CARLISLE'S PRIVATE SECRETARY

His Health at Once Improved by Paine's Celery Compound.

Paine's celery compound makes people well! From the wilds of Maine to the land of golden sunsets, from Canada to the Florida reefs, rich and poor, men and women in high places, and those who serve the country equally as well by being good husbands and good wives—all manner of people are being benefited by Paine's celery compound.

Many in high positions, knowing that their example is likely to be followed, and wishing that their experience may help others, have given their testimonials to the value of this great remedy.

Mr. H. W. Van Senden, the private secretary of Hon. John G. Carlisle, secretary of the treasury, says: 'I have used several bottles of Paine's celery compound, and its beneficial effects were manifested in a very much improved condition of the system. Those who are overworked will find it a splendid tonic and nerve invigorator.'

Mr. James A. Bryan, the city editor of the Paducah (Ky.) Standard, one of the most influential newspapers in that part of the country, writing about a month previous, said: 'I have used several bottles of Paine's celery compound for nervousness and general debility, and the benefits have been marked. I consider it an invaluable remedy for nervousness and exhaustion, the result of confinement, sedentary habits, and long sustained mental and physical exertion.'

Ingredients represent the most fruitful years of Prof. Phelps' practical study of the nervous system in disease. After taking Paine's celery compound the blood no longer creeps in a thin, sluggish stream, but the arteries gradually become filled with a rich, strong tide of vigorous red blood that reaches and bathes every tiny nerve and muscle fiber in the body.

Headache, neuralgia, and loss of appetite and strength cannot continue when such healthy arterial blood, full of ruddy, life-giving corpuscles, and capable of quickly repairing the waste of the hard-worked nerve and brain tissues, replaces the thin, pale fluid, full of bad humors and lacking in nutritive value. Thousands of men and women whose daily life is making severe draughts on their vitality need Paine's celery compound.

None are too old to be helped by it; none are too young to be at once benefited. It permanently cures every kind of nervous disease. It quickly brings new materia to the worn out nerve centers, and removes the one cause of the many forms that nervous diseases take: Dyspepsia, sleeplessness, heart disease, rheumatism, melancholy, kidney and liver troubles. As a relief for the debilitating effects of this hot season nothing can do so much.
