Special Cor. Times-Visitor. Washington, August 8, 1898.—If the Spanish ministry had any proper idea of the public sentiment in this country it would not have wastedten days in deciding whether to accept the terms of peace offered. If they knew a good thing when they saw it they would jump at those terms. In the statement of the terms of peace, last week, the administration was given credit to which it was not entitled. Instead of providing that claims of Americans for property destroyed in Cuba should be paid by Spain and disclaiming responsibility for Spanish bonds issued as a lein on the revenues of Cuba and Porto Rico, it mentioned neither, leaving those troublesome matters to be added to the numerous other troublesome things that will have to be tackled by the commission that will negotiate the treaty of peace. The only certain things in the terms of peace are that Spain shall evacuate Cuba and Porto Rico and that we shall retain Manila Bay; everything else is to be settled by the commission.

Mr. McKinley apparently fully besettled by the commission that the Spanish ministry is honest in informally telling him that it intends to accept his terms of peace, although officially it still remains silent. His faith is so strong that the orders for the re-inforcement of Gen. Merching is being done to send Gen.
