ARRESTED A SPY.

By Telegraph to The Times-Visitor. Key West, Fla., May 25.—Lieutenant Jimenez, one of the Panama's passengers, was arrested as a spy last night. He had fifty-nine charts of American harbors, tracing forts, mines and torpedo beds in the port of New York.

Martial Law at Key West

By Telegraph to The Times-Visitor.

Key West, Fla., May 25.—Increasing disorder has created a demand for immediate establishment of martial law here.

James J. Dercey, an expert machinist, 55 years old, was found dead early this morning within half a block of the Key West hotel, his head and face bruised almost beyond recognition. He received his wages last night and was undoubtedly murdered for his money. This, coupled with the murderous, probably fatal assault on Seaman Wm. Carne, of the gunboat *Morgil*, has aroused general indignation. There are only two policemen here, each drawing \$25 a month, and both have notified the authorities they will resign.

THE SECOND CALL STATE CONVENTION

North Carolina Must Furnish 1,551 More Troops to the Nation.

Democrats Assemble Here Tomorrow at Noon in Academy of Music.

Everybody is to have a show in the new call for troops.

There are about nine companies already requesting positions in the Second North Carolina Regiment of Volunteers and today President McKinley issued another call for 75,000 volunteers. North Carolina's quota under this call is 1,551 men, and as soon as the Adjutant General receives official notification of the call the companies which have applied for positions in the Second Regiment and who were necessarily refused, will be ordered to recruit to full strength and report to Raleigh at once.

Charlotte, with two companies, Winston with one and several other towns are already on the list and it is probable the Third North Carolina Regiment will be more easily gathered together than either of the first.

The department here has had the experience now and General Cowles will get the men together in the proper way as soon as given proper notice.

Raleigh may be represented in the Third Regiment. There is said to be a movement already on foot to organize another company here. The departments at Washington have recently stated that the next volunteers will be more readily mustered in and equipped, as the factories have about caught up with the work and have begun making an extra supply.

New North Carolina has an opportunity to show to the country that the war spirit is not lacking and that the State is not inhabited by cowards as Tow Topics insinuates.

Let this State's quota be the first raised.

COOL TOMORROW.

For Raleigh and vicinity: Fair tonight and Thursday; slightly cooler. For North Carolina—Fair weather tonight and Thursday.

Weather Conditions.—The barometer is now low only on the Atlantic coast; light rains have fallen from Savannah to Boston. The weather has also become cloudy on the Rocky Mountain slope, with rain from Northern Texas to Dakota.

Throughout the central valley and south the weather is generally fair. A considerable fall in temperature occurred north of the Lake region, coincident with a rapid rise in barometer. It is probable, as the high area drifts eastward, that slightly cooler weather will spread over the north Atlantic States during Thursday.

C. F. VON HERRMANN, Section Director.

A PLEASANT SURPRISE.

Yesterday afternoon the members of Company A, Second Regiment, from Greenville, N. C., were very forcibly and pleasantly reminded of the kind thoughtfulness that our Raleigh people feel for the soldier boys. Mr. and Mrs. Walter Woolcott, assisted by a number of their friends, prepared a tempting supper for one hundred men, and visited the camp. The ladies arranged the repast in their apt imitable style and invited the company to eat with them. The boys were not slow to show their appreciation in unmistakable terms and did full justice to the tempting viands. After a hearty supper, Col. Burgwyn made a few happy remarks and the boys gave three cheers for the ladies of Raleigh and decided that they were equal to any in the world, both in beauty and attractiveness, not even excepting the "girls they left behind them."

IN THE MAYOR'S COURT.

The Work House Supplied With Three Stars From Nowhere.

Mayor Russ this morning sent three recruits to the chain-gang which was reported three short. The first was Moonie Perry (colored), who was caught peddling fish. This matter of peddling without license is receiving heavy strokes by Mayor Russ, and whenever possible breakers of the peddling ordinance are severely punished. He was mustered in for 30 days service.

