The matter was so arranged that in communities where preponderance of sentiment was in favor of saloons they could be allowed, while in those where they were not desired they could be prevented. In other words the local option system was established by an indirect method, and the people were left practically free to decide the question of the liquor traffic. The expedient was open to criticism on account of apparent double-dealing, as well as because of certain legal peculiarities which had never before been known in legislation; and steps were at once taken to test it in the courts. Contrary to general expectation among the lawyers, the supreme court of Iowa has rendered a decision sustaining this novel plan of adjusting a difficult matter. Five of the six judges hold that the law is constitutional from every point of view, and that the legislature had a perfect right to delegate to the people of each community the power to permit or to forbid the sale of liquors.

The first experiment ever made in the telegraphing a picture for a long distance was made at San Francisco yesterday, when a picture was wired from Los Angeles to San Francisco. The experiment was successful. The inventor believes his idea to be most valuable in newspaper work or in the police or secret service. A good picture can be sent at the cost of and in about the space of 250 words. It should take no longer than half an hour to send and reproduce a diagram.

Early yesterday morning, near Florence, S. C., a fast train on the Atlantic Coast Line ran into a washout and was completely wrecked. The engine passed over, but the tender, mail, baggage, first class car and three sleepers went down. There were few passengers on the train, none of whom were killed. Rev. Thomas Dixon, Jr., the noted New York preacher and orator, received the worst injuries, but they are not serious. To add to the horror, the two sleepers in the rear took fire from lamps and were burned. Rev. Mr. Dixon had boarded the train at Fayetteville. He returned to New York last night.

I recommend Chamberlain's Pain Balm for rheumatism, lame back, sprains and swellings. There is no better liniment made. I have sold over 100 bottles of it this year and all were pleased who used it. J. F. Pierson, druggist, South Chicago, Ill. It is for sale by J. Hal Bobbitt, druggist.

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener,
Conway, Ark.

H. A. Ancker, M. D.,

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Chauncey Mitchell Depew

Recently said that one of his favorite ways of spending an evening was to hunt up every imaginable phase of some question, in the argument of which he had been worried on his way up town.

"And when I know what the ENCYCLOPEDIA BRITANNICA has to say about it," he said, "I feel capable of wiping up the floor with that man." It is a counterpart of Mr. Depew's faithful library friend that is offered to our readers on terms so low as to be almost humorous.

One cigar a day less is nothing in the way of self-denial yet for the price of that indulgence this complete library can be brought into the family, so that every member can, in the words of Charles Dudley Warner, "drop a nickel in the slot and take out a complete education."

Mr. Depew further said that when a boy

He Made it a Rule

To lay aside one-fourth of his earnings, and that he has ever since, throughout life, observed this rule. In fact, the idea of early training in this direction of economy, for the sake of an education, is now being agitated by our leading teachers everywhere, because of the fact that a boy's or girl's future depends very largely on how they use their time and money from five to fifteen years of age.

We invite you to secure the ENCYCLOPEDIA BRITANNICA at Ten Cents a day, and present you with a dime savings bank to instruct your children in habits of economy.

Skin Cancer Cured.

Testimony from the Mayor of Sevin, Tex.
SEVIN, TEX., January 14, 1893.
MRS. LIPPMAN BROOK, Savannah, Ga.: Gentlemen—I have tried your P. P. P. for a disease of the skin, usually known as skin cancer of thirty years' standing, and found great relief. It purifies the blood and removes all irritation from the seat of the disease and prevents any spreading of the sores. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,
CAPT. W. M. RUST,
Attorney at Law.
