HINTS TO BUSINESS MEN!

Good advertising consists in the selection of a few strong, quick sell specialties, to stand as the representatives of your stock in price, pattern and quality. No tradesman need lack for a specialty. Let specialties sell staples atways and try to take rank among your competitors as one who is the quickest to recognize a good thing and the first to sell it.

Invite pairous to come and see you. The great advertisers of the country never cease reminding the people of their names, location and nature of business. Advertising is an investment and newspaper advertising columps are a boon to man. They help him out of his troubles and into the smiles of prosperity. The Pennsylvania railroad advertises exclusively in the newspapers. There is not a great business that has been built in the past twenty years without the aid of

newspapers. This age is too bustling and competition is too great for the merchant to allow himself any longer the luxury of waiting supinely behind his coun ter for trade. He must show in advance of the purchase just what he has to sell and how he intends to sell it, and a persistent publication of his wares is the means by which such showing can be made.

Frank Siddall, the Philadelphia soap man, says: "I have confined my advertising entirely to newspapers. The man who does not read a newspaper does not use soap."

A French duel and a joint debate in South Carolina are equally harmless,

Cleveland will not mourn much when he gets rid of part of his "wild team" as a result of the November election.

Outside of New York city the bank clearances of the country were greater last week than they were in the same week last year. In spite of the tariff muddle the business revival has begun.

The gold fund is now down to about \$53,000,000, or \$22,000,000 below the line where it stood fast January when he announced the other sale, and \$12,-000,000 below the mark where it rested early in February when the sale actually began.

Dr. Guzman, the minister from Nicaragua, has received a telegram from Managua, officially announcing that the town of Bluefields on the Mosquito coast, has been taken by the Nicaraguan army. The telegram, the minister said, contained no particulars of the affair.

Japan is spoken of as a small nation, but it has more population than France or Italy, and a larger area than Great Britain. It has resources in fighting men and national credit that remove it far from being classed as weak or insignificant. As for pluck, a look at the size of its present antagonist leaves nothing to be said.

Somebody has discovered that in 1890 when the McKinley bill was under discussion senator Gorman made a vigorous speech in favor of free iron ore, quoting among other things this declaration of major Bent, president of the Pennsylvania steel company: "Give me free ore, and I will sell pig iron in Liverpool and steel rails in London."

Next week at Terre Haute, Indiana, here will be a race-meet, the purses of which aggregate \$92,000.

The Chicago papers are discussing whether a homely woman is one of nature's mistakes. There are no homely women. The Kentuckians say there is no bad whiskey. Some is better than other kinds.

> The Chinese certainly have solved the problem of government. With an area no greater than the United States, and a population of over 400, 000,000, there is not the least bit of friction in the government of the country. For 6,000 years the empire has stood without danger threatening it from the inside.

There was a wild opening at all the grain markets yesterday with corn leading and setting the pace on others. The scene at the start was one of the most exetting witnessed in years. The sales, especially corn, were made with a total disregard of price. Frantic bids were made outnumbering the offerings two to one. The drought throughout the west is unbroken and in this circumstance lay the motive for the anusual activity and strength.

The official returns of commerce show that the imports for the year ended June 30, 1894, amounted in value to \$617,841,449, against \$815,-059,909 during the preceding fiscal year. The exports of domestic merchandise in the same period amounted in value to \$869,207,941-showing a visible balance of apward of \$250,000,-000. Yet, in spite of this enormous balance, the theory that the foreigner must pay the difference in gold is overthrown by the large exports of the previous metal.

During the recent riots the governor of Pennsylvania notified the president that he could furnish 12,000 soldiers for immediate service within twelve hours, and that the state could arm and equip 50,000 more inside of ten.

A year ago yesterday since congress assembled in extra session, and yet the tariff bill has not reached the president. Moreover, nobody can tell when it will reach him or whether it will ever reach him. Six months have A German newspaper prophesies elapsed since the measure passed the Practically speaking, it was five months before that body, for final action was not taken upon in the senate until July 3.

> The El Paso county, Colorado, sheriff, who was captured by adjutant general Tarsney in Missouri and taken back to Colorado, has made a full confession and given the names of all the men connected with the outrage committed in Colorado Springs a few weeks ago. He confirmed the story hat a murderer from El Paso county jail was allowed to help put tar and feathers on Clorado's adjutant general. According to Wilson's story, the men engaged in the tarring and feathering of Gen. Tarsney were sheriff Bowers, his deputy, Bob Mullins, Capt, Saxon, sergeant Bancroft, deputy sheriffs Wilson, Quackenbosh, Sherman Crumley, Walter Crumley, Shorty Allen, Smith Shellenbarger, and perhaps one or to two others, including a women.