Ida House, a white woman, charged with drunk and disorderly, and with indecent exposure, was sent out to do cooking for Camp Ray for 30 days.

George Bell, an old white man, 65 years old, who has been a continual vagrant, was also given thirty days. He is a tramp and was yesterday ordered to leave the city.

TO DEWEY'S RELIEF.

By Telegraph to The Times-Visitor. San Francisco, Cal., May 25.—The expedition to relieve Admiral Dewey is ready to start. Three large transports are loaded down with troops.

We are sorry to learn that Mrs. W. M. Hood, 77, continues quite sick. The family has given up house-keeping and are boarding with Mr. Hood's father, where Mrs. Hood can have every attention.

RECEPTION ROYAL OUR HOME GUARD

Fayetteville Light Infantry—the Last Glimpse of the Gray

Raleigh to Have a Pick Company for Home Defence.

The Fayetteville Light Infantry arrived this afternoon at 4 o'clock on the Southern Railway train from Selma. A large crowd was present at the depot and as the men came from beneath the sky they were given a great ovation. The Lumber Bridge Company was at the train to meet the new company. The Blue and Gray were for the last time mingled together as the United States army boys led the Volunteers up Fayetteville street.

The Fayetteville company wore the gray and at every corner were wildly cheered. On Hillsboro street Confederate flags were waved and the men doffed their caps.

Before their arrival the following circular was thrown broadcast:

"Last glimpse of the Confederate Gray, Fayetteville Light Infantry, the oldest military company in the State, and one which has heretofore refused to doff its uniform of Confederate gray, will arrive this afternoon on the 3:35 train from Selma, to join the Second Regiment of North Carolina Volunteers, in response to the call of their country to meet a common enemy, under 'Old Glory.' The men will be in full Confederate uniform for the last time, and will march to Camp Russell, where they will doff the gray and don the blue."

The company will be met at Union Station by the Lumber Bridge Company, of the Second Regiment, and will march to the camp via Martin, Fayetteville, Morgan, Salisbury and Hillsboro streets."

MANY WORKMEN KILLED.

Our headlines in yesterday's issue—"Porterfield is Authority"—over a telegram, alleged to have been authorized by that firm, concerning the American and Spanish fleets, was erroneous. Messrs. Oregon in Florida Waters

By Telegraph to The Times-Visitor.

Washington, May 25.—All efforts of the American newspapers to locate the battleship 'Oregon' have been signal failures, but the pride of the navy has at last found harbor and it is in American waters.

Secretary Long today had notice posted at the Navy Department to the effect that he had received official confirmation of the report that the 'Oregon' had arrived at Jupiter Inlet, Florida.

On the 'Oregon' are several North Carolinians and much interest in her whereabouts has been manifested here where Ensign Johnston, of Lincolnton, has many friends.

Raleigh is to have a home guard, and this is good news to every true lover of peace at home.

While the younger men are off attending for their nation's honor a good company of the older men and those younger men necessarily detained at home will be organized for the protection of the homes of this city.

Mr. J. J. Bernard, ex-Captain of the Governor's Guard and an ex-member of the Raleigh Light Infantry, Mr. C. F. Lumsden, City Tax Collector, and ex-member of the Raleigh Light Infantry, and H. F. Smith, also of the old company, Raleigh so highly respected and honored, are ready to organize a company. It was an easy matter to obtain the necessary number for a company in time of peace, and the men are ready. They will have the use of the armory and will be authorized by the Governor and Adjutant General to do the work chosen—that of protection of the city.

It was a necessity and now we have it. Means of equipment will be arranged and probably before the Second Regiment sees a Spaniard the Raleigh company under some appropriate name will be organized and ready for service in the capital city.

Those men who composed the Raleigh Light Infantry are made of the proper stuff. The city has always honored and respected them and now Raleigh will be prouder than ever of the men who compose the Home Guard.
