that the woodwork of the S. A. L. is
all to be done at its Portsmouth shops

be brought here and repair shops
located at Monroe. Officials of the
road deny any knowledge of the matter.

Maj. W. H. Malone, of Asheville,

o'clock. On leaving he reached the
front door, turned back, entered the
parlor, trying to reach the sofa, but
fell on the floor and a special to the
Charlotte Observer says he died without
speaking.

A Road Roller Valuable.

Raleigh has a steam road roller,
bought last autumn, but it has never
been used. It is for ornament, prob-
ably, not use. Charlotte has a roller
and uses it to good purpose. City
engineer Butler tells the Observer
that having been frequently ques-
tioned as to the efficiency of the work
done by the O. S. Kelly steam road
roller purchased in March by the city,
he gives comparative estimates of the
cost of grading and macadamizing
Broad street from Tenth to the
Boulevard. The comparison is made
between the old method employed,
with nine inches of stone rolled with
a horse roller, and the present method,
of six inches of stone rolled with the
16-ton roller now employed on the
work. The width of the macadam is
26 feet and it contains 16,975 square
yards of surface and is about 11.8
miles long. The comparison shows a
difference or saving of \$1,277.74 in fa-
vor of the present method employed
with the steam roller, and the total
working time employed on the work
was 14 weeks.

who was found to be Sarah Baskerville,
colored. She was drunk, and was

A VILE DEED.

Strikers Derail a Train in Cal-
ifornia.

SACRAMENTO, July 11.—The first
train to leave Sacramento with U. S.
troops was derailed on a trestle eight
miles from Washington, Yolo county.
The train was bound for San Francis-
co. Regular troops were stationed on
the engine and upon each car. The
engine and four cars went down. There
was no shooting at the train. The
killed are engineer Clarke and privates
Boris, Lobbearde and Clarke. Private
Dagan lost both arms and is likely to
die. All belonged to Bat-
tery L, Fifth artillery. Private Clarke
was drowned. The others were crushed
in the wreck. Another private named
Smith is missing. Two companies of
cavalry thoroughly skirmished the vi-
cinity afterwards but made no captures
and met with no resistance. The train
was brought back to Sacramento. The
disaster was caused by the removal of
the spikes from the rails for one hun-
dred feet. The miscreants had cov-
ered up their work with sand. While
the train was being made up strikers
in the crowds around the yard were
bold in their predictions that the train
would never reach Oakland and it
was greeted with shouts, yells and
curses. The soldiers are savagely
bitter over the outrage and if they are
called upon to meet the strikers in
conflict there will be none of the pa-
tient endurance of abuse that charac-
terizes their conduct elsewhere in deal-
ing with violent mobs. Two strikers
have been captured, who are suspect-
ed of knowing all about the loosened
rails. The strike leaders repudiate the
act.

The Weather Report.

For North Carolina: Friday fair.
Local forecast: Friday fair weather,
slightly warmer. Local data for 24
hours ending 8 a. m. today: Maximum
temperature 87; minimum temperature
64; rainfall 0.

The rain area on the south Atlantic
coast has nearly disappeared, but a
heavy local storm is reported from
Jacksonville, Fla., with 2.08 inches of
rain. The high area is central over
northern Alabama and Georgia, with
clear weather south of the lakes. The
storm is moving east far north of the
lake region.

The Leading Question

Correspondence: Mr. M. F. Barnett
of Baltimore will address the citizens
of Raleigh at the court house at 8:30
this evening—subject: "The Money
Question." He is not a professional
orator, and nothing flowery may be
expected. He is here on business and
some citizens have requested him to
speak for the benefit of business and
professional men and the mechanical
classes. Very little will be said about
political parties, but the speech will
be from the standpoint of a people's
party man. Raleigh is always willing
to give every respectable speaker a
hearing. R.

What did you say? Only \$2.50 for a
three days trip to Norfolk on the big
excursion on July 25th, and they are
giving a new route, too. I want to see
that country and Selma, Rocky Mount
and Pinner's Point and take my girl
down to Virginia Beach. Well,
you can count me in. Sam is going to
see the big ships. JAKE.
