A TRIP ON THE CARS.

It is a pleasure to see the street cars beginning to be patronized. Pienie and supper parties will find it pleasant there. There are seed and swings. The lake is nearly tull and in a few days the boats will be painted and ready. Several hundredpeople were at this park yesterday. It was the first crowd of the season there. A good walkway ought to be laid on the dam, and the latter is not quite strong enough. There is most travel over the Hillsboro street line. The track has been much improved, particularly beyond St. Mary's, Pullen park is much more attractive than ever before. The spring is a favorite resort, and so is the big pavilion. At the spring is a banana plant on which is a large bunch of bananas which will ripen. Y. M. C. A. Work.

Some time ago a well dressed man, who appeared to be a gentleman, applied at the Y. M. C. A. rooms here for help. He proved that he had given up a good paying position because he had to work Sundays. As he appeared to be sincere, secretary Cooper arranged to assist him, Yesterday Mr. Cooper received a letter from him from Fall River, Mass. In this letter he expressed his gratitude and said that if help had not been given he would have probably committed suicide. This is only one of the many cases in which the Y. M. C. A, has been of great service to unfortunate but deserving men.

VERY FINE CROPS.

The Report Issued Today is Interesting

The reports of correspondents of the weekly weather crop bulletin, is sued by the North Carolina state service, for the week ending today indicate that as the season advances the condition of crops is becoming more diversified. Yet the prospects continue very flue. In the southern and eastern part of the state where there has been too much rain the land is drying out nicely. The week was generally very warm, with one of the hottest days of the summer on the 9th. Scattered showers occurred, chiefly in the east. Since the beginning of the publication of the crop bulletin in the spring of 1885 there have never been so few reports of shedding cotton bolls. Special reports concerning the hay crop from all over the state indicate in general, 1st, that the early erop was inferior in yield to the season of 1893. The late frost and subsequent drought cut the clover crop short in the northern parts of the western and central districts of the state. The crop was saved in better condition than in 1893. 2d. The fall crop of meadow hay will be housed early in September. Owing to generous rains in August the condition of meadows is now on the average very good, and the prospects for the fall crop are that it will be larger than for the preceding year. The crop of corn and fodder will be large, and a very large crop of field peas have been sown for cutting in fall. Hay is not one of the principal crops of North Carolina, but it is probable that less than usual will be brought in from other states this year. Total number of reports received, 200.

So get ready and let's all go, You will never have an opportunity to see so much for so small an outlay again. It is a chance of a lifetime. Fare to Wilmington and re urn

Deputy collector Gibson reports the seizure, at Lumberton of a two horse wagon and team, a one horse wagon and team, a barrel of brandy and one of whiskey. The owners of these contraband articles are H. M. Skinner and C. Meadows. Both were jailed at Lumberton. He also reports the seiz ure at Clarendon, of one 70-gallon copper distillery and outfit, the property of M. B. Deaton, It was a government distillery but had been running in violation of the revenue laws.

When the United States constitution was under debate more than 100 years ago George Mason, of Virginia, opposed the proposision to have a senate. The senators, he urged, would be citizens of the capital rather than of their states. "Will it not be then in the power of the senate," he asked, "to worry the house of representatives into anything? They will be a continually existing body. They will exercise those machinations and contrivances which the many have always to fear from the few." Mr. Mason' remarks are as pointed now as ever, perhaps more so, in the light of recent experience.

Tickets for the Masonic Excursion.

Tickets for the excursion to Wilmington next Thursday are on sale at Snelling & Hicks, Charles Bretsch; Barbee & Pope, A, Williams & Co., J. R. Terrell and John Y. MacRae's.
