

POLITICAL POINTS.

The Views of Mr. Pritchard, Who Will be One of the New Senators.

Mr. Jeter C. Pritchard, of Madison county, who is here, says county government will be absolutely repealed by the legislature. The present election law will be repealed and a new one enacted. He says he is sure the republicans and populists will have joint caucuses, on some questions at least. He does not expect any jar or discord and declares the legislature will be conservative, will only pass such laws that are absolutely necessary and then "go home."

He was asked whether there would be fusion in 1896 and said he thought the republicans and populists would again get together on some questions. All agree on the demand for free coinage and this, he thinks will be the issue in 1896.

Mr. Pritchard says the republican party is greatly indebted to state chairman Holton for his work during the campaign, which contributed largely to its success.

Mr. Pritchard's friends think he will get a majority of the republican caucus for the United States senate, and that he will get a majority of a joint caucus of the fusionists. They also say that it was well understood from one end of the state to the other that he was to be the republican senator. Pritchard himself says Marion Butler will get the long term senatorship, and that he fully deserves it. There are by his calculation twelve more populists than republicans in the legislature.

His friends say Pritchard has not committed himself to a joint caucus or separate caucuses on the senatorial question.

They regard Oliver H. Dockery as his most formidable opponent, Mott second, H. G. Ewart third, A. E. Holton fourth. Under certain contingencies Holton is a strong man.

SELF-CONFESSED INCENDIARIES.

Seven Georgia Negroes in Jail for Applying the Torch.

SYLVANIA, Ga., Nov. 30.—A wholesale plot of incendiaries has been unearthed in this county, and seven negroes self-confessed, are in the county jail. Two weeks ago the house and barns of state senator Wade, who was absent in attendance upon the legislature in Atlanta, were burned, entailing a loss of \$7000. The men arrested today confessed the story. It was that following the recent elections they had been advised by some white men to organize and burn out the people who deprived them of their right to vote. They then formed themselves into an oath-bound association for the purpose of incendiarism. Their first work was on Wade's property, because he had no right to represent them in the senate. They were to have burned the homes of two other well-known citizens if they had not been arrested. The officers have not yet disclosed the names of the white men who thus urged on the incendiaries to their work. The people are so enraged over the disclosure that the jail is strongly guarded tonight to save the seven men from vengeance. Late tonight it was rumored that hands of men were gathering near the jail, and that they would probably attack it before morning.

MANAGER ST. JOHN.

Rock Island Lets Him Go for His Attitude in Debs' Strike.

CHICAGO, Nov. 30.—General manager St. John, of the Rock Island railway, has resigned under pressure. He was president of the general managers' association during the recent Pullman strike, and in consequence the blows of Debs and his fellow-officers of the American railway union fell with greatest severity upon the Rock Island. Its trains were molested, while those of other roads were permitted to run. The war began on this road early, and the strikers attacked it to the last.

President Cable and the directors, who felt that Mr. St. John had acted unwisely in becoming president of the managers' association, soon made that gentleman uncomfortable.

By a recent circular the duties of the general officers of the company were so readjusted that Mr. St. John, while retaining his position, had practically nothing to do. Some time ago Mr. St. John went east to look for another job. He succeeded, and has tendered his resignation. He becomes the vice president of the Seaboard Air Line.

Deliberately Scalded a Little Child.

CLINTON, Io., Nov. 30.—Two men named Rubright and Clark, while operating a steam husker, caught the 9-year-old son of Charles Planthaber, and while one of the men held him the other turned the steam on the child's legs until they were cooked in a terrible manner. The two fiends have been arrested.

Secretary of war Lamont recommends that the regular force be increased by about 4,000 men for the infantry arm of the service. The only reason he gives for this increase is the desirability of establishing the battalion formation in the army. But this tactical change can be made with 25,000 men as well as with 30,000.

WHY? are so many people feeling weak and run down at this season of the year?
WHAT? is the cause of it?
HOW? can they get well?

THE ANSWER is easily given. It is correct because it is based on facts. People always feel weak when their blood is out of order; when it gets thin and watery or clogged with impurities. Diseased kidneys make bad blood. The way to get well is to put the kidneys in a healthy condition and purify the blood. There is only one reliable, one certain cure for diseased kidneys and impure blood, and that is Warner's Safe Cure. This fact is acknowledged by the world's greatest physicians and by thousands whom it has made strong and well. Warner's Safe Cure is popular because it has stood the test of years. There is nothing like it for removing bad taste in the mouth, irregularity of the bowels, disordered stomach, heartburn, coated tongue, pains in the head and body, and many other distressing symptoms which make life miserable. As a strengthener and health-giver the great Safe Cure is and always has been unsurpassed.

A Coming Team.

Yesterday afternoon the A & M college football team returned from Wilmington flushed with their victory over the athletic association of that city on Thursday. Since the game has been played scientifically at the college, the work of the team has steadily improved. The team's record this year has been exceptionally good and next year it will undoubtedly rank next to the university team. All the team's players, except two will return to college, and, under the careful charge of captain Whitaker, it may be relied upon to keep up its good work next season. The record of the college boys is as follows: University of N. C., lost 44 to 0; U. N. C., lost 16 to 0, Trinity, lost 6 to 0; Wilmington athletic association, won 23 to 0. This is an excellent showing as Trinity and the University have both had years more experience than the A. & M. boys. Wait till next year, though.

Made a Fortune and Lost His Wife.

St. JOSEPH, Mo., November 30.—Three years ago Frank P. Smith went to Helena, Mont., where he engaged in mining and grew rich. For more than a year he has searched for his wife and two children in many states. Tonight detectives located them in this city, where the wife was living with J. N. Burns, whom she had married in Kansas City a year since.

Smith says his wife suddenly disappeared soon after he left and he has spent a small fortune searching for her. The children are with her.
