## FROZEN TO DEATH.

An Unknown Tramp Found Beneath a Freight Car, Frozen Stiff.

Early the other morning when a south bound freight pulled into the Johnson street depot it carried a grim passenger underneath the car unknown to the train crew. The passenger was a man who had been stealing a ride or at least it had been a man, for when the train reached Raleigh the spirit of the man had taken its flight and left only the body to travel here on the train.

The train's ghostly passenger was discovered by a brakeman. As he passed a car he saw he saw underneath it a dim figure of a man stretched at full length on a board which was placed over the iron bars under the car. The brakeman thinking it was a tramp who had just boarded the train to steal a ride, gave the man a poke with a stick; the man did not budge and the brakeman poked him again and again with no effect. Finally, he stooped down and threw the light of his lantern upon the body. Then a horrible sight met his eyes. The body of the man was cold and stiff and the features had a strange, set expression. The brakeman drew back in horror and called assistance. Then it was found that the man, who was evidently a tramp, was dead. His hands tightly grasped one of the iron bars and when the body was taken from underneath the car it was difficult to release their icy grasp.

The man had evidently frozen to death during the night. There was absolutely no means of identifying the dead man and his body was buried here on Thursday. The railroad people had very little to say about the matter, in fact they denied the story—but that is a peculiarity of railroad people.

## Confederate Monument.

The monument is now nearing completion. The granite work being delayed for a short while on account of the intense cold weather. The statuary has all arrived in Raleigh and is pronounced by the sculptors in Munich as handsome as can be made. But with deep regret the ladies fear having to give up the statuary. They have worked with zeal, but the scarcity of money has prevented their raising a sufficient amount, and they feel unwilling to accept Col. Muldoon's offer to credit them, for enough money has been raised to complete the granite work and while it is of course a very great disappointment Col. Muldoon can use the statuary on other southern monuments he is now building.

## LADIES.

### Mr. Harrison Gray Fisk.

Many will kindly remember Harry the sprightly little Jersey lad who but a few years ago spent several winters in Raleigh with the Blackball boys. He is now Mr. Harrison Gray Fisk, editor and proprietor of the New York Dramatic Mirror, the theatrical paper of the world. Mr. Fisk is not only ahead of all Americans as a writer in this special line, but is a play writer of marked ability. His recent production, the district attorney, will make him famous for years to come. It is now having a big run in New York and will doubtless be played on not only every first class stage in this but in other countries.

### Mrs. Cuninggim Dead.

Saturday Mrs. W. H. Cuninggim, a highly esteemed and christian lady, died at her home here. For many months her death had been expected. She was the beloved wife of Rev. W. H. ## THE WEATHER.

The Conditions and the Forecast.

For North Carolina: Fair, warmer Tuesday morning.

Local forecast for Raleigh and vicinity: Tuesday, fair, warmer.

Local data for 24 hours ending at 8 a. m. today. Maximum temperature 44; minimum temperature 27; rainfall, 0.00.

The center of the low pressure is over the northern lake region, while the highest is over Florida. These conditions of pressure cause threatening weather with some snow on the north with generally clear weather in the south. Southerly winds prevail in the south. The temperature has risen everywhere east of the Rocky mountains since Saturday. The conditions are favorable for fair, pleasant weather.

### The State Printing.

The announcement of the bids for the state printing and binding have been misleading, as only the bids for type-setting were published. A comparison of the bids for the whole work shows very little difference between the bidders. However, as the matter now stands, it will take a committee of expert book-binders and printers to figure out who is the lowest bidder, there being such a diversity of styles and kinds of work to be done.
