One of the rules of the new "Com-
mittee on Seventy" in New York city
is that no member will be permitted to
run for office. This was the weak
point of the old committee of Seventy
which routed out the Tweed gang.

The commercial failures in the
country last week numbered 218, as
compared with 346 in the correspond-
ing time in September, 1893. More
business is being done than was done
twelve months ago, and is done under
better conditions.

The plant of the Erie car works in
Pennsylvania, the largest concern of
its kind in the country, was almost
wholly destroyed by fire Monday night.
Several acres of buildings and a num-
ber of cars were burned. The fire
was incendiary and was the second at-
tempt made to burn the works within
two weeks.

A dispatch from Shanghai, China,
states that the anti-foreign feeling in
Pekin is growing steadily. Foreigners
while on the streets of the city are
constantly subjected to insult and an-
noyance by the soldiers. The court
seems scarcely to realize the fact that
the country is engaged in a serious war.

The European money markets are
affected by the news of the ill health
of the Czar of Russia, as he is now
recognized as one of the strongest sup-
porters of peace, and it is feared in
the event of his death his successor
would seize the opportunity to secure
the naval ports on the Pacific and en-
large his boundaries in the direction
of India at the expense of China, either
of which steps, it is believed, would
easily precipitate a war.

The London Times in a leading
article says Japan has already effected
enough to convince intelligent men the
world over that henceforth they must
reckon with a new power in the far
east. The great battles of Ping-Yang
and Yalu have opened the eyes of all
not wilfully indifferent or blind that
a new State has taken rank in the
hierarchy of nations, and that her
voice can no longer be ignored in their
councils.

It is stated on what appears to be
good authority that the errand of H. A.
Widemann, of Honolulu, to this coun-
try is for the purpose of com-
mencing a damage suit against the
United States on behalf of the ex-queen
of Hawaii. The damage asked for is
said to be \$200,000, and the friends of
the ex-queen declare that this govern-
ment has been instrumental in mul-
ting her to fully that amount. Her
claim is that the provisional govern-
ment could never have been estab-
lished and herself deposed had it not
been for the unwarranted action of a
recognized agent of the United States,
the captain of the warship Boston,
which action was subsequently for-
mally disavowed by the president.

The Bulletin of the department of
agriculture says of the crops: The
excessive moisture occurring in nearly
all parts of the state since last month
has influenced the reports slightly;
not so much as was supposed by those
who always look at the dark side of
the crop question. Cotton has been
affected, but is still ahead of the aver-
age of the last four years, which was
just 79. This year the figures stand
at 81.2-3, which is better than re-
ported any year since 1890, when the
September report stood at 98.
With dry, warm weather for for thirty
days more the condition will improve,
while continued rain will lower the
average materially.

Monroe Whalen, of Birmingham, Ala.,
writes: "I purchased six bottles of
your Japanese Pile Cure for Mr. Amz
Godden and it has entirely cured
me of a case of piles of 23 years stand-
ing; will advise a v-friends to use it."
For sale by John Y. MacRae.

Kentucky is fourth in whiskey, sixth
in hogs, eighth in rye and mules, and
first in the hearts of its countrymen.

Railway officials and business men
who have in the last few months visit-
ed the South, traveling extensively in
search of business or health, state
that the improvements on southern
roads in the last few years are very
striking. Trains are run at a much
higher speed and with greater safety,
so much have road beds been improv-
ed.

The brewing of lager beer in this
country was begun about 50 years ago
in the outskirts of Philadelphia. Be-
fore that brewery products were en-
tirely ale and porter. Now, however,
nearly all the output, which last year
amounted to 33,822,000 barrels, is of
lager. Each barrel contains 248 pints,
or 496 glasses; therefore, according
to the late internal revenue re-
turns, there was made and sold last
year an average of a glass every
working day to every man, woman and
child in the United States.

Advices from all sources indicate
that Japan is preparing for a grand
coup in the shape of a sudden dash on
Pekin, the Chinese capital. An army
of 80,000 men has been massed and as
there can be no use for such a force in
Korea, there is but one other destina-
tion for the army. It is known that
such a move has been contemplated
for some time by the Japanese leaders,
and it would be in keeping with the
nerve and daring displayed by them
during the present war. The plan is
considered entirely feasible and the
only way in which some decisive result
can be reached. If Japan simply con-
tents herself with driving the Chinese
out of Korea, they will roll army after
army to the borders until Japan is
exhausted. Yet a descent upon Peking is
not without its perils. It is not a mat-
ter of absolute certainty that the Jap-
anese could reach Peking and should
they get there the question of get-
ting back would be no trivial one. A
member of the Chinese legation de-
clares that China cannot, dare not and
will not give up Korea, though the
war should last 30 years. On the
other hand the Japanese minister
says: "The Japanese cannot go back-
ward. It is useless to talk about a
cessation of hostilities." Such a plan
would not be chimerical. A similar
feat was accomplished by a small army
of 5,000 French and British, who, in
1860, after destroying the famous
summer palace of the Chinese emperor,
captured Peking, the Chinese capital,
and dictated a treaty of peace. What
was accomplished by a small European
force in 1860 may be repeated in 1894
by a well drilled and equipped army
of Japanese, flushed with victory and
ten times as numerous as were the
forces of the French and English.
