HINTS TO BUSINESS MEN!

Good advertising consists in the selection of a few strong, quick sell specialties, to stand as the representatives of your stock in price, pattern and quality. No tradesman need lack for a specialty. Let specialties sell staples always and try to take rank among your competitors as one who is the quickest to recognize a good thing and the first to sell it.

Invite patrons to come and see you. The great advertisers of the country never cease reminding the people of their names, location and nature of business. Advertising is an investment and newspaper advertising colnmns are a boon to man. They help him out of his troubles and into the smiles of prosperity. The Pennsylva-nia railroad advertises exclusively in the newspapers. There is not a great business that has been built in the past twenty years without the aid of newspapers.

This a, v is too bustling and competition is too great for the merchant to allow himself any longer the luxury of waiting supinely behind his counter for trade. He must show in advance of the purchase just what he has to sell and how he intends to sell it, and a persistent publication of his wares is the means by which such showing can be made.

Frank Siddall, the Philadelphia soap man, says: "I have confined my advertising entirely to newspapers. The man who does not read a newspaper does not use soap."

The Masons celebrated St. John's day at Oxford today at the meeting of the grand lodge.

The doctors of Paris, Ark., are busy night and day. A disesse is raging with terrible fury about six or eight miles west of the town, and from its severity doctors are inclined to call it cholera. One physician at Paris reports fifty-seven cases. Several deaths have already occurred.

The question is asked what is the relation between extreme hot weather Monday was the hottest and most oppressive 18th of June ever known there, and the Tribone says a wave of suicide swept over the city. It gave a list of fifteen or twenty suicides.

Denial has been made of the reliability of the statement of the Washington Post about an anarchist plot to blow up various public buildings in Washington, but that paper-a very reliable one-persists that its story is "a fabric of facts," and ridicales the authorities for their present

It is believed in Hong Kong that the pestilence raging there is the same disease that ravaged the whole world about the middle of the fourteenth century under the name of the "Black Death," and which, under the name of the "Plague," scourged Europe so fearfully again in the year 1665. It was the most fearful scourge to which humanity has ever been subjected.

It is possible that the senate sugar trust investigating committee will have no more witnesses before it, and that the final report of the committee will be made next week. The report, however, will be withheld for the present, in order that the committee may be in position to examine other witnesses in case any should be suggested. The committee has had before it all the persons whose names have been suggested, including the authors of the newspaper charges, all the United States senators not absent from the city, secretary Carlisle, the principal officers of the sugar trust and others interested in refined sugar, the brokers through whom it was charged that senators had speculated in sugar stock during the pendency of the present tariff bill, two members of the house of representatives whose names have been mentioned in connection with sugar legislation and speculation, and the man who was reported to have heard the conversation at the Arlington hotel between senators and members of the trust.

To the northern investor the field of profitable investment has been greatly narrowed during the past year, the east or west no longer affording the profit or security of former years. The south is now, for this reason, being naturally turned to as the natural field for the investment of northern capital, the lack of information being about the only obstacle in the way. To furnish this is one of the objects for which the convention of business mon was held in New York city yesterday. Every city of any consequence in the south was represented and much good will result.

It is reported that a gigantic consolidation of railroad interests in the south is contemplated. The new company, it is stated, will comprise the Richmond and Danville, East Tennessee, Virginia and Georgia, and Cincinnati Southern systems. The Central of Georgia is already practically under the control of the newly organized Richmond and Danville system and the Georgia and Atlanta and West Point road, while seemingly under an independent management, are really controlled through the Georgia Central and Louisville and Nashville road. This will leave but three roads of the ten entering Atlanta outside of the Southern railway company. The time fixed for the consolidation is shortly before October 1.

A DEFICIT OF \$78,000,000

Government Expenditures Have Exceeded Its Receipts by This Amount.

The report of receipts and expenditures of the government will be made shortly. So far this month customs receipts have been \$5,500,000, indicating a total for the month from this source of \$9,000,000; internal revenue Office of receipts, \$8,000,000, indicating a total of \$12,000,000; miscellaneous receipts, \$2,000,000, indicating a total of \$3,-000,000, and making the aggregate government receipts for the fiscal year \$294,900,000. The expenditurees so far this month have been \$9,500,000, making the aggregate for the year to June (30, the next ten days are estimated,) \$372,000,000, or an excess for the fisical year of \$78,000;-

Secretary Carlisle last fall, in an official statement made to congress, stated that the deficit for this year would be \$28,000,000, but the unexpected and unprecedented decline in customs and internal revenue caused him subsequently to revise his estimate of the deficit.

BREAD RIOT IN BUFFALO.

Poles Demand Work or Food of Public Officials.

Late Wednesday afternoon over 1,000 Poles marched to Niagara square, the tissues about the joints and mus-Buffalo, where they divided into two sections, one going to the mayor's office, the other to the poor office. At each place they demanded bread or work at once, "Give us bread or give us work; our children are starving," they cried in Polish. An alleged anarchist attempted to make a speech. but was quickly stopped by the police. It was not until the police charged the mob that it slowly dispersed. Threats of violence were heard on all sides, The men say they will return to their native country if transportation shall

See the World's Fair for 15c. J. C. GREER.

Gentlemen:

COUNTY JUDGE,

Florida ten years ago.

Green Cove Springs, Clay Co.,

Twenty-three years ago I was at-

tacked with inflammatory rheumatism.

I was attended by the most eminent

physicians in the land. I visited the

great Saratoga Springs, N.Y., and the noted Hot Springs of Arkansas, and

many other watering places, and al-

ways consulted with the local physi-

cian for directions; finally came to

About two years ago 1 had a severe

attack of rheumatism, was confined to

my room for twelve weeks and during

the time I was induced to try P. P. P.,

(Prickly Ash, Poke Root and Potas-

sium), knowing that each ingredient was good for impurities of the blood;

after using two small bottles I was re-

lieved; at four different times since I

have had slight attacks and I have

each time taken two small bottles of

P. P. P., and been relieved, and I

consider it the best medicine of its

RHEUMATISM

is emphatically a blood disorder caused

by inability of the kidney to throw off

certain poisons which accumulate in

P. P., very simply, quickly and

surely cures this disease, neutralizing

impurities in the blood. Experience

and science both endorse P. P. P as

the only infallible blood purifier
