developed yesterday at the little settlement of operatives at Caraleigh mills. Day before yesterday Gov. Carr and Dr. R. H. Lewis, secretary to the state board of health, visited the place and spent two hours or more in an examination. THE VISITOR WAS in error in stating that the state board of health had been officially notified of the prevalence of the epidemie there. Gov. Carr says he thinks the sile of the settlement was very badly chosen. Dr. James McKee, county superintendent of health, holds the same view and says he has always held it to be a most unfortunate loca-

tion. It is now learned that ever since the houses have been occupied there has been considerable sickness, but of n ev. when in every house some one is Deputy sheriff C. M. Walters left & k. The type of sickness is bad.

> Dr. McKee was interviewed vesterday regarding the state of affairs at Caraleigh and said he had gone there at the request of Dr. McGee and had examined the houses occupied by the operatives ; that he found these badly ventilated and had made suggestions as to better ventilation, &c. He says he had the drinking water chemically analyzed and it was found to be unusually pure. As soon as "sterilized" bottles arrive a biological examination of the water is to be made. He declares that nothing is being left undone to

ascertain and remedy the cause of the trouble. It is his opinion that the people will have to be removed, in order that the houses may be ventilated, fumigated,&c. As it is now, if a person dies the house cannot be fumigated, as others are sick in it. Today Dr. Me-Kee, in his official capacity, and Dr. Royster as an expert at the instance of the owners of the mills visited the settlement.

Before the county commissioners last week F. H. Busbee, Esq., appeared as counsel for persons living on Waln t creek from Caraleigh to Eatman's pond, down the stream some four miles, and made a most earnest statemont of the bad state of affairs. In

1826, under an order from judge Henrson, a pond which stood where the ater-works pond now stands was trained, the judge declaring it to be not only a menace to the health of the city, but also to the state officials here resident. Mr. Busbee stated to the board that the water-works pond ought to be drained and abandoned; the very flat lands drained, and channel of the creek straightened as far as Eatman's old pond, where a great ledge of stone on which the old dam stood is to be blown away so as to get more fall. He also showed that the now open sewer from the insane asylum must be made a closed sewer. The sewage from the penitentiary

#### TWELVE THOUSAND PEOPLE

#### Were Yesterday at the Guilford Courthouse Battle Ground.

At the celebration at the battleground of Guilford court house yesterday there was by far the greatest

assemblage ever seen there. Vicepresident Stevenson and two daughters, judges shepherd, Simonton and Dick were pressnt, as well as Mr. Hooper, a descendant of the signer of the declaration of independence. Prof. E. A. Alderman, of the state university, delivered the address, a grand effort, which was on the life and services of William Hooper. Vice-president Stevenson made an excellent speech, full of good words for North Carolina, his mother state. Other speakers were Samuel Wittkowsky of Charlotte, judges Simonton, Dick and Shepherd, J. R. Webster, Dr. Kemp P. Battle, Kope Elias, R. H. Battle and David Schenck. Music was by the Salem band, and a salute was fired by Salisbury veterans. Last evening a

severely injured last Tuesday at that place. While attempting to couple two cars his right arm was caught between the bumpers and badly crushed. It is feared that his arm will have to be amputated. He was brought here last night and is now in Rex hospital.

Dr. McKee yesterday referred to the statement in the report of the city sanitary officer that there are only six cases of typhoid fever and said: "There are more cases than are reported. Some of the doctors are as careless about reporting contagious and infections diseases as they are about reporting births. There is an ordinance imposing a fine for such neglect and I intend to have it enforced."

The colored people had an entertainment last night at their Odd Fellows' hall. While the fun was at its height, about midnight, Emanuel Pierce, a floor manager, ordered Geo. Hinton off the floor. Upon his refusal to leave Pierce drew a pistol and shot him in the groin. Pierce has jumped the country and his whereabouts are still unknown. Hinton is not seriously injured.

Yesterday H. H. Capps, who lives near Smithfield, Johnston county, was here with a pair of tame foxes, three months old and as gentle and playful as kittens. They attracted much attention, As they passed in front of Tucker's store they were observed to shrink and tremble. They had seen Messrs. William and James Boylan, the redoubtable for hunters.

The "fourth" was never more quietly observed here. The occasional pop of a fire cracker, the bang of a toy cannon, and the infrequent tooting of horns were the only noises heard. Flags were displayed on the public buildings. There, was no parade. A good many people from the country came in, nearly all as del-egates to the populist county convention. No accidents were reported during the day. A sky rocket fell down a sensation but no damage.

U. S. Civil Service Examination.

A competitive examination, under the rules of the United States civil service commission, of applicants for the grades of clerk and carrier in the classified postal service at the postoffice in the city of Raleigh, will be held at the postoffice building in this city on the 11th day of August, 1894, commencing at 9 o'clock a. m. Applicants for the grade of clerk must be 18 years of age, no maximum limit: for carrier 21 to 40 years of age. Applications for this examination must be made on blanks prescribed by

the United States; civil service commission. Such blanks can be obtained at the postoffice from the undersigned. Applications will not be accepted unless filed before 4 o'clock p. m., Monday, July 23, 1894.

D. T. ADAMS, President Board Examiners.

The civil service commission takes this opportunity of stating that the examinations are open to all reputable citizens who may desire to enter the postal service, without regard to their affiliations. All such citizens, whether democrats or republicans, or neither, are invited to apply. They shall be examined, graded and certified with entire impartiality, and wholly without regard to their political views, or any consideration except their efficiency as shown by the grades they obtain in the examination. For application blanks, full instructions, any information relative to the duties and salaries of the different positions, ap-
