Oh! That Costume of Hers

Show me a lady who does not enjoy admiration, and I will see a hopeless freak. Hence ladies have excellent taste, they study the art of dress, and they have it now to a scientific nicety. So the merchant who is a success has to get his selections down to scientific nicety, or his selections will lie on his shelves till the moths walk off with them. Now, ladies, we want to state this: In Swindell's department store, the dress goods sales have not only doubled and tripled, but ten-fold is the rate of increase in two years. Where we used to sell one dress, now we are selling ten dresses and trimmings all complete. Now let me ask all who read this: If this statement is true, what does it mean?
Get collars, cuffs, scarfs and ties from Swindell's department store.

The Love of a Bonnet

Every lady is especially particular to get style in a bonnet or hat. Nothing so enhances the beauty of any lady as a pretty, catchy hat—one that is just the complete thing. At the same time the ladies of this age have an eye to price as well as style. Hence it is that the millinery department at Swindell's department store is so thoroughly crowded all the time. You get style and quality and the price is right. Our prices are popular. Then our milliners take great pride and pleasure in assisting an undecided customer in getting just what will become her. Our milliner can improve an ugly woman, much less you.
Try Swindell's department store for a dress and trimmings.

's Your Footwear in Style?

Have you tried a pair of tan shoes? If you haven't then you are standing in your own light. It is the right idea now for any man to wear tan shoes. They are worn, not as a fad, but because they have been tried and they suit—all who have given them a trial. Those who haven't tried tan shoes, should; then they will be a friend to this kind of shoe leather. It's men we are talking to now. We would like to show any gentlemen our tan bluchers at \$9.50. If this quality doesn't suit, then we can please along as high up as \$6.00.

OBSERVATIONS.

The farmers say a dry June is beneficial.

The railway commission will be in session next week.

Considerable hail fell last Wednesday afternoon between here and Goldsboro.

The "Vestibule" is the queer name of a new populist newspaper at Concord.

The populists of Wake will hold a convention here July 4, and will also celebrate the day.

A large excursion train passed here on the R. & R. railway last evening on its return from the coast.

The Visitor is informed that a white woman living at No. 212 West Lane street is in great distress and needs food. Kind-hearted people will find this a worthy case. The woman is old and unable to work.

It is suggested by an expert that if the city's steam road roller is run late at night, so as not to frighten horses, the pavement on Fayetteville street can be made smooth. It is now very rough. The roller ought to be thus used after a rain.

The Concord Standard says the reception given by the "New South club" there last Thursday evening was an elegant affair, well worthy of the club and the town, and that all who attended were delighted. Dugli furnished the refreshments and his specially prepared ices were pronounced superb.

The State Press Association.

Keeping Up With His Daughter.

"Henry," he said, confidentially, to the book-store keeper, "what's the biggest dictionary published?"
The merchant named the standard publications at that line.
"Well, gimme the biggest: gimme the one that has the largest words in it, and the most of 'em."
"Shall I send it to your house?"
"To the house? Great Scott! No! That'd spoil everything. Send it to my office. You see my daughter is getting ready for graduation. She's goin' to rear an essay, an' mother has got me a copy of it. I'm goin' right to work an' when the time comes I'll surprise the girl by understandin' every word of it!"

A fleet of Baltimore schooners have come down to North Carolina to await the melon crop. The melons are expecting fair results this season, as the crop looks well.

They will be a repetition of the races at Capt. B. P. Williamson's track June 27th. These trials of speed and the growing interest in the breeding of fine horses ought to receive hearty encouragement.

The improvement made at Nash square this week is great, but it is to be regretted that the city was so slow in making it. Scarcity of funds is assigned as the cause. A private citizen last year offered to fix the square and plant it in grass for a very small sum.

The masons of this city have made preliminary arrangements for running an excursion to Wilmington, late next month, in which the blue lodges, the chapter and the commandery will participate. It is the purpose to have many country lodges represented.

July 12th the management of the Raleigh cotton mills will shut down the mills, give each operative a ticket and send all on the R. & G. railway excursion to Littleton. It is a graceful act and the management will reap an ample return in the quality of work done.

Supervisor McMackin has made the Poole bridge road a fine thoroughfare and is now rapidly transforming the rock quarry road. Stone for these roads is given free of charge by the owner of the quarry. Mr. McMackin wins praise on all sides for his road building. The cost of grading and macadamizing a mile of road in this township, when the stone is given free of cost, is between \$1,600 and \$1,800. Three other townships, St. Mary's, St. Matthews and Swift Creek, will macadamize their roads.

Deputy revenue collector W. C. Troy reports to collector Simmons that night before last at Liberty, Randolph county, he placed in a warehouse eight barrels of whiskey which he had seized from J. W. Stout. The latter was drunk and threatened to shoot. He did fire his pistol in the air several times. But Deputy Troy is not a man to be intimidated. He later discovered that a party of men intended to enter the town and raid the warehouse and take away the whiskey. He mounted guard at the place and when some men came in they found they could not do anything. Yesterday deputy Troy shipped the whiskey to Fayetteville for safe keeping.

A BIG ELECTRIC LIGHT.

It Can be Seen Plainly One Hundred Miles.

Sailors coming into New York will have a surprise when they get off Sandy Hook. Those who visited the great Chicago fair well remember the monster searchlight which was placed upon the roof of the manufacturers' building and which threw its brilliant shafts into every corner of the grounds nightly. In spite of the fact that it had to penetrate the murky gloom of the soft coal atmosphere at Chicago, its gleam was occasionally to be seen at Milwaukee, eighty-five miles away. This miniature sun has been brought out to the seacoast and erected upon the proving grounds of Sandy Hook. It will be put in operation some day next week, and it is expected that it can be distinctly seen on clear nights more than 100 miles out at sea. It can be seen nearly as far on land, and its flash on the clouds may easily be observable in New York. The claim is made that newspaper print may be read by its light ten miles away. Ships may be made out when more than twenty miles distant, and men of war distinguished eight miles away. The light is especially adapted for coast defense purposes and can be placed so far inland that no enemy's shot could reach it, while it would be of great service in detecting the approach of hostile vessels. The carbons have a diameter of an inch and a half, and the intensifying power of the glass reflector is 4,250. The rays of the electric arc have a candle power of 45,000, and with the aid of the reflector have 194,000,000 candle power. A tower 120 feet high has been built for the searchlight and the power is furnished by a twenty horse power marine engine and dynamo.

Y. M. C. A.

Mr. T. C. Williams, Jr., will lead the meeting Sunday afternoon in the Y. M. C. A. parlor at 4 o'clock. All men in the city are cordially invited to come and enjoy this service. Prof. J. C. Smith will conduct the singing. The song service is one of the attractive features of these services and will last twenty minutes. Come and bring a friend. Ice water and fans.

It was the most fetching notion, springing from an Odd Fellows' brain. When he said "A trip to old ocean will fill the 'Triple Link' train."
