A HOT WAVE.

That's What is Predicted and Statements Seem to Agree

Weather forecaster Dinn, of New York, according to the World, predicts extremely warm weather for the months of August and September, and Mr. Hicks, of Almanac fame, rather agrees with him. So, between the two, the people of this portion of the world will have about all they can attend to. The New York World contains the following from Mr. Dinn: "Look out for the balance of this month and September." They will be the warmest months of the year. Everything points to scorching weather from now on. I've staved it off as long as I could, but I can't do it any longer. No doubt there are many who imagine the hot season to be practically over because it has been cool so long, but as I have said let them now prepare for warmth."

Special Train to Cary.

At noon tomorrow a special train will leave the union depot for Cary, in order to give people here an opportunity to hear congressman Sibley's speech. The train will return about 6 o'clock p. m. Paine of Granville came in this afternoon from Cary to meet congressman Sibley of Pennsylvania, who was to come at 3.40 and who will speak at Cary tomorrow. Major Jack Hayes, U. S. A., is a great believer in the efficacy of a gatling gun as a peace-maker, and says that in 1877 at Chicago during the riots he saw a mob of 10,000 flee when the gun was hauled out by the regulars. The gatling at Winston is a peace-maker. Most of the negroes at Winston are not natives; many are from the Virginia tobacco towns and many of them are tough customers.
