The reargument of the great income tax case began yesterday at Washington before the U. S. supreme court.

Municipal elections were held yesterday at forty cities and towns in this state. The democrats carried nearly all.

Collector Melvin E. Carter of Asheville, who died there Sunday, was widely known in this state, and was a man of much ability.

The anxiety of president Cleveland over the silver issue grows apace. It is the one subject in which he is wholly and heartily absorbed.

The evacuation of Corinto, Nicaragua, by the British fleet, was quietly accomplished Sunday, and the port was restored to Nicaraguan authority.

The Tennessee legislature has been engaged for months in keeping in office a few men who were not elected, and this petty business continues to monopolize its entire time.

Never since baseball became the national game has so much interest been shown in it as in the case this season. So far it is anybody's fight in the great struggle of the clubs to win the pennant.

Tammy dies hard. The "tiger" was pretty badly stunned last November, but that he is still alive is evident to those who have watched him with interest or anxiety. He wagged his tail last week.

Captain general Campos has cabled from Cuba to Spain that he wants 20,000 more troops to put down the rebellion in that island, and that, if Spain desires him to succeed in keeping Cuba under Spanish domination another 50,000 men must be held in readiness to enable him to carry out his policy.

How vast a business is carried on by the government printing office may be gathered from the fact that more than 3,000 operatives are employed, at wages aggregating about \$2,900,000 a year; and that 40,888,598 copies of separate documents were printed in 1894.

Queen Victoria has had nine children, forty grandchildren and twenty-one great grand children, and of these seventy descendants are all living but nine. At the rate they are picking up thrones the English royal family will have a corner in European royalty in the course of a few years.

The warships of several of the powers are fast assembling at Chefoo, China. The situation is regarded as ominous. Already eight warships, including two torpedo boats, have gathered and more are expected. In addition British, French and American, and two German warships have arrived. Japan, in conformity with the advice of Russia, France and Germany, renounces her claims to the possession of Feng-Tien, and to the permanent possession of the Liao Tung peninsula, including Port Arthur.

New York city's latest census shows that it is likely to pass the 3,000,000 mark before the close of the century. But if the proposed plan of consolidation goes through this year the population of the city would be considerably over 3,000,000, or 600,000 more than that of Paris, and a million and a quarter less than London's.

The 20th of May is near at hand. It promises to bring to this city the largest number of visitors ever seen here at one time. Are the people fully aware of this? It does not appear that there is a tittle of the enthusiasm which marked the city's centennial celebration. A great deal is to be done by the people here, and but little time remains for preparation. Raleigh must keep open house on that occasion. The reputation of the city, as the capital, depends largely upon its management of such occasions.

OVER THE STATE.

Items of Much Interest Briefly Collated.

At Asheville Catherine Barnes and Beulah Poor, colored, agreed to kill themselves and took laudanum yesterday morning.

The grand commandery of K. T., of the state of North Carolina will meet in Raleigh on the 14th instant.

Gov. Bob Taylor, of Tennessee, will deliver a lecture at Durham May 24th.

Henry Wilson, who is thought to know something about the death of Roxie Swain, was arrested last night at Pleasant Garden, Guilford county.

Jupiter Debarry, a little negro boy, picked up in Stanly county a lump of gold weighing eight pounds, worth about \$2,000. The nugget is now in Wall street.

At Lexington Sunday night four young negro women were seen on the railway. They were followed by three white boys and some negro men. One of the latter had been paying attention to one of the girls, Josie Miller. It is thought a fight took place. Yesterday a train passed over the body of the Miller girl and cut off the head. The body was found to be cold. It is believed the woman was murdered and placed on the track. On her clothing were bloody finger prints. A negro man was arrested, charged with her murder.

A SOUTHERN SENSATION.

A Louisiana Physician Shoots His Wife's Paramour.

Dr. Hirard and Mrs. Swain of Plaquemine arrived at New Orleans on Friday and registered at a house as C. J. Smith and wife, and they were given the best room in the house. Yesterday morning Dr. Swain, who had followed his wife and her lover from Plaquemine, entered the place by a side door and made his way to the room occupied by the pair. He drew his pistol and fired five shots, while the man who was killed fired six shots, none of them hitting Dr. Swain. The latter immediately ran out of the house right into the arms of a policeman, who was attracted by the noise.

The doctor was placed under arrest and taken to the police station. The police sergeant then quickly went to the scene of the shooting to ascertain the extent of the wounded man's injuries. When the sergeant reached the place the man was still alive. He was lying on the bed fully dressed, and a physician, who was called in as soon as possible, was attending him. The physician stated that the case was hopeless, and while he was talking the wounded man expired. The woman who was the cause of the trouble was seated by the bed where the wounded man lay. She, too, was fully dressed, and was remarkably cool. A strange coincidence of this tragedy was that at the head of the bed in which the man was killed was a book the title of which was "Her Last Lover."

Managers True to Their Pledges.

The Frankfort, Ind., News expresses its opinion of the great Wallace show in this wise: "The management proved conclusively to the public that its entertainment is what it is advertised. In the menagerie is to be found a valuable collection of wild animals, each being an excellent specimen of its family. An attractive feature of the show is the horses. Worthy of special mention also is the excellence of the hundred aerobats and gymnasts, each being an artist. The half mile hippodrome track is an exciting feature of the exhibition."
