Having qualified as administrator of th late Elizabeth E. Glenn, this is to notify all persons indebted to said estate to make immediate payment to the undersigned and all person having claims against the said deceased will present the same to me on or before the 27th day of October, 1895, or this notice will be plead in bar of their recovery. W. R. BLAKE, Administrator.

DDIXIT

New Argument Against Corsets

is the shape of a woman's waist on which a corset tight is laced. The ribs deformed by being squeezed, press on the lungs till they're diseased. The heart is jammed and eannot pump, the liver pid lump: the stomach.

crushed, cannot digest; and in a mess all are compressed. Thereforethis silly woman grows to be a beautiful mass of woes, but thinks she has a lovely shape, though hideous as a crippled ape.

This is a w man's natural waist, which corset ne er yet disgra ed. Inside it is a mine of health. Outside of charms it has a wealth. It is a thing of beauty true, and a sweet joy forever new. It needs no artful padding vile or bustle big to give it "style." It's strong and solid, plump and sound, and hard to get one arm around, Alas! If women only knew the mischief that these corsets do, they'd let Dame Nature have her way, and never try her waist to "stay,"
-Plowman's Journal.

A WONDERFUL CASE.

A Boy's Life saved by Skin Grafting.

With 1,792 new patches of skin upon his little body, 12 year old Freddie Grifith lies patiently in the front room of his father's home at Mont. clair, N. J. The case is one of the most marvelous examples of skingrafting in existence, and the doctors are jubilant over the progress of their patient toward health and strength, Freddie, is a bright-faced boy, who never murmurs at the pain, but stands it like a hero. He was terribly burn- tired muscles. ed July 4. He was celebrating, firing firecrackers, cannon, &c., and had in his left pocket fireworks which show they exploded and the boy was terribly burned.

Dr. Case decided Freddie would die. He consulted with other physicians, who also thought that the patient could not be saved. Dr. Case tried This grand invigorator and strength- show of my former self. I was nervhis best, and in two weeks Freddie ener is able to restore the delicate was on his way back to life. Then the physician began to plan to replace the wasted flesh or skin.

The boy was in condition by Sept 11 and the work of skin grafting began. Mrs. Griffith, a handsome, well developed woman, offered her shapely left arm for the first sacrifice, and one handred little pieces of skin were snipped from the quivering arm of the loving mother and implanted upon the scarred body of her offspring. The father bared his arm, and one hundred bits were snipped and placed upon the legs of his son.

As soon as the case became reported people began to visit the Griffiths and offer themselves as subjects, willing to sacrifice skin to help the uncomplaining lad on his way to recovery. Altogether fifty people offered themselves. From these Drs. Case and Halsey selected a few who were in magnificent condition, and kept grafting day after day until Monday of this week, when from three men they took 280 more pieces of skin and grafted them upon the boy. As the graftted them upon the boy. As the graft-ing has continued Dr. Case has kept shield the house, but the water and tally on the wall near the boy's bed. and yesterday the score had reached 1,792. The burned portion of the boy's body has now been all covered.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

#### A Remarkable Geyser.

BLOOMINGTON, Ill., October 31 .- The wonderful geyser well 16 miles east of Bloomington continues to be a marvel. The well is a tube 4 inches in diameter and 200 feet deep. When it was sunk to that depth a week ago the gas forced the drill weighing 600 pounds out of the well 80 feet, followed by a volcanic eruption of gravel and stones. Then came water mixed with the gas and rising fully 150 feet in the air. The stream threatened to convert the farm into a lake and to wash away a farm house. A barrier gravel sawed it in two in a short time. After difficulty the pipe was capped, and a gate valve adjusted. Today the valve was again opened with pressure standing at 100 pounds. A solid stream of water arose 125 feet, and rocks and gravel shot nearly as high. A half-inch board held over the stream was cut in two in twenty seconds. Thousands visit the scene every day.

Testimony from the Mayor of Sequin. Tex. - 19 Testimony from the Mayor of Seguin. Tex.

SEGUIN. TEX., January 14, 1892.

MESSIES, LITPMAN BROS., SUVARIAN,
GA.: Genthomen—I have tried your P.
P. P. for a disease of the skin, usually
known as skin cancer, of thirty years'
standing, and found great relief; it
purifies the Dicod and removes all fritation from the seas of the disease
and prevents any surreading of the
sores. I have taken five or six bottles
and feel confident that another course
will effect a cure. It has also relieved
me from indirection and stomach
troubles. Yours truly.
