1.1.1  WILL SPAIN ACCEPT

The answer of Spain to the note of the American Commission at the joint session last Monday is the subject of much discussion, says a special to the Washington Post. That the Spanish Commission will act with the full approval of and under instructions from Madrid is not denied. The Madrid government insists that their Commissioners shall conclude a treaty, although it is well known here that their plenipotentiaries individually favor abandonment of further effort. They express much indignation at the attitude of the Americans, and again trheaten to appeal in a protest to the powers of Europe, or as one of them

puts it, appeal to humanity. The American Commissioners have been firm, courteous and dignified. Intrenched behind the protocol and their instructions from Washington, they have pursued a straightforward, unequivocal course which has won for them high praise from the unprejudiced on this side of the Atlantic. No attache has a more difficult or

responsible position than Arthur Ferguson, the official translator. He speaks perfect Spanish. All the oral arguments are translated by him either into one language or the other. His work has been without criticism.

Gen. Geo. B. Williams and Mr. Frank Riggs and family arrived here yesterday.

#### A \$3,000,000 MORTGAGE.

In our rounds of the court house, says unable to seriously break the ranks of the Wilmington Messenger, we ascertained that there was recorded in the register of deeds office yesterday a mortgage for \$3,000,000. It was a consolidated mortgage by the Carolina Central Railroad Company to the Farmers' Trust Company of New York. and on inquiry we learned that it was filed by Hon. Walter H. Neal, of Laurinburg, attorney for the Seaboard Air Line. We ascertained that this mortmage does not mean an additional incumbrance on the property of the railroad company, but represent the entire

Gen. Lee Went to Visit His Mother in Stafford.

By Telegraph to the Times-Visitor. RICHMOND, VA. Nov. 3 .- General Lee left Tuesday for Stafford to visit his aged mother who had the misfortune to fall Sunday and injure herself. Mrs. Lee's condition is not more serious than it was several days ago. General Lee's brother, at whose house their mother is living writes that Mrs. Lee is in excellent spirits and not suffering any great pain. General Lee's visit to Stafford will prevent him from going to Savannah as soon as he had anticipated. It was his intention to leave Tuesday night, and arrangements had been perfected to that end. Governor Tyler and the other members of his party who were to have accompanied the General, will also defer their trip until General Lee returns.
