An Italian scientist says the absence of wisdom teeth is common among the criminal class.

GERMANY has collected by the aid of four war-ships \$50,000 from Morocco as indemnity for the murder of a German trader.

The talk that gold is being exported is true to the extent that the excess of exports over imports in the past seven months has been about \$13,500,000.

The time is coming when Canadians will be distributed throughout the United States. The immigration is steady, and there are said to be 75,000 in New York city alone.

A well-known writer in the North American Review says the United States is increasing in wealth at the rate of \$7,000,000 a day.

The income of the Pennsylvania railroad this year has been \$1200 an hour more than in 1894, the increase in six months footing up \$5,331,000.

A Tammany policeman in New York worth \$200,000 has voluntarily come forward and asked to be retired. The profession no longer nets \$10,000 a year.

A Washington correspondent says the silver men talk of putting up Teller of Colorado and Morgan of Alabama, as a presidential ticket and they suppose that this combination will cut up both the old parties.

A warrant for another arrest in connection with the alleged graveyard insurance swindle at Beaufort has been issued. The accused is Dr. L. W. Perkins, of Morehead City, but now a practicing physician at Newport.

It is the theory of not a few naturalists that the increase in insect pests that plague the farmer and horticulturist is due to the slaughter of birds. In an arboretum, near Boston, where birds are undisturbed, sixty-six varieties have taken up their home, and among the number are many orioles and thrushes.

The verdict in the Massey case, Mr. Massey remarked yesterday, "proves many things, but above all others it proves that Samuel W. Small and Richard W. Byrd are malicious libelers, but their reputation for veracity and integrity were so poor that the jury were evidently of the opinion that no man could be greatly injured by anything they might write or say."

Boston now sees the advance guard of the Knights Templar of the United States. This will be the twenty-sixth can law of the grand encampment. For the first time in forty years it will meet with the oldest of its subordinate grand commanderies. There are now thirty-nine grand commanderies in the United States, having under their jurisdiction 973 subordinate commanderies and 103,303 members.

At Richmond yesterday a suit was instituted by Miss Louisa H. Gibson against Thomas J. Todd for slander. Miss Gibson was employed as a saleswoman in a store and her discharge was demanded because it was said she had made a statement derogatory to the integrity of Mrs. Wm. E. Hatcher, wife of a well known preacher. The suit will be the most sensational in the his-

tory of Richmond. The discharge was procured by the leading members of the Baptist denomination on pain of boycott of the store. The statement which it is alleged Miss Gibson made reflecting upon Mrs. Hatcher is one which has been the subject of much gossip in Richmond for some time. Mrs. Hatcher is accused of kleptomania.

There is another side of the Bannock Indian question. It is said the truth of the matter is that the great cattle owners with ranges in Wyoming and Idaho are determined to secure the Bannock reservation for pasturage for their cattle. With this object in view they have systematically and deliberately provoked the Indians for the past three years. If they can cause an uprising they will strive to secure the Indians' removal to another district.
