WHO STRUCK BILLY PATTERSON?

And Now We Ask How Does This Strike You?

In order to bring into Raleigh some surplus cash I have made arrangements to secure loans for those who need money and can't get it in this way. Several thousand dollars lent in Raleigh already. Read: Endowment Plan.

The peculiar advantage of the Endowment plan is in the convenience and certainty with which a debt may be paid off.

Anybody with sufficient credit or security may be able to incur an obligation to pay \$1,000. But the trouble is that when the debt falls due he still owes the \$1,000, and in most cases it is then as difficult to pay it as it was when the debt was created.

The Endowment plan solves the question "How to pay the principal of your debt."

The Company makes loans for either seven or ten years.

Every borrower is obliged to carry an Endowment policy, which will mature on or before the day his loan becomes due.

The Endowment and the loan both being for seven years, the payment of the Endowment enables the borrower to pay off his loan the day it becomes due.

Should the borrower die before the end of the seven years, the life insurance payable under the Endowment policy goes to reduce or repay the loan. If death should occur at the end of three years, the life insurance would pay off more than half the debt—in this case the balance of the loan would remain on the property at 6 per cent. interest until the end of the seven years.

The life insurance under a seven-year Endowment amounts to the face of the Endowment after six years, and under a ten-year Endowment after eight years.

Interest.

The interest on loans is six per cent per annum, and is paid in monthly instalments. Thus on a loan of \$1,000 the monthly interest is \$5.

Security.

To secure the loans and interest the Company requires a first mortgage on real estate worth double the amount of the loan.

Cost.

The following table shows the total cost per month of a loan on the Endowment plan:

Table with 2 columns: Loan Amount, Monthly Cost. LOAN OF \$1,000 FOR SEVEN YEARS. Interest at 6 per cent per annum, \$ 5.00. Premium on seven-year Endowment, 12.50. Total cost per month, \$17.50.

Table with 2 columns: Loan Amount, Monthly Cost. LOAN OF \$1,000 TEN YEARS. Interest at 6 per cent per annum, \$ 5.00. Premium on ten-year Endowment, 9.50. Total cost per month, \$14.50.

Amount of life insurance per \$1,000 of the Endowment granted payable under the policy if death occurs after the policy has been in force for either of the following periods:

Table with 3 columns: Period, If Endowment is payable at end of 7 years, If Endowment is payable at end of 10 years.

After 1 year, \$ 250 \$ 200. After 2 years, 400 300. After 3 years, 525 400. After 4 years, 650 500. After 5 years, 825 650. After 6 years, 1000 750. After 7 years, 1000 900. After 8 years, 1000 1000. After 9 years, 1000 1000. After 10 years, 1000 1000.

If the Endowment is greater or less than \$1,000 the Life Insurance payable will be in proportion.

Call on C. C. McDonald, Special Agent. It requires about 30 days usually to get papers complete and to have the check ready for issue.

Railway Commission News.

The railroad commission has taken up the case involving rule No. 7 of the associated railways, this rule accepting no freight on packages weighing less than 100 pounds, but rating all packages under that weight as 100 pounds, and continued the case to Sept. 25, to hear exceptions which Mr. Culp, traffic manager of the Southern railway, desires to make. Unless he shows good reason to the contrary, the commission will refer this matter to the inter-state commerce commission. The case involving alleged discriminations in freight rates on coal in favor of Charlotte and against Concord is also continued to the 25th, and Mr. Culp will be heard as to it. The matter of requiring railroad connections between the Seaboard Air Line and the Southern trains at Cary also comes up at the same time.

Resented an Insult.

As the audience was filing out of the academy of music last evening a young man named Sutton said something that gave offense to young Mr. Arrington, the son of Mrs. P. D. B. Arrington, of the Criminal Docket. Arrington made no reply but after escorting his mother and sister home, returned and hunted Sutton up. He found him and, without saying a word, struck him in the face. Bystanders seized both parties and Arrington walked off. He was followed by Sutton, who had procured a stick. Sutton walked up behind Arrington and, attracting his attention, struck him on the forehead as he turned. Arrington was dazed and received a very bad cut. The case will probably be heard Monday morning.

Now is Your Opportunity.

To those citizens who want to build a home or to lift the burden of a mortgage off their homes, and in such a way as to not miss the payment, it will be a relief to know that they can get as much cash as they want on seven or ten year's time. Think of it. This is certainly the most liberal and reliable offer people have ever had. The amount you pay out monthly will be about the same as paying rent and in the time specified (guaranteed) you will have your home paid for. You will find it to your interest as well as principal to read the column "ad" of C. C. McDonald, special agent, and then call. He will explain fully.

NOVELTY DRESS GOODS

FOR AUTUMN AND WINTER.

No descriptions of our New Dress Goods can make our patrons so well acquainted with them as a careful personal inspection—this we invite.

Fashion inclines towards rough shaggy effects, and the stock, accordingly, abounds in these goods; but for those of quieter tastes, who prefer the smoother weaves, we have prepared a corresponding assortment.

Among the new styles to be found in our several Dress Goods Departments, the all-wool figured Whitepeard, the three-toned silk and wool mixtures, the silk and wool Persian Cheviots, with glintings of silk in Persian colorings, and the Scotch novelties. All have beautiful colors and new handsome designs.

The aggregated collection is larger than we have shown before, and more attractive, and the prices are considerably lower than in any previous year.
