BUT SUFFERED ONCE.

One of the Most Thankful and Sincere Letters Ever Written by Any Man.

In the famous fight off Cherbourg the Alabama fired a shell which entered the rudder-post of the Kearsage—and stuck there.

If that shell had exploded, the engagement would have had a different ending.

That was Providence in the shape of a bad fate.

"In our case," writes a clergyman who possesses the rare art of putting things "in our case Providence appeared in the shape of a pamphlet tucked under a string."

"It was in this strange way," he continues, "that we first learned of Paskola, that has done such wonders for my wife and myself. We have taken only \$4.50 worth—less than the price of one visit from our physician—yet it has accomplished what no doctor's prescriptions or patent medicines have ever done.

"For twenty-five years I have suffered untold miseries from a disordered stomach. For years I have had to abstain from meats; but after only one day's use of Paskola I have eaten meat, or any other food my appetite craved, with no ill results.

"In regard to my wife I hardly know how to write. It certainly appears like a miracle. Months passed with her most miserably. She had no appetite. So reduced in flesh and vitality was she that we were looking for nothing short of a speedy death.

"But Providence intervened in the shape of a little pamphlet tucked under the string of a package brought from a neighboring town.

"I tossed it on the table with the remark, 'Here, wife, is something to cure your ills and give you an appetite.'

"She read it and said to me, 'I have faith to believe if I had that Paskola it would cure me.'

"The next mail carried an order for a bottle. The second day brought the bottle, and she took the first dose. That was four weeks ago. Today she ate a hearty meal of anything she craved—something she had not done for months.

"I regret we did not weigh ourselves before we began to take Paskola; but the truth is I had no great faith in it—so many things had failed. But you have our lasting gratitude.

"I write you this not to obtain an apply free, but because I have the good of my fellow men at heart.

"I have already induced a few people to give your Paskola a trial. When they shall have done so I will gladly notify you of the results.

"Hoping under God that what I have thus hastily written may benefit others, I remain yours truly,

REV. A. P. BEEBE.

Worth Centre, N.Y., April 12th, 1894.
We congratulate Mr. Beebe and his good wife upon the wonders that followed their use of Paskola. To them that little book tucked under a string was a Providence indeed.

Paskola is doing a similar wonder all over the land. And people tell us of it in like grateful and enthusiastic words.

What is Paskola? It is artificially digested starch combined with certain fruit principles which aid the digestion of other foods—as Mr. Beebe has shown. Mark! It is a food, not a lough. It stimulates, strengthens, revives and fattens the weak and run-down body, even though the torpid stomach can give it no help. Paskola is concentrated nourishment, digested by art, in advance. Taken into the system it goes straight to its destination. Not an hour is lost. It is new, its principle is new, it is fundamental, scientific, successful. Dyspeptics, consumptives, all thin, pale, wasted and helpless people will be rescued by it. Throw physic to the dogs—try Paskola. And send to the Pre-digested Food Co., Reade St., New York, for a copy of that pamphlet that Mr. Beebe found tucked under the string. For sale by James I. Johnson, druggist, Raleigh.
