THE LEADER IN THE NEWS AND IN CIRCULATION.

TELEPHONE NO. 168.

WEDNESDAY, August 17, 1898.

Flag of the free heart's hope and home!
By angel hands to valor given;

Forever float that standard sheet!
Where breathes the foe but falls before us.

With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us?

-JOSEPH RODMAN DRAKE.

THE BENEFICIARY.

When war against Spain was first declared many politicians feared that an overproduction of heroes would result and that these heroes, by virtue of their heroism, would supplant the old war heroes in political power.

Some foolish persons began to inquire into Dewey's politics soon after the news of the battle of Manila came, but the job was difficult and unsatisfactory.

Bryan, Lee, Wheeler and Roosevelt are almost the only men in the army who have ever figured prominently in politics.

And now Spain will not accept the resignation of Blanco and he must return to his command at Havana to be sent out by General Lee.

Thirty-four years ago the North and South were divided, today the nephew of General Lee and the son of General Grant march side by side.

Street begging is becoming an intolerable nuisance about the city. These lazy characters should be looked after by the authorities and compelled to go to work or hit the grit.

A whole history of tyranny, persecution and retribution is told in the following: "Centuries ago the Jews settled in Spain and gradually accumulated immense wealth."

Mrs. Francis Hodgson Burnett gained her divorce suit but when she assumed the name Mrs. Francis Hodgson, her publishers objected on the grounds that a new name would have no market value.

Admiral Dewey received \$10,000 for destroying the Spanish fleet.

The Secretary of War has not yet been included in the armistice.

General Fitz Lee announces his candidacy for the United States Senate.

Now perhaps the Klondike can get an occasional notice in the newspapers.

A public debate between Richard Croker and Col. Bryan would attract attention.

The Mole St. Nicholas liar has had his cable cut and that, at least, is some consolation.

Wonder if Spain will name Senor Polo as one of the Peace Commissioners.

Bismarck seems to be unfortunate in that he has a hundred would-be Boswells.

Durham will doubtless include the population of Porto Rico in her next census.

Pullman palace cars should be added to the equipage for the Hargett street railway.

The fact that peace has been declared has increased the press bombardment on Alger.

So our Noble Order demands the removal of John R.'s carcass before the crops are laid by.

Columbus discovered America in 1492, but it seems Spain did not discover the United States till 1898.

The Culture of kissing in the Park is not entrusted solely to the keeper of that pleasant evening resort.

Now that we have conquered Spain let us conquer prosperity, capture trade, pay our debt and thank God.

The mortality of Spanish troops at Santiago is so great, the dead by dozens are being cremated in the open air.

So Jim Corbett's father committed suicide because some preachers objected to his son's next pugilistic encounter.

Culture's kick against cupid's evaporative indulgences—kissing in the Park, seems to be a serious case of sour grapes.

The Rockingham Republic announces that Hobson is a Populist. This is another evidence of Populism to claim the earth.

Commodore Schley has recently penned hundreds of replies to congratulatory messages yet he hasn't made a single break.

The administration should give the first N. C. Regiment at least a peep at a Spanish prisoner before they are mustered out of service.

And now Spain will not accept the resignation of Blanco and he must return to his command at Havana to be sent out by General Lee.

Thirty-four years ago the North and South were divided, today the nephew of General Lee and the son of General Grant march side by side.

A whole history of tyranny, persecution and retribution is told in the following: "Centuries ago the Jews settled in Spain and gradually accumulated immense wealth."

Whenever they appeared in public. In Barcelona, the seat of Jewish culture and wealth, the persecution was intense. Then came the edict that the Jews were to leave. They left the land in which their ancestors had dwelt for 1,500 years, and they left behind them the millions they had accumulated.

Their went out beggars. The years passed and Spain forgot her treatment of the Jews, but the Jews had not forgotten it.

"When the war broke out, Spain went down on her knees before the Rothschilds and other Jewish Bankers, and the answer Spain got was, 'Not one penny shall you have to fight a war against the United States.' But when the United States made the request for money the Jewish bankers of New York city responded most generously.

Welcome, thrice welcome, to Teddy the bluff!

The boldest of Uncle Sam's sons; To Teddy the Ready, to Teddy the Rough,

Our Teddy who did up the Dons!

M. Cambon, the French Ambassador to the United States, who represented Spain in the peace negotiations at Washington has been decorated with the Grand Cross of the Order of Charles III.

Admiral Schley writes most dignified answers to the many congratulatory letters he is constantly receiving. He has not yet struck a discordant note, he only grows with his guns.

Rev. Kerr Boyce Tupper, of the First Baptist church of Philadelphia claims that Capt. Phillip, of the Texas, was converted under a sermon preached by him last summer.

Captain Phillip of the Texas, says the tropical heat has reduced Admiral Sampson's weight from 170 to 135 pounds. This may be true still that same heat gave the Admiral the swell head and expanded his bump of self-conceit sufficient to make a stand-off for the loss in avordupois.

The little interesting disagreement between Great Britain and Russia bid fair to give the powers of Europe sufficient to watch to the exclusion of meddling with the affairs of the United States in its dealing with Spain.

A Denver tot closed her prayers with "God bless papa, and mamma, and Dewey, and Shafter, and Schley, and Sampson and Teddy's Terror; and I wouldn't be very hard on poor Admiral Cervera if I were you."

When the peace protocol reached Consul General Wildman at Hong Kong he did not await a dispatch boat, but chartered the largest and fastest steamer at that port to hurry the news to Dewey at Manila, sending it out even while a furious typhoon was blowing.

"I suppose when you got in sight of England you hailed her white cliffs with rapture." "No," replied the American with the double chin. "I did not hail her cliffs, but I called a few of their bluffs before I left for home."—Cincinnati Enquirer.

The editor of the Wilmington Messenger persisted in calling editor Bailey a Republican whereupon the editor penned a denial which the Messenger printed and added: "We had never heard that he was of that tribe but judging simply from the company he kept we took it for granted that he was a Republican." The Messenger harshly assails Mr. Bailey for accepting a place on this board but the Messenger's attack is so unjust that it will receive no attention from any quarter.

True as it is that many a heart has been saddened by the war with Spain, yet from every standpoint it is destined to be a blessing to the nation. Its deeds of valor have shed glory on the American name, and crowned the republic with lustre as the proud possessor of such sons as Dewey, Schley, Watson and Sampson commanding her navy, and Shafter, Miles, Lee, Wheeler and others commanding her army. This war will pay in patriotism, in industry, in labor and in natural greatness. Certainly it has been worth its cost.

"My system was very much run down by typhoid fever. I began taking Hood's Sarsaparilla and the effect was most invigorating. It gave me a new lease of life, and I have enjoyed good health ever since taking it, and have been able to follow my usual business." J. A. Conner, Jr., Rockbridge Baths, Virginia.

With peace comes the peace poets and how these white doves will whirl and curl; how their wings and things and the breeze that flings will permeate all the ink that slings.
