RALEIGH, N. C., JANUARY 14, 1895

Jeter C. Pritchard won the short  
term senatorship last evening at the  
republican caucus.

The U. S. treasury gold reserve con-  
tinues to diminish at a rate which is  
hastening the necessity for another  
sale of bonds to keep the financial  
policy from bankrupting the govern-  
ment.

The water-power is successfully ap-  
plied to the generation of electric  
power many of the southern states  
will find that between their mountain  
streams and fine rivers they have a  
double opportunity for development  
in this direction.

The introduction of pure water in  
towns of India has reduced the mor-  
tality in the British army from 69 per  
1000 thirty years ago to 15 per 1000.  
As India is the breeding place of  
cholera, the change is of importance  
to the whole world.

Preparations are being made by the  
Japs to advance on Peking as soon as  
the weather permits. Chin-Chow is  
the point which they have first in  
view. A stand is to be made by the  
Chinese at the Great Wall, but that  
obstacle will readily be overcome.

The orange-growers of Florida, like  
the growers of cotton are not  
wise in relying entirely upon one  
crop. They can raise corn, pota-  
toes, live stock and poultry as well as  
oranges, and thus save many dollars  
for articles of general demand now  
brought from distant points.

The world's production of gold in  
1894 has broken the record. The to-  
tal is placed by the United States  
mint bureau at \$175,000,000, a gain of  
nearly \$20,000,000 over the figures of  
1893, which surpassed the yield of  
any previous year. The gain is chief-  
ly in the United States, South Africa,  
Australia and Russia.

The fortune of senator Fair, of Cal-  
ifornia is sliding down to the neigh-  
borhood of \$15,000,000, which is the  
usual thing when a legal inventory  
takes the place of a popular estimate.  
Jay Gould was an exception, for ap-  
praisers made the net value of his es-  
tate \$75,000,000. Commodore Van-  
derbilt left about \$100,000,000. But  
as a rule, the colossal fortunes of  
which so much is heard shrink im-  
mensely when they are tested by ac-  
tual figures.

There are several trustworthy indi-  
cations that a marked and substantial  
improvement of business all over the  
country is close at hand. Reports come  
from many quarters of resumption of  
work in factories which have been  
cently and of an increase in the hours  
of work in those which have been run-  
ning on short time.

The overproduction of cotton is ad-  
mitted, and a reduction of the acreage,  
with the substitution of other crops,  
is desirable; but the thing of great ad-  
vantage in that respect would be an  
increase of local manufactures, and it  
is encouraging to observe that this  
view is being taken in the south.

The silver speeches delivered in the  
U. S. senate during the last few days  
made still more apparent the hopeles-  
ness of accomplishing anything at this ses-  
sion. It was interesting to note yester-  
day while senator Teller was mak-  
ing his free-silver argument the num-  
ber of men not generally classed as  
enthusiastic advocates of silver who  
gathered about senator Teller while  
he was arguing for silver. They man-  
ifested sympathy with every proposi-  
tion he advanced.

France has an arbitration law simi-  
lar to the one proposed for this coun-  
try, and the report just made of its  
operation in 1893 is therefore inter-  
esting and suggestive. There were  
634 strikes in France during that year,  
but arbitration was resorted to in only  
109 cases, and of these 13 were settled  
by the return of the employees to work  
before a decision was rendered, 45 re-  
sulted in refusals to accept the de-  
cisions, 21 failed for want of agree-  
ment, and only 30 reached a satisfac-  
tory adjustment. These figures are  
not favorable to that method of solv-  
ing a difficult problem.

**A BLIZZARD FANS A FIRE.**

Hotel Guests Driven Into the Street in Zero  
Weather.

BRADFORD, Pa., Jan. 14.—A fire,  
which destroyed \$150,000 worth of  
property, started in the Sheehan  
house this morning. A blizzard was  
blowing, the weather was intensely  
cold and the fireman were greatly  
handicapped in fighting the flames.  
Several of the guests had narrow es-  
capes. Miss Mary Callahan leaped  
and escaped with a broken ankle and  
arm. The flames were quickly extin-  
guished. Many firemen had their  
hands and ears frozen. Robert Sisco  
had his hands and feet so badly frozen  
that he is in a serious condition.

Croup is a terror to young mothers.  
To post them concerning the first  
symptoms, and treatment is the object  
of this item. The first indication of  
croup is hoarseness. In a child who  
is subject to croup it may be taken as  
a sure sign of the approach of an at-  
tack. Following this hoarseness is a  
peculiar, rough cough. If Chamber-  
lain's Cough Remedy is given as soon  
as the child becomes hoarse or even  
after the rough cough has appeared  
it will prevent the attack. It has  
never been known to fail. 25 and 50  
cent bottles for sale by J. Hal Bobbitt,

The legislature which passes the  
fewest laws is the one which renders  
the best service to the state.

Henry Wilson, the postmaster at  
Welshton, Florida, says he cured a  
case of diarrhoea of long standing in  
six hours, with one small bottle of  
Chamberlain's Colic, Cholera and Di-  
arrhoea Remedy. What a pleasant  
surprise that must have been to the  
sufferer. Such cures are not unusual  
with this remedy. In many instances  
only one or two doses are required to  
give permanent relief. It can always  
be depended upon. When reduced  
with water it is pleasant to take. For  
sale by J. Hal Bobbitt, druggist.

**RESENTS FRENCH INSULTS.**

Germany Goaded to Desperation by Viru-  
lent Abuse.

BERLIN, Jan. 14.—Goaded by con-  
tinued insult of her diplomats in  
Paris, Germany is likely to sever all  
relations with France until their old  
foes recover from their Dreyfus craze.

Count Munster, the Ambassador to  
France, will arrive here tomorrow.  
He comes ostensibly to attend the  
chapter of the Black Eagle, but really  
to consult emperor William as to the  
increasing difficulties of his post in  
Paris. He has many complaints to  
make of the virulent abuse heaped  
upon him by the Paris press, espe-  
cially since the arrest of Dreyfus.

The most trustworthy letters from  
Paris tell of an interview between  
Count Munster and M. Hanotaux, at  
the French foreign office. The am-  
bassador protested that he could no longer  
endure the press libels which im-  
puted to him such dishonest conduct.  
As a gentleman whose office forbade  
his seeking personal satisfaction, he  
must resign his post unless the French  
government undertook to silence his  
calumniators.

For a pain in the side or chest there  
is nothing so good as a piece of flannel  
dampened with Chamberlain's  
Pain Balm and lound on over the seat  
of pain. It affords prompt and per-  
manent relief and if used in time will  
often prevent a cold from resulting in  
pneumonia. This same treatment is a  
sure cure for lame back. For sale by  
J. Hal. Bobbitt, druggist.

**Want immediate Aid.**

The U. S. wants a war vessel at Hon-  
olulu, and wants it quick. In fact,  
the government is urged to send one  
there that, when the natives revolt,  
everyone who has opposed the queen  
is likely to be slaughtered.

Not only that, but it is feared that  
their families will suffer atrocities and  
the request for a war vessel is strongly  
based on the ground of humanity.
