WASHINGTON, Nov. 14 .- Orders have been sent to the Brooklyn navy yards not to begin new work on the warships, but to make all necessary repairs as soon as possible. There will be rendezvous at Hampton Roads to await the result of the Paris conferWHO ARE THE ANGLO-SAXONS?

Universal War-Federation of Nations -Universal Peace.

Attracted by the headline, "Anglo-Saxons," so frequently used now throughout the world and realizing those words to be of momentous importance, and having been greatly interested for some years in the study of the Angle-Saxons, a word new as to their past and future history, cannot fail to excite profound interest.

Without going into the discussion that the Angle-Saxons are of Hebrew origin, or descendants from the ten lost tribes of Israel, for I believe this, as I have long since known the racial unity of Israel and the Anglo-Saxons. With Scripture the identity is complete. "As face answereth to face in water," so Anglo-Saxon Listory answers to the destiny assigned to Israel in prophecy. This being true the Anglo-Saxons then must be a party to whom these predictions relate. The argument from this standpoint is conclusive and overwhelming. What profound admiration and gratitude this truth inspires humanity when known. It is refreshing and roul- exhibarating to be able to see the steady prosecution of God's eternal purpose through the ages; being wrought out in his "chosen people" of today. The Anglo-Saxons.

I will say however, that with thousands in Europe and America it is an established fact that Israel and Saxon are on organic and ethnic unit. We are living in an age, when theories and however venerable.

challenged. Nothing is accepted trust. Facts are certainly demanded. So those who have not investigated are not expected to embrace this truth. All who have are firm believers in the ethnological, physiological, historical and scriptural proofs in the divine demontrations of the fulfillment of prophecy concerning Israel's future in the history, position and destiny in the Anglo-Saxons. The exile of Israel has generally been regarded as the "end of his downward career," terminating in total oblivion. It is in fact, the beginning of the fulfillment of his appointed destiny. The key that locked the richest rael Lost." The key that unlocks the

store-house of God's treasure was "Isriches and glory of future ages is "Israel Found."

If then the Anglo-Saxons are Israel, or in other words if Israel are the Anglo-Saxons, they are God's executive for civilization, evangelization, order and conquest. Through them God will conquer the world to a universal peace. The idea is this: God is conducting His Providence through human instrumentality-through His Ancient chosen people-through Saxon-Isra:l of today. As was announced of old through them God's special providences was to flow to all nations, both temporal and spiritual-natural and istend Jones, Col. Julian S. Carr and spiritual. First the natural, then the spiritual. The New Testament plants The Atlantic Coast Line, the South- the life and prosperity of the Gentile world upon the course and progress of Israel, or Saxon is to all mankind what Moses was a type to Anclent Israel- a divine executor. Spiritual Israel must come through literal Israel. "The restoration of all things, which God hath spoken by the mouth of his holy prophets," includes the restoration of the Hebrew notion with its commonwealth and theocracy, under which they acknowledge no king but God. This was the form of government which Meses gave to Israel. It was a government of the people. The appointment of a human king by Israel of old was a retrogression, which cauled their downfall. Divided the kingdom into Judah and Israel, Judah scattered, Israel lost. But this Kingdom of Israel is to be restored and re-

> on; nor can there be any other with the commonwealth and theocracy re-Briefly stated, God's purposes began with the covenant made to Abraham, which was to descend through the flesh, and according to the promise was to exist forever, and of his seed no man could number. The four points of compass mentioned in this covenant embraces the whole earth. So the Saxons of today being Israel, of the seed of Abraham, both natural and spiritual, have a glorious mission to perform in subduing the world unto God and forc-

united, and fill the whole earth. No

other king is necessary for Israel-Sax-

ing all people to acknowledge Him. Certain events occurring locate Co Saxons and point out the prophetic period we are in. The times are peculiar interesting from this very fact. "Coming events cast their shadows before." Men feel in their fear and hopes the presence of prophecy. The church is remarkably anxious and unrestful. Governments are suspicious and confounded. The populace is restless and threatening. Indeed everything conspires in church, Seate and people to forecast the future. The few years to come are pregnant with angry forces. The nations of the earth are busy, sowing the winds, and the harvest will surely be a whirlwind.

