NO. 10.

STATE NEWS.

ITEMS OF ALL KINDS FROM ALL PARTS.

The North Carolina Happenings Briefly Collated.

The new cotton mill at Salisbury is now an assured fact. There is only \$7,000 more stock required before the contract will be let.

W. S. Hill went to sleep on the porch of his residence at Greensboro last Sunday afternoon and when he awoke his shoes were gone. A tramp who thought he needed them took them.

The robberies at Charlotte have ceased since the capture of Smith last Friday, and the Charlotte News says it is now pretty certain he had no confederates, and that he plied the business single-handed and alone.

Six couples have within the past two weeks run off from the Ada mill at Charlotte, crossed the line into S. C., and returned married. There were three elopements from this mill last Sunday.

A unique excursion will be run from Rowan county to Iredell county. There is no railroad connecting these counties and wagons will be used instead of cars. A traction engine will pull the wagons and the management guarantees a schedule of six miles an hour. Round trip tickets will be thirty cents.

Two manufacturing concerns have taken out letters of incorporation at Greensboro, Revolution cotton mill company and Proximity manufacturing company. The capital stock of each is \$300,000, all of which has been paid in. These mills will be built on property recently purchased from the steel and iron company. Two more companies have been formed and will, the Record says, be incorporated this week.

At Salisbury Sunday Anderson Brown, one of the condemned murderers awaiting execution Thursday, was baptised and received into the Methodist church. Several ministers of the gospel, Anderson's mother, sister, wife and a few spectators were present. The Herald says when prayers were offered the other murderer, Whit Ferrand, dropped upon his knees. One of the spectators talked with Ferrand a few seconds. In reply to the question as to how he felt he replied that he was just as happy as a man could be. It is estimated that 10,000 people will witness the double hanging Thursday.

SCHOOL BOOK QUESTION.

Which Side Will be the Winner After All?

When Ginn & Co. began the big movement against what they term the book trust, during the session of legislature, there was quite a sensation. Two attorneys and three or four other persons were engaged in the fight. It is said that first and last Ginn & Co. have expended \$10,000 in this state. They carried their point in securing the "county adoption" of school books. But in doing this they won what seems to be no victory at all. For the legislature afterwards abolished the county boards of education, which would have had the duty of choosing the school books. Now as an attack was made upon the democratic educational system, it is said by some well-informed people that the county commissioners, who have to make the selections of books, will stand by the state superintendent of public instruction by selecting the same books.

An Inoffensive Family Murdered in Cold Blood.

NEW ORLEANS, La., July 22.—News comes of a terrible butchery of human beings in St. John's parish.

While Rosario Giordano and family were at supper Joe Noska walked to the door and, raising a double-barreled shotgun, fired. Mrs. Giordano fell and the bullets that did not go through her went through infant she held in her arms. Giordano and the assassin fired again. The buckshot entered the groin and leg of Giordano. A 10-year-old girl seeing her mother fall ran forward and was shot in the abdomen, literally tearing it to pieces. At the same time little Nicolina fell wounded through the head. The assassin saw Benedetto and Charley Columbo coming toward him, waited until they got very close, then fired both barrels, the two men falling dead. The murderer made his escape.

A huge rattlesnake was killed in Wilmington. He had a cat under his eye and was charming her. The animal was in perfect terror, unable to move yet yelling with all the power of its lungs. Its screams, together with the noise made by the snake with its rattles, attracted the attention of persons nearby and the snake was killed. The Record says the snake was 5 feet long and 5 inches in diameter.

We will offer the best lot of Dress goods ever placed on sale in our 5-7 1/2 and 10 cent lots Friday. It will include all our lawns, Batiste Organdies, &c., in colored or blacks. Woolcott & Son.

GETS TO NORFOLK.

SOUTHERN RAILWAY PERFECTS ARRANGEMENTS

To Make Norfolk-Portsmouth Its Seaboard Terminus.

A telegram from president Spencer of the Southern railway company to the Manufacturers' Record yesterday stated that the company had come to an agreement with the committee of the Norfolk council having in charge the matter of securing terminal facilities at that city. This agreement was submitted to the Norfolk council for ratification. The basis of the agreement modifies the original proposition made by the Southern railway company a few weeks ago. This modified agreement will result in making Norfolk-Portsmouth the seaboard terminus of the Southern railway system.

