In the eleven years between 1882 and 1893 the treasury deficits of France reached an aggregate of \$103,000,000.

Cuba, Newfoundland and Winnipeg—all colonies governed from Europe, are in distress, and either fighting or ready to fight.

The cost of the revolutionary war was \$135,193,702, or only about as much as is now paid out for pensions in the U. S. in a single year.

The new steamship St. Louis is the largest vessel ever built in the United States. According to the official measurement her gross tonnage is 11,629.

The address just adopted by the democratic state committee of Connecticut declares in favor of sound money and praises the recent letters of Mr. Cleveland.

The Antwerp world's fair had much bad weather to contend with, but it paid guarantors in full and, in addition, divided a profit of \$50,000. A great fair, if intelligently planned and well managed, will pay every time.

Gen. Quesada has landed at New York and says that the Cuban insurgents have offered to him the command of the insurgent forces, providing he will join them and accept the position. He has this offer under serious consideration.

According to the census of 1890 the total number of farms and plantations in the United States was 4,767,179. With such a competitor as this it is no wonder that the British islands, with their limited area, complain that agriculture is no longer a paying occupation with them.

According to advices received by the executive committee, 430 delegates will take part in the convention of the southern sound money advocates at Memphis, which opens tomorrow. They will represent every state and every leading city south of Mason and Dixon's line.

Secretary of the treasury Carlisle spoke Monday at Covington, Kentucky, and in his speech warmly favored the single gold standard. Thus was the campaign opened in behalf of the administration's financial policy. Secretary Carlisle declares that the act of 1873 was not passed in order to demonetize silver.

Affairs in Corea are in a critical condition. The prime minister has resigned and the minister of the interior has asked the assistance of the foreign diplomats in administering affairs and preserving order. The police have surrounded the residence of the king's father, who is the leader of the anti-Japanese party, and entrance to or exit from the residence is forbidden.

The constitutional convention of Utah has finished its work and the result is likely to be endorsed by the people at the November election, when state officers congressmen and legislature will be chosen. In several respects, the constitution thus framed is a document of more than ordinary interest and significance. It disposes of the thing which has principally

stood in the way of Utah's admission as a state up to this time, by prohibiting polygamy. This means not only that a majority of the people are against the infamous plural wife system, but also that the power of the Mormon priesthood in civil affairs has been broken.

The fifth annual reunion of the united confederate veterans is in progress at Houston, Texas, and over 12,000 veterans are present. The streets of Houston, Texas, are filled with veterans, military companies and a surging mass of visitors. Miss Winnie Davis, Miss Mildred Lee and R. E. Lee camp of Richmond are present. Over 4,000 Texas veterans are present.

The experiment of reviewing the income tax has been rather a costly one to the United States treasury. Up to date the cost of preparing for the enforcement of the law now declared unconstitutional by the supreme court aggregates about \$100,000. All the printing done in preparing blank forms of returns is, of course, a dead loss. There were appointed 240 deputy collectors of internal revenue for the special purpose of handling this tax, all of whom will now be gradually dismissed.

The Florence cathedral, which was damaged by Saturday's earthquake, is a most remarkable and world-famous example of Italian architecture and was begun in 1294 on the site of the earlier church of St. Reparata, and consecrated in 1436, but the lantern on top of the dome was not completed till 1452. The building is 185 1/2 yards long and 114 yards wide; the dome is 3000 feet high. The ball tower, which is 292 feet high, consists of four stories of richly decorated and colored marble.

Chased by Coroners.

NIAGARA FALLS, N. Y., May 21.—Merton W. Jones, a young druggist, had been on a long spree lately, and after a long and arduous journey, he was unavailingly becoming despondent he walked into the buffet of the Sutherland hotel and called for a drink. The bartender gave it to him. Jones took a small paper from his pocket, poured a white powder into the glass and drained the contents. He stood still for about five minutes, threw up his hands and fell on the floor. When the bartender reached him he was dead. Coroners Sloan and Walker hastened to Wilson on the same train, and had a race for the hotel. Each man claimed the case.

Knights of the Maccabees.
 The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at MacRae's drug store. Regular size 50c. and \$1.00.

Thomas & Maxwell has just received a large lot of pine fiber mattresses for people suffering with bronchial lung troubles.

The widow's cap is as old as the edict of Tiberius, commanding all widows to wear the cap under penalty of a heavy fine and imprisonment.

It is estimated that increase in the world's population is taking place at the rate of nearly seven and a half millions a year.
