The Federal Court to Adjourn Saturday.

Judge Seymour of the federal court vesterday reseived a telegram notifying him to go Richmond at once to sit on the circuit court of appeals as one of the latter court has to leave and this would leave it without a quorum. He replied that he could not go until Monday; so the court will adjourn Saturday. It will try as many cases as possible and clear the jail cases. During the past two days 50 cases have been disposed of. There have been twenty convictions and a remarkably large number of submissions. The grand jury returned a true bill against Charles L. Murphrey for stealing \$60 from a registered letter while he was railway mail agent between Washington and Tarboro.

How News Travels.

A couple of weeks ago a waggish fruit dealer here displayed a lot of pineapples, with a sign "Grown in porter saw this and the merchant loaded him up with a story to the effect that the pineapples were grown on the Barringer farm near Lockville. In print the story went out and it is in all the papers. The New York Evening Post says the culture of pineapples in North Carolina is quite successful. Now comes a letter from a big manufacturer of fruit syrups in New York, saying that the pineapple crop in Florida is not good and asking for a supply of North Carolina fruit. Just to think of pineapples in Chatham county!

Mayor Russ says that the purpose of the new city administration is to have better streets and sidewalks and that it is determined to have them. Bad streets and sidewalks are the great drawbacks to Raleigh. Their absence works a positive injury.

There are to be something like 20 North Carolina horses on the grand circuit this season, which begins day after tomorrow. Most of these are trotters, but there are a few running horses. Racing news from the great tracks will therefore be read here with more than common interest.

The decoration day services at the national cemetery began at 6 o'clock this afternoon, and were very quiet. General Meado post, G. A. R., was at the cemetery. There was no parade. The exercises were conducted at the pavilion on the lawn. The graves were afterwards decorated, a flag and flowers being placed on each.

This Wheat Corner Failed.

For two years a vast quantity of wheat-200,000 tons-has been lying in the brokers' warehouses at San Francisco, and nobody seems to know who owns it. It was bought on speculation, at a high price, by a broker, evidently by some one who possessed secret information that led to a belief in a speedy sdvance. But the rise never came, and the wheat accumulated in the warehouses so that now the storage alone amounts to \$300,000. Recently a bookkeeper disappeared, taking with him the records for William Pharr, who two years of the wheat purchases, so that a legal ago escaped from the sheriff of effort to get at the facts of the big wheat deal may be balked.

Up from the jail comes a deputy marshal with seven prisoners, palefaced, and showing the wear and tesr of jail life. Along the wall on the south side these are ranged, on the "dead line." The doorways are crowded, and so is the lobby and the ante-rooms. Out of a door and down stairs goes a moonshiner who says "Well, this will cure me of sucking eggs."

There are people in this world who have an idea that moonshine whiskey is better than any other. A look at the makers of it is enough to teach them better. Bad as are the finitely worse.
