RAILWAY NEWS NOTES

Very Little Building is Now Going On.

There is very little railroad construction in this state at present. It appears that there is less of this now in progress than at any time since 1868. During the year only six miles of line have been constructed; this being the Glendon & Gulf in Hatham county. That company is doing the work itself, without any subscriptions, and says it will certainly push the road on to Charlotte. Two or three small lumber roads are in course of construction in the eastern and central sections.

DISEASE IS ANTHRAX.

The State Veterinarian So Pronounces It.

Dr. Frank P. Williamson has returned from Salisbury. He made a thorough investigation of the disease which has killed 20 fine cows there, and found it to be anthrax. This epizootic has now about ended. Four cows are yet affected, but are nearly well. Dr. Williamson finds that had pastures and foul water caused the trouble, in the three pastures where it prevailed. Some people have an idea that any sort of water is good enough for a cow's use. Quite a number of cattle other than the 24 above referred to had anthrax, but recovered. It is a very dangerous disease.

CRUSHED BY A SNAKE.

The Latest Effort of the Snake Liar in Georgia.

The latest story from Georgia is that of a 7-year-old boy named Wesley, who was crushed to death the other afternoon by a huge snake of some kind. "The boy had gone to the field with his father, and while the latter was at work wandered off a short distance and climbed a muscadine vine, as was his habit. On being unable to find his boy when he had finished his work, about sundown, the father went to the house, expecting to see him there, but was informed by his wife that the lad had not been home. Feeling no uneasiness, Wesley, knowing the habit of his boy, went back to the field, which was on the edge of a dense swamp, bordered with muscadine vines. By looking up in the vines he was not long in finding him, but when he called the boy failed to answer. After calling two or three times and receiving no answer, the father shook the vine, and to the horror saw what he had supposed to be one of the branches of the vine that was supporting his son begin to uncoil. Realizing that his son was in the coil of a huge snake, Wesley stood rooted to the spot, and before he could recover his senses, the snake completely uncoiled and the boy fell to the ground, a distance of 9 or 10 feet. Wesley picked the child up and ran from under the vines to the clearing. There his worst fears were realized—the child was dead.

Milton Nobles' New Play.

The new play of Milton Nobles will be presented at the academy of music next Monday evening. "For Revenue Only" goes on record as one of the successes of the current New York season. It is said to be one of the brightest, cleanest and most entertaining comedies yet written by an American playwright. The dialogue is witty and the political satire keen. To interest and divert an audience for four acts chiefly by means of clever lines and amusing characterization is a feat that demands and deserves the genuine praise that Mr. Nobles has received everywhere the play has been presented. The acting is said to be as good as the play. Mr. Nobles is extremely popular in Raleigh.