The special committee of the Norfolk council last evening made a report to the council and Mr. Spencer's proposition was accepted, only one member voting no. It is agreed that the lease shall run thirty years, renewable forever at the option of the company. The consideration named is \$100 in hand and an annual tax to be determined by arbitration. The committee agrees to have its terminus within three miles of the city of Norfolk. It promises not to discriminate against that city in any respect and to give to Norfolk from points south a rate as cheap as Richmond and West Point. It is said that the road intended to go to Norfolk, no matter whether it got the property or not. The city, however, grants the property as stated.

CARROLL TALKS

He Declares that the Gold Men are Gaining Ground.

Marshall Carroll is at Washington, D. C., and proposes remaining three or four days. He has a good deal of routine business with the department of justice, closing up the matters of the last fiscal year. Heretofore the office has not paid in excess of \$2,500 fees, but Mr. Carroll has caused it to reach the limit of \$6,000. He states that it was done justly, without straining points. The number of deputies has been increased from 12 to 50 and the number of commissioners from 8 to 36. The marshal asks for additional clerical aid and thinks he will get it on the showing of business. He does not forget that five counties were recently added to his district. Marshal Carroll tells the correspondent of the Charlotte Observer that as the result of his travels about the state he finds the anti-free coiners are gaining ground.

Searching for Holmes' Victims

CHICAGO, July 22.—The search for the bodies of the missing Williams girls was resumed at the house of H. H. Holmes, the suspected murderer, today, and in a noosed rope, stained dark about the knot, the police think they have made an important discovery. The rope is long and strong. At one end is a plaited loop and at the other a running or "hangman's" noose. About the knot and on the rope near the noose were found several spots of blood. The length of the rope is such that were the plaited loop attached to the wall upstairs of the secret dumb waiter shaft a body hanging from the noose would just clear the floor at the bottom of the shaft. This coincidence convinced some of the detectives that Holmes' alleged victims had been pushed through the upstairs door to the dumb waiter and strangled to death in the shaft below.

Bill Nye's Advice to Girls.

It is quite proper to take a young man's arm after dark. But you should return it to him afterward. Never let a young man take your arm, however. He might criticise your muscles afterward, and it is no way to live. Should he attempt it do not brain him on the spot, for the odor of escaping gas would be disagreeable, but tell him to try to be self-supporting rather than to lean upon the arm of a timid girl. Should he be afraid of the dark and again clutch wildly at your arm, call a cab and send him home. The cost will be but slight, and you will never regret it.

NOT FROM THE MUSEUM.

The Railways Do Not Care to Handle the Exhibits

Arrangements appeared for a time to have been perfected by which the three chief systems of railroads in this state would take to Atlanta and exhibit at the exposition the greater part of the state museum collection. It now appears that this arrangement will fall through. Today it is said that the railroads will make their own exhibits and will not take any articles from the museum. This is greatly to be regretted. Of course all the railroads together could not make an exhibit to compare with the one daily spread before the public eye in the museum. Two of the roads have some exhibits and all three, it appears, are collecting.

Cyclone in New Mexico.

DEMING, N. M., July 22.—A terrible cyclone visited New Mexico today. The town of Silver City is said to be almost totally destroyed, and rumors reach here that thirty people have been killed. The statement of deaths cannot be verified as all communication with the town is cut off. Couriers from the surrounding country have gone to get details.

THE WEATHER.

The Predictions and the Conditions Local and General.

For North Carolina: Fair. Local forecast for Raleigh and vicinity: Wednesday, fair.

Local data for 24 hours ending 8 a. m.: Maximum temperature, 90, minimum temperature, 71, rainfall 0.28.

The pressure is still low over New England, but the storm is moving off to the northeast. The pressure is slightly higher over the central and lower Mississippi valley. The centers of high pressure are over the northwestern states and over the south Atlantic states. Light rain occurred at many places in the south yesterday, but the weather is generally clear over the south this morning. No important changes in temperature have occurred. The temperature is apparently about normal throughout.

REMNANTS.

Only one newspaper man in this state can write "personal." That man is editor Henry Blunt of the Wilson Mirror. Here is a specimen of his style: "The bright, piquant and sparkling Miss Eva Anderson, whose peach like lucidness and exquisitely chiseled figure give to her a sway of irresistible witchery, left on Thursday for Wilmington, where she will visit the sweetest and loveliest maiden in that city—the glorious and bewitching Miss Ethel Barnes—our ideal of maidenly loveliness."

