RALEIGH, N. C., FEBRUARY 21, 1895.

The gold bond bill would have been  
beaten in the house if either party  
alone had done all the voting.

James B. Gentry, the actor who shot  
Madge York, the actress in Philadel-  
phia, has been captured. He tried to  
stab himself, and is in a hospital.

News comes today from Sitka,  
Alaska, that diamonds of splendid  
brilliance have been found in the lava  
beds on the sides of Mount Edgecombe.

The readiness of Chinese generals  
and admirals to commit suicide after  
a disaster adds to the difficulty of un-  
derstanding what war means to the  
Mongolian mind.

From the recent statistics it is shown  
that the ratio of deaf mutes in the  
world is one to one thousand six hun-  
dred people. There are upward of  
forty thousand such unfortunates in  
the United States; one million in the  
world.

The possibilities of a rapid growth  
of manufacturing in the south are in-  
stanced in the recent history of the  
old town of Tampa, Fla. Ten years  
ago, when the population was about a  
thousand, the first cigar factory was  
established.

According to the estimate of the  
senate committee on education and  
labor, the strikes during the past six  
years have involved losses aggregating  
\$98,556,859; and it is impossible to  
see that the labor problem has been in  
the least degree simplified by the  
enormous expenditure.

The custom receipts are interesting  
as compared with those of last year,  
and it seems likely that the revenue  
will come up to the necessities of the  
government within the next two or  
three months. Such a change would  
do more than anything else to solve  
the financial problem.

Tampa, Florida, has grown to such  
an extent, especially during the last  
two years, that the population is now  
17,000. The tobacco factories employ  
over 5,000 operatives, and the aggre-  
gate of their product is \$6,500,000.  
Tampa is the nearest railway point to  
Havana, a fact that has much to do  
with its recent development.

The wrecking of the bank of Lex-  
ington by cashier Piggatt emphasizes  
the public demand for some method  
of securing depositors and other  
creditors of the banks. It also shows  
how easily a trusted officer can line his  
pockets or waste a bank's assets with-  
out being called to account by the  
officials upon whom the people deal-  
ing with the bank rely for production.

Twenty-five thousand letters at the  
bottom of the sea! No fewer, and,  
possibly, twice that number went down  
with the Elbe. Of these at least a  
couple of thousand were registered,  
and perhaps as many more contained  
money or other inclosures of value,  
though not registered. The damage  
and distress involved by the loss of  
those 250 sacks of mail matter may  
hardly be calculated.

The British and France have taken  
alarm at the splendid performance of  
our two new triple screw cruisers, the  
Columbia and the Minneapolis. For  
a long time this great departure in  
naval engineering, so successfully

practiced by engineer in chief Mel-  
ville, was looked upon with suspicion  
by foreign naval powers, and, indeed,  
there were many critics in our own  
navy, who predicted the failure of the  
vessels, but now all proposition seems  
to have disappeared, and both Great  
Britain and France are to pay us the  
compliment of building vessels of  
this type, and even endeavoring to im-  
prove upon the originals.

Nobody except the president of  
the United States knows the strain  
which was put upon him by the events  
of last week. The condition of things  
was as bad could well be. The country  
seemed to be drifting towards a finan-  
cial iceberg strong enough to crush  
all our financial interests if we allowed  
a collision to take place. And yet  
there were men rejoicing over the  
necessity which was thus forced upon  
the president of securing a new loan.

**Sentenced for Wheat Theft.**

WABASH, Ind., February 20.—In the  
Kosciusko circuit court today George A.  
Miller, proprietor of an elevator at  
Barklet, a small station on the Nickel  
Plate road, was sentenced to three  
years in the penitentiary and to pay a  
fine of \$300 for the theft of 10,000  
bushels of wheat. Miller received for  
store the entire crop of wheat of the  
farmers in his vicinity in 1893, ship-  
ped it out as fast as it came in and  
then decamped. He was captured  
after a long chase, but made a strong  
defense in court.

ASKENBY, O., July 21, 1891.  
MRS. LIPMAN BROS., Savannah,  
Ga.: DEAR SIRS—I bought a bottle of  
your P. P. P. at Hot Springs, Ark., and  
it has done me more good than three  
months' treatment at the Hot Springs.  
Send three bottles to O. D.

Aberdeen, Brown County, O.  
Capt. J. D. Johnston.

To all whom it may concern: I here-  
by testify to the wonderful properties  
of P. P. P. for eruptions of the skin. I  
suffered for several years with an un-  
pleasant and disagreeable eruption on  
my face. I tried every known reme-  
dy but in vain until P. P. P. was used,  
and am now entirely cured.

MRS. LIPMAN BROS., Savannah,  
Ga.: Gentlemen—I have tried your P.  
P. P. for a disease of the skin, usually  
known as skin cancer, of thirty years'  
standing, and found great relief; it  
purified the blood and removed all ir-  
ritation from the seat of the disease  
and prevents any spreading of the  
sores. I have taken five or six bottles  
and feel confident that another course  
will effect a cure. It has also relieved  
me from indigestion and stomach  
troubles. Yours truly,  
CAPT. W. M. RUST,
