In the high schools of Japan the English language is placed on the same footing as the Japanese and its study is compulsory.

A MEXICAN has brought a claim against president Diaz of that country for \$200,000,000, which, he says belongs to him according to the will of Napoleon III of France.

Gov. Culberson's edict adverse to prize fights in Texas does not seem to have much effect on the sports who take a deep interest in pugilism. They all believe implicitly in Dan Stewart's ability to bring off the big fight at Dallas.

The banking firm of Nesslage, Colgate & Co. of New York which dissolved partnership because of Colgate's double life, has played an important part in the financial history of this country. Colgate was secretary, Windom's adviser, and was the author of the three per cent bonds.

The natural resources of this country are not yet half known. A company just formed in California will manufacture a new fuel composed of a mixture of peat and asphaltum, both of which abound in inexhaustible quantities in different parts of the state.

Russia's Siberian railroad is now in operation 2,300 miles east of St. Petersburg, and is going forward steadily at both ends. When this work is completed the czar expects to build some ship canals of much greater length than any now in existence.

ANNOUNCEMENT is made of the discovery of a new process for keeping fruits fresh, which consists in treating to a vapor from water and alcohol. It is said that even fruits which have begun to decay may be preserved for an indefinite length of time by the process.

The New Jersey fish commission has started a movement for the purpose of exterminating carp in the streams that were liberally stocked with that species of fish a few years ago. It has been discovered that carp live entirely on fish spawn, and they multiply very rapidly. Since their introduction in local waters other food fish have gradually diminished.

There is now in Sing Sing prison, New York, awaiting death by electrocution, a young woman named Maria Barberi, convicted by a jury of murder in the first degree, for the killing of a man who had betrayed and seduced her under the promise of marriage. The facts brought out on the trial showed that the wretch put the girl under the influence of drugs to make her an easy victim.

SECRETARY Carlisle is of the opinion that, all things considered, the democracy will greatly profit by the agitation of the free coinage issue this year. At the outset it seemed to be premature and unwise; but a different aspect has come over the face of things. The fighting, it is true, is vigorous, but it will serve in the end to educate the party and give the two factions a better understanding of each other. Mr. Carlisle seems to think that by next year matters, by reason of the fighting now in progress, will be easy of adjustment.

No matter what the weather there are two men who keep cool. They are the king of Siam and the prince of India. They spend hot days in glass palaces sunk in a lake. In these fairy-like chambers the kings pass the scorching afternoons. The king of Siam, the inventor of this submarine device, is a wonderful person. His name is the longest in the world, containing fifty-seven letters, but he is called Chulalongkorn for short. He has ten different names in addition to this and his titles would fill more than a column of this newspaper yet he is a young man and has six hundred wives.

The settlers at Jackson Hole, Wyoming, have not been attacked by savages. Both they and the whites are strongly fortified. Should the red men attack they would find the settlers prepared to fight. The Indians will be protected in their right to hunt, and indictments will be sworn out against every settler who was connected with the killing of them. It is evident from the present Indian situation that there is danger of a clash of authority, and that the present field movements will be followed by a lively battle in the courts. Governor Richards of Wyoming insists that the Indians must be taught that when they are in Wyoming they must obey the state laws. He objects to having settlers of northern Wyoming harassed and frightened by bands of Indian hunters from other states.

## P. P. P.

PRICKLY ASH, POKE ROOT AND POTASSIUM

Makes **Marvelous Cures** in **Blood Poison**, **Rheumatism** and **Scrofula**

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to the weakened nerves, opens up the congested sinuses, cures all here sickness, gloomy, nervous, and all other ailments.

Secondary and tertiary syphilis, malaria, dyspepsia, and in all the various skin diseases, like blotches, pimples, old chronic sores, leprosy, scabies, boils, erysipelas, eczema, we may say, without fear of contradiction, that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Ladies whose systems are poisoned and whose blood is in an impure condition, due to menstrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P.—Prickly Ash, Poke Root and Potassium.

SPRINGFIELD, Mo., Aug. 14th, 1893.—I can speak in the highest terms of your medicine from my own personal knowledge. I was afflicted with heart disease, pleurisy and rheumatism for 20 years, was treated by the very best physicians and spent hundreds of dollars, tried every known remedy without any lasting relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.

W. M. YEAZLEY, Springfield, Green County, Mo.
