler, the representative of the general electric company and one of the associates of Dr. McAden in the purchase of the street railway, and who may be said to be the "motive power" in the new project for rehabilitating the electric system, writes that he will be in Raleigh the first of next week. He says he hopes to "do a good thing for the stockholders who will join him, and also for Raleigh." It is learned that an extensive lighting plant will be put in. The people want the road. When they get it they must patronize it at all seasons.

The Weather Report.

The distribution of pressure and temperature has changed very little during the past 24 hours. The high area still occupies the entire country east of the Mississippi, with very warm fair weather. The storm center is now over North Dakota. Gales from the west over Huron and North Dakota. Heavy rain occurred in New Orleans, probably on Monday.

Monday: Fair weather. Tuesday: Fair weather. Wednesday: fair weather. Thursday: fair weather. Friday: fair weather. Saturday: fair weather. Sunday: fair weather.

Local temperature 8 a. m. today: 75; minimum temperature 77; rainfall 0.

Medical Notes.

The building of the car wheel factory of the North Carolina car company's shops, is rapidly nearing completion. The tower has yet to be built and the blowers put in before it will be ready for machinery. The foundry will manufacture the wheels used on the company's cars. This is an evidence of the prosperity of the company and will enable it to make cars almost entirely its own production. It is not definitely certain when the foundry will commence operations.

A Visitor reporter called at the Raleigh cotton mills this morning and had an interesting chat with superintendent J. S. Wynne. The mill, although it has felt the hard times in the depression of prices, is running smoothly and is ahead on orders. This is one of the few cotton mills which has been able to run continuously for the last twelve months.

A Cause for Complaint.

Correspondence of THE VISITOR.

The police regulations require citizens to clean up their back yards under a penalty. Sometimes there are found from a gallon to a cart load of vegetables and other perishable matter, which is dumped into the streets in front of the house. From thence it is taken by the city wagons and deposited at various points about the city, where it is left to decay. One of these places of deposit is in the bottom just beyond the intersection of East Jones and Swain streets, within about a hundred yards of a number of residences, where there is now and has been for a great while much sickness. Within the past two days several loads have been dumped into this bottom at its nearest point. In addition to the above, now and then dead dogs and chickens are found. Let this matter be investigated at once and if it is not conducive to the health of this neighborhood have it discontinued as a nuisance.

The directors of the Melrose cotton mills made a personal canvass of the city today and secured a great many stock subscriptions.

From trustees of Trinity college it is learned that Rev. Dr. Atkins, of Asheville, will be its new president. A marble tablet has just been placed in Memorial hall at the university in memory of James Kennan, of Duplin, who was a colonel in the revolutionary war and a member of the first board of trustees of the university. He died in 1810. He was very prominent in the early history of the state.

A capital story is told on a drummer who was here last Sunday. When he was here last summer he used to go out to Pullen park on the street cars and enjoy the delightful ride and also the visit to the park. Sunday he waited in front of the Yarboro for a car, but did not see one. Finally he asked a servant, "When did the last car pass?" He nearly fell down when the reply came "The 4th of last November."

The democratic state committee meets this evening at 8 o'clock. The attendance will be large. Chairman Simmons, it is understood, will not tender his resignation until the state convention meets. Mr. Simmons says that the outlook for and status of his party are much better than at this date in 1892, and that there is daily improvement.

Friday evening Capt. W. B. Kendrick will deliver here his lecture on the "Ups and Downs of Wife Hunting." It will be for the benefit of the Governor's Guard. The newspapers have many nice things to say of Capt. Kendrick's lecture. The Wilmington Messenger says: "The different phases of life as his word pictures present them, are true to nature. He deserves encouragement for his efforts to present something new and a literary and humorous entertainment. We all enjoyed his lecture, and feel amply repaid for the pleasant and cultured entertainment."

Senator Vance's Remains.

A special from Asheville to the Charlotte Observer says: "All that is mortal of Zeb Vance, the body that on the 18th of April was buried in Riverside cemetery, overlooking the beautiful French Broad river about which he wrote poetic words in life, has become the object of a most unfortunate wrangle in the immediate family of the beloved dead. Last Wednesday, seven weeks after the interment, it will be remembered, Mrs. Vance came to Asheville and very quietly had the remains of the senator removed from the grave in the old Vance lot in Riverside cemetery to the spot that she had chosen and purchased for the purpose. This is the highest and most beautiful part of the cemetery, and it was planned that the monument to Vance's memory should be erected over this spot. But the body was not destined to remain in its new grave long. Chas. N. Vance learned of the removal and came here Saturday evening. Some time Saturday night or before day Sunday morning the remains were again disinterred and placed in the family plot where they were first buried, beside the grave of his first wife, young Vance's mother, where, it is understood, Charlie Vance is determined they shall remain if there be any possible way of enforcing his wishes. The grave has been guarded by a special officer since Sunday morning. It is said he agreed to the removal of his father's body provided Mrs. Vance would allow the reinterment of the senator's first wife by his side, but this Mrs. Vance would not do.

"This wrangle as to the permanent resting place of the beloved dead is deplored by the people here, and it is feared that it will have an unfavorable effect upon the movement of organizing monument associations throughout the state."

There are today reports of injunction proceedings. In a similar case, decided by the courts, the son won, against the step mother.
