THE N. C. RAILWAY.

The Private Stockholders at Odds with the State.

As was mentioned in the Visitor, there was no quorum at the annual meeting of stockholders of the North Carolina railway at Greensboro Thursday. Out of 10,000 shares of private stock only 470 were represented, and out of 447 private stockholders only 27 were present in person or by proxy.

The charter requires the presence of 100 of the private stockholders. Such a condition of things seems very queer and the Greensboro Record went on a hunt for the cause and this is what it says it learned: "At the last meeting of the legislature Gov. Carr, desiring to have the railroad taxed, made an effort to get the shareholders to surrender the road's exemption from taxation, but the directors, took a hand in the fight and defeated him. It is said this riled his excellency greatly and at the first opportunity he removed eight of the state's directors and appointed new men. After the annual meeting last year the new directorate got together, prepared a resolution and passed it, surrendering the exemption from taxation. It was necessary, however, to have a general meeting of stockholders to ratify this action, hence a meeting was called to assemble some time last fall. At this meeting, however, a quorum was not present, and so nothing was done. The matter was then allowed to lie dormant, the idea being that it could be acted upon at the annual meeting Thursday, but it seems the shareholders are "up to snuff" for they failed to show up again. What is to be the end of the row remains to be seen.

In the meantime the road is still exempt from taxation.

The Weather Report.

For North Carolina: Generally fair, slightly cooler Sunday in north portion. Local forecast: On Sunday, fair weather, westerly winds. Slightly cooler by Sunday evening, with probably a very light thunderstorm. Local data for 24 hours ending 8 a. m. today: Maximum temperature 93; Minimum temperature 68; rainfall 0. The pressure is still low over the New England states, but no rain has fallen in that vicinity during the past 24 hours. The high area remains over the south Atlantic and east gulf states, and the pressure is also above the normal over Nebraska. Some rain has fallen over Florida and on the coast of Texas, the heaviest amounts reported being 1.01 at Corpus Christi, and 1.74 at Tampa. It is slightly cooler from Kansas City east to Pittsburg, elsewhere the temperature remains about stationary.

A Card.

MR. EDITOR: I see in your paper of July 13th the following statement: "At the next meeting of the local branch of the Wake Forest college alumni association the following resolution will be introduced: "We, the Raleigh branch of the Wake Forest association, will not support for office any man who favors state aid to the university or any other institution of learning." No reasonable man would, I suppose, offer such a resolution, but, if offered, it would not, under our constitution, be adopted, or even discussed. The association has nothing whatever to do with such matters. If it did, I certainly would not be a member of it one hour. C. DURHAM, President of the association. Raleigh, N. C., July 14th, 1894.

While shoveling coal at the S. A. L. round-house this afternoon Charles Jones, colored, fell dead of heart disease.

DOTS AND DASHES

MADE ABOUT TODAY'S HAPPENINGS.

It will be finest of the season and the cheapest only four dollars to Asheville and return, on July 24th. Don't get the date mixed.

Just one week from next Tuesday is the big excursion to Asheville, and the cheapest—four dollars. See posters for full particulars.

Gov. Carr offers \$100 reward for the arrest of Joe Gibson, who stands charged with murder, recently committed in Richmond county.

The railway commission will not be in session for some days, having completed its work of assessment of railway, steamship, telegraph, express and telephone property.

It was intimated this morning that an effort would be made in today's county convention to enforce the "unit rule," but the matter did not come up at all.

The vote cast, in Wake for Gov. Carr in 1893 was 3,823 and on this basis the county had 152 votes in the convention today. The county has 25 votes in the state convention, 76 in the judicial and 76 in the congressional. There are 34 voting precincts and wards in Wake.

It is said that quite a number of Raleigh people will avail themselves of the opportunity to take a trip to Asheville July 25. Tickets will be only \$4.00 for the round trip. The special excursion train starts from Goldsboro and will stop here on its way to the grand mountains.

Twenty five dollars was realized at the concert given Thursday evening at Metropolitan hall. Half of the money is to be used for the sick at Caraleigh mills and half goes to deservng poor of this city. Mr. J. W. Cooper has turned over the money to Mr. John T. Pullen.

The Baltimore Manufacturers' Record says: "The indications are that the electric street railway at Raleigh will be actively in operation by September 1st, at the latest. The syndicate which has purchased it includes Dr. McAden, of Charlotte, A. B. Andrews and R. S. Tucker, of Raleigh. A part of the road is to be relaid with heavier rails, and equipment, is to be furnished by the General electric company."

Refreshments will be served on the lawn at Mrs. Gattis' residence on South Salisbury street. A cordial invitation is given to all and the circle hopes to receive a liberal patronage from the kind public. Should the weather prove unfavorable the first pleasant evening will be selected for the party.

Building Improvements.

At the agricultural and mechanical college work is progressing quite rapidly on a large dormitory building. It is to be three stories high and will accommodate forty-eight students. There are three dormitory buildings already in use, but these are much smaller than the new one. There has been a pressing need for more room for students. It is expected that over 250 will be present next term. The iron working and wood-working building, which is quite near the main building, is also being doubled in size. Two spacious rooms are being added. Each of these will accommodate a department. In this building there will also be recitation rooms. The old forge shop was too small, as was also the wood-working department, and hence the necessity for an enlargement of the building.