Sheriff Atry of Cumberland went to Wilmington yesterday, taking with him Jordan Williams, colored, and Thomas McEachern who identified the murderer, Duncan McEachern, who was arrested Friday for the murder of Anderson McEachern in Cumberland county in 1883. Sheriff Atry and his prisoner are now at Fayetteville.

State treasurer Worth has information of 22 outstanding bonds of the N. C. Railway, known as construction bonds, issued by the state. Three of these were presented today for payment. They matured in 1884. They are for \$1,000 each. He will pay \$1,990 each. The holders want \$2,880; that is they demand the eleven years' interest since 1884.

Mr. A. L. Jones, who was here two years ago from New York state looking after the matter of growing hops, is now living at Warrenton. He was at the department of agriculture today and says he has five acres in hops in Richmond county. He looked at some hops here and said that if they mature in August they will be worth thrice as much as the late crop in New York.

Died

This morning at 10:30 Kenneth Dayton, infant son of P. A., and Mattie Booker. Funeral services at the residence on South Dawson near West Davie street, at 10:30 o'clock tomorrow morning.

DOT AND DASH.

PICKED UP IN RALEIGH AND VICINITY.

The Happenings of a Day Told in Little Space.

Rev. J. N. Cole has left the city for a week's rest.

Several streets are to be extended in the southwestern part of the city.

John Alston, colored, was sent to the roads for 30 days by mayor Russ today.

No improvement in the condition of Mrs. R. H. Lewis was noted this morning.

Revenue deputies Walker and Shelburn have seized a 140-gallon illicit distillery on the Roanoke river.

Workmen have turned the parsonage of Edenton street M. E. church so it fronts to the westward.

Heavy as the rain was here Sunday night it did not extend far, for only ten miles northwest none fell.

Dr. L. P. Sorrell of this county was brought to the Rex hospital today for special surgical treatment.

Mr. W. S. Primrose left today for Fayetteville and Wilmington, to be absent four days.

The president of a railway not a thousand miles from here has an income therefrom \$100 a day.

Mrs. Lovey Young and Mrs. W. M. Brown returned home this morning from Haywood where they had been on a visit to relatives.

At Apex this morning as a team of four mules belonging to the Hickson lumber company was crossing the railway track one of the mules fell dead.

Mr. John T. Patrick was here today and spent some time at the agricultural department. He is now making a collection along the S. A. L. for its exhibit at the Atlanta exposition.

Dr. A. O. Jones, who has typhoid fever, is now in the hospital. His brother, who for eighteen days had been nursing him, has the same disease and is also in the hospital.

Mr. A. M. McPheeters leaves tomorrow for Atlanta, Ga., and will be accompanied by William L. McPheeters who has lately returned from the Presbyterian college of South Carolina.

Stephen Rains, colored, was sent to jail today by justice Roberts, on his way to the roads. He was sometime ago required to pay costs, for an affray. He failed to pay and is now fined \$25 and costs.

Sunday morning incendiaries made an attempt to destroy the house of Mrs. McArdle at Charlotte. Kerosene oil was used to start the fire just as it was used at the house of Mr. P. H. Hughes here. The oil was poured on the side of the house.

The question is sometimes asked by which railway most of Raleigh's trade comes in. The answer is the Raleigh & Augusta. The people along that line do not do much farming, but are in the lumber business and others of that kind which give them ready money.

Among today's arrivals are Gen. Hoke of Lincoln, W. F. Clegg of Greensboro, W. C. Maxwell and congressman S. B. Alexander of Charlotte, and Joseph W. Kates of Richmond, division superintendent of the Postal telegraph company.

Today the gallows on which Orange Page and George Mills were hanged was taken down and packed by deputy sheriff Brooks and is now stored away over the cells in the jail, for future reference. The high board enclosure which surrounded the gallows was also removed.

The electric storm Sunday night burned one of the generators at the street car company's power-house. There were at the time double the usual number of lightning arresters, but they appeared to do no good in preventing damage. This morning three more arresters were put in, yet this afternoon another generator was burned. The work of making repairs was at once begun, but in spite of this there were no cars for several hours.

NO REASON.

why refuse to use a THERMOMETER that is not accurate?

The only reason why a person should not use a thermometer is that it is not accurate.

Tested Thermometers

has never been top... We have bought... accurate ones and... prices.
