HINTS TO BUSINESS MEN!

Good advertising consists in the selection of a few strong, quick sell specialties, to stand as the representatives of your stock in price, pattern and quality.

Invite patrons to come and see you. The great advertisers of the country never cease reminding the people of their names, location and nature of business.

Frank Siddall, the Philadelphia soap man, says: "I have confined my advertising entirely to newspapers. The man who does not read a newspaper does not use soap."

Krupp claims to have invented a machine that will roll iron so thin that it will take 1,800 sheets to make an inch.

Twenty-four years ago electricity as a mechanical power was unknown. Now \$900,000,000 is invested in various kinds of electrical machinery.

In New York and Brooklyn there are about 8,000 Chinese, of whom about 300 are Christians. The headquarters are in that part of New York now known as Chinatown.

It is a very solemn thing to be a professional toper in Norway, where the government controls the liquor traffic. No customer is allowed to spend more than 5c for drink, and any show of exhilaration cuts off the supply.

Professor McCook, of Hartford, has been making an investigation of the American tramp, and finds that there are 45,845 of them in the country. They belong to all nationalities, but more than half of them boast of American parentage.

As Tillman has carried thirty-two of the thirty-five counties of South Carolina his election to the United States senate is assured. He is a tall, powerful man, and can talk twenty-four hours at a stretch without the slightest regard for grammar or politeness.

The present postmaster general of England relates in his last annual report that a young woman who lost her way in London bought a stamp for 3 pence and had herself conducted by special messenger as a registered parcel to her home, where she was duly received for.

The report on the industries in this state shows there are eighty-four roller flouring mills. There are silk mills at Wadesboro which spin silk. There twelve cotton oil mills. Edgecombe has four of these. Among the industries are a chewing gum factory in Edgecombe, a churn factory in McDowell and a washboard manufactory in Yaddin.

Mr. Corey, of Pittsburg, Pa., proposes to organize a new national party having for its immediate object the cutting down of the pay of officeholders and the establishment of a more economical government, and is not without justification for his attempt. He calls attention to the fact that while it only cost \$60,000,000 to pay the federal expenses in 1800 it costs \$500,000,000 in 1894.

The first of a lot of sixty locomotives ordered by the government of Brazil in this country have been sent to their destination.

The Boston Globe has studied the records of summer weather in that latitude for the past sixty years, and has found that only once has a hotter July than the one of 1894 ever been experienced.

It is said that the happiest people on earth are the French. The reason given for their superior felicity is that they own. There are 38,000,000 people in France and 9,000,000 dwelling houses; and it is a matter of statistical ascertainment that two-thirds of the householders are house owners.

The officials of the United States marine hospital service display undisguised anxiety as to the continued spread of cholera in Europe and fear that the United States might not be able to escape the plague unless the most strenuous precautionary measures are taken at every point.

Justice Traux of the New York supreme court has decided that Henry L. Faison, of Faison, N. C., is entitled to the custody of his 4 year old child Raymond. The child was taken north by his mother, who left her husband a year ago. She said she could not stand the climate at Faison. Justice Traux says North Carolina is evidently the residence of the parents and that the child was taken out of this state by fraud.

It is said that a syndicate of Baltimore capitalists has purchased the Eiffel tower in Paris and that the structure will be taken to Baltimore. The promoters of the Baltimore centennial celebration, which is to be held in 1897, are said to be the purchasers of the tower and the cost, together with the cost of taking apart and transporting the 7,000 tons of metal of which it is constructed, is said to be about \$600,000.

Lawyers are ever ready with new methods of procedure and novel grounds for action, but there is an Englishman who has just made himself prominent in his profession as a deviser of a unique basis for a suit for damages. He has entered a suit against a newspaper, asking damages and an injunction, on the ground that his practice has been injured by the newspaper withholding his name in cases where he has been successful and publishing it only in cases which he has lost. Eminent counsel have been retained on both sides and the action will be bitterly contested.

Good Things are Cheapest.

Robert Bardette bids us remember that the good things in the world are always cheapest. "Spring water costs less than whiskey; a box of cigars will buy two or three Bibles; a state election costs more than a revival of religion; you can sleep in church every Sabbath morning for nothing, but a nap in a Pullman car costs you two dollars every time; the circus takes fifty cents and the theatre a dollar, but the missionary box is grateful for a penny; the race horse scoops in two thousand dollars the first day while the church bazaar lasts a week, works twenty-five or thirty of the best women in America nearly to death, and comes out forty dollars in debt."

Marshal Yamagata of Japan has gone to Korea to assume command of the Japanese army in that country. It is said the Japanese forces in Korea number 100,000.

A Household Treasure.

Dr. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. Dr. A. Dykeman, druggist, Jatakill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at John Y MacRae's drug store. Regular size 50c and \$1.

SLAVES TO THEIR HOMES.

PHYSICIANS PRESCRIBE PAINE'S CELERY COMPOUND FOR SUCH WOMEN.

There are thousands of tired women today on the verge of breaking down because they are martyrs to their false ideas of domestic duty.

They are slaves to their homes; and their exalted notions of absolute order and cleanliness keep them from morning to night upon the rack of mental and physical torture until they grow old, care worn, nervous, irritable and sickly, in their fooling struggle with dust.

Only the exceptionally strong can stand the debilitating effect of overheated rooms, a lack of fresh air and exercise, over-burdened stomachs and the artificial, nervous, hurried life of so many good wives and mothers.

Just as nature prompts young children to cry and grow irritable when hungry, so poorly fed, over-worked nerves cry out for their proper food by twinges of rheumatism and neuralgia.

It is nature's language in each case. Just as the fretting, crying child drops to refreshing sleep after being properly fed, exactly so the nervous system feels right away the equalizing, restoring action of Paine's celery compound.

A fair trial of this greatest of all remedies brings strength to tired, "run down" men and women, and frees them permanently from debility, heart palpitation, despondent feelings and inability to sleep because of nervous weakness.

Mrs. S. E. Welch of Lynn, Mass., whose portrait appears above, writes as follows: "I was taken ill last January with the grip and it left me with the rheumatism in my hand and feet. My feet were swollen so bad and were so sore that I found it hard work to walk. My husband brought me home two bottles of Paine's celery compound. Seeing that was doing me good, I continued it until I had taken five bottles when I was free from rheumatism and haven't had any since."

"Today I can truly say that I am as well as I ever was in my life." That's it. Paine's celery compound makes people well.