The question naturally arrises. What of the future? I answer. War. Universal war. When? The answer is, now and on to the end of gentile supremacy. The Gentiles being other than Saxons. The earth this hour is a great tinder-box. The final conflagration is liable to break out at any time, between any two countries. The greatest incentive for war is the preparation generally throughout the country.

for war. There are 20,000,000 of armed troops on the earth today, besides its vast navies, coast defences and other agencies. More and larger appropriations for war than ever before in the history of the world. The cause of the war will be racial-Anglo-Saxon against the world. The success of the United States in a war with Spain, is one of the evidences of the onward march. All the continental powers will ruln each other, and finally sink into a state of s; upor and weakness similar to that of Spain. England and the United States. or the Anglo-Saxons are to become the undisputed masters of the world-they are already the dictators of all peoples. Great Britain and the United States, and other allies will federate, offensive and defensive, against the Gentile, or other powers, who will also form an alliance offensive and defensive against the Aglo-Saxons. This will cause the

greatest racial struggle of the world.

The final possession of the world by the Anglo-Saxons is a decree of the Almighty and no power can prevent or delay it. If time would permit, the Angio-Saxons would possess the earth without having to fire a single shot. But the jealousy of the Gentile powers is waxing warmer daily, and soon the dasa will come. A universal struggle he senter of which will be everywhere. The very opposition of the powers to Anglo-Saxon supremacy will hasten more rapidly the final consumation of the Anglo-Saxon's world-wide rule You may call this "the logic of events." It will nevertheless be, the realization of the destiny assigned to Israel-Saxon by our ancient prophets of old. This new and latter house of Israel-Saxon s standing as an angel of the Lord to day, before all the world. Its final government of the nations, its brilliancy ind power will be far beyond the imagination of mortal mind. It will be the flaming sword of the Most High, stationed in the center of nations, and will rule over them with a red of iron, but tempered with mercy, love and exact lustice. Then the whole earth will enjoy universal peace and prosperity. Then "the sword will be beat into the plow-share, the spear into the pruninghook, and nations will learn war no

The prophecy of Joel III, 10. Beat your plow-shares into swords, and your oruning-hooks into spears," is now be ing veritably fulfilled, and ere soon the universal struggle will be over.

P. C. ENNISS.

Mr. Editor-I potice in your paper earcely before the vote of Wake county had been determined some one writing, suggesting Mr. B. R. Lacy for Mayor and Mr. W. C. McMackin for superintedent of county roads.

A SUGGESTION.

These are good selections and if elected to these positions, no doubt the would make efficient officers. But, Mr. Edl. or, this is not the right principle for us to work on. These gentlemen, as well as many others, held offices under now we think that all those who held those offices should hold off and le. some other Democrat come in. There are plenty of others just as competent and will make just as good officers as they, and as our party does not believe in monopoly, I hink these positions dould be given to new men entirely.

Yours truly, C. R. LEE.

Services yesterday both morning and night, but owing to the inclement weather the congregations were not very large, especially at night.

CENTRAL M. E. CHURCH.

Two sermons, and the one in the norming was exe flent. The firs, Scripture lesson was the 22d Psalm. The 2d was a part of the 3d chap, of Paul's Epistle to the Ephesians. The theme of his subject (the pastor, Rev. E. C. Gleren) was based upon the 15th verse of the 3d chapter of the Epistle to the Ephesians,

"The whole family of God in heaven and earth," Our church is in pretty good working condition, and is improvng I think both at numbers and spiritually. There were six joined the church yesterday morning by certificate. We desire to say to our brethren, please to come to the rescue of the Board of Stewards, in getting the balance of the paster's salary. And do not forget the conference collection as our beloved pastor is exceedingly anxious to have a perfect sheet.
