The Mobile Register declares fifty-six of the newspapers of Alabama are for sound money and only twenty-one for free silver.

Over 40,000 women are attending the various colleges in America, yet it has only been 25 years since the first college in the land was opened to women.

North Carolina reported the wettest April in twenty-five years, the total for the month having been 7.95 inches, and yet the west is anxious for rain and plenty of it. But a country spanning a continent must expect an assortment of weather.

Germany has ordered 10 ocean vessels designed to be armed auxiliary cruisers in case of war. Capt. Mahan's book on sea power seems to have turned the attention of European nations from armies to navies.

Having successfully combined with Russia and Germany to dictate a treaty of peace between China and Japan, France will now resume its normal condition of hatred of Germany.

The oldest American actor, Charles Caudock, who is an American by adoption, having been born in London, has just celebrated his 80th birthday and retired from the stage. His professional career covers a period of sixty years.

After September 1 a girl under 18 cannot be married in New York state without the consent of her parents. Clergymen who perform the ceremony are liable to fine and imprisonment, and the girl's declaration of her age, if she is under the statutory limit, cannot be put in evidence.

If Cleveland is to become godfather to all the triplets born in America, at the rate of \$2,000 per dozen, the New York Recorder says congress should increase his salary or put the triplets in the appropriation bill. But the president denies that he sent the father of the Texas triplets \$500.

A cat show is in progress at New York. There are about 300 entries. The cats have been arranged by breeds and sex into no less than sixty-one classes, and there are money prizes amounting to \$1,000 and a lot of special prizes such as collars, fruit spoons and punch bowls hanging on the decisions made by the three judges.

Eight hundred survivors of the recent massacre in Armenia, who returned to their homes under promise of protection from the Turks, are being daily persecuted and tortured by the Turkish officials. They are trying to extort signatures to an address of thanks to the sultan, stating that they have met with only kindness at the hands of the troops and that all the troubles were caused by the Kurds' raids.

India has now about 14,500,000 acres in cotton and the product is 2,800,000 bales a year. American cotton has been tried to some extent there, with favorable results. It appears that cotton is not grown as cheaply in India as has been supposed.

Throughout the greater part of India cotton is planted in June. The cultivation continues, as for centuries past, in the most primitive methods. Fertilizers are hardly known. The cost to gather and clean cotton varies from \$2 to \$8 per acre. The yield per acre averages from 37 to 98 pounds.

Edison, the electrical wizard, has bought a gold mine in North Carolina, and it is one of those problems over which mining engineers have been dreaming for years. The records of the government show that the gold mines in Virginia, North Carolina and Georgia have sent gold to the mines between \$40,000,000 and \$50,000,000. This does not take into account the free gold and nuggets which have found their way into money through banks and in indirect ways. Up to the time of the discovery of gold in California the bulk of gold mined or washed in the United States came from the Piedmont region between the Potomac and northern Georgia. There are gold-bearing localities in Virginia and North Carolina, which, if not if not equal to those of California at present, will be of greater importance in the future, and more sure of lasting.

 Testimony from the Mayor of Sayre, Tex.  
 SAYRE, TEX., JANUARY 14, 1893.  
 MESSRS. LIPPMAN BROS., Savannah, Ga.: Gentlemen—I have tried your P. P. P. for a disease of the skin, usually known as skin cancer, of thirty years' standing, and found great relief; it purifies the blood and removes all irritation from the seat of the disease and prevents any spreading of the sores. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,
